RT Boltzmann-Vlasov equation
collisional plasmas
dense plasmas
electron plasma
Helios Project
relativistic plasmas
strongly coupled plasmas
thermal plasmas

high temperature propellants
GS propellants
. **high temperature propellants**
RT electrothermal engines
gelled propellants
gelled rocket propellants
ion propulsion
nuclear propulsion
plasma engines
solid propellants
storable propellants

high temperature research
GS research
. **high temperature research**
RT plasma generators
refractory materials

high temperature superconductors
(added December 1992)
DEF New superconducting materials consisting of mixed metal oxide ceramics that maintain their superconductivity at higher temperature ranges (above 24 K) than the more traditional superconductors.
UF *HTSC (superconductors)*
GS conductors
. superconductors (materials)
. . **high temperature superconductors**
. . . BSCCO superconductors
. . . YBCO superconductors
RT barium oxides
ceramics
critical temperature
cryogenic gyroscopes
cryogenic magnets
cryogenics
electrical resistivity
Josephson junctions
liquid nitrogen
low temperature physics
metal oxides
mixed oxides
operating temperature
SIS (superconductors)
strontium oxides
superconducting magnets
superconducting power transmission
superconductivity
yttrium oxides

high temperature tests
UF *heat tests*
GS environmental tests
. **high temperature tests**
RT bomb calorimeters
calorimeters
chemical tests
cold strength
cold weather tests
cryostats
drop calorimeters
flame calorimeters
hardness tests
lubricant tests
∞ materials tests
melting points
nondestructive tests

organic compounds
. amino acids
. . **hippuric acid**

His bundle
RT cardiac auricles
cardiac ventricles
electrophysiology
heart diseases
heart function
nerves

hiss
DEF Random noise in the audiofrequency range, having subjective characteristics analogous to prolonged sibilant sounds.
GS electromagnetic interference
. radio frequency interference
. . electromagnetic noise
. . . atmospherics
. . . . ionospherics
. . . . . **hiss**

histamines
GS drugs
. **histamines**
RT amines
antihistaminics
itching

histidine
GS acids
. amino acids
. . **histidine**
amines
. **histidine**
organic compounds
. amino acids
. . **histidine**

histochemical analysis
DEF In biochemistry, the analysis of chemical components in tissues.
RT bioassay
biochemistry
cells (biology)
organic chemistry
tissues (biology)

histograms
RT discrete functions
graphs (charts)
normal density functions

histology
GS medical science
. **histology**
RT epithelium
morphology
platelets

histories

USE **OH-6 helicopter**

HO-6 helicopter
USE **OH-6 helicopter**

hodographs
RT Chaplygin equation
kinematics
vector spaces

hodoscopes
GS measuring instruments
. radiation measuring instruments
. . **hodoscopes**
RT radiation counters
scintillating fibers

hogbacks
USE **ridges**

hohlraums
DEF In radiation thermodynamics, cavities whose walls are in radiative equilibrium with the radiant energy with the cavity.
RT black body radiation
emissivity

Hohmann trajectories
USE **elliptical orbits**
transfer orbits

Hohmann transfer orbits
USE **elliptical orbits**
transfer orbits

holders
GS **holders**
. flame holders
RT anchors (fasteners)
∞ bands
bolts
brackets
clamps
clips
fasteners
jigs
latches
lugs
mechanical devices
nuts (fasteners)
pins
positioning devices (machinery)
rivets
screws
∞ spikes
splines
straps
studs (structural members)
zippers

∞ **holding**
SN (USE OF A MORE SPECIFIC TERM IS RECOMMENDED—CONSULT THE TERMS LISTED BELOW)
RT constraints
delay
retaining
stopping

hole burning
DEF A laser process that depletes, spatially or spectrally, the electron/hole pair density in a region of space or frequency of high coherent light, being spatial hole burning and spectral hole burning respectively.
RT computer storage devices
holography
laser applications
lasers
lasing
memory (computers)

∞ **hole distribution**
SN (USE OF A MORE SPECIFIC TERM IS RECOMMENDED—CONSULT THE TERMS LISTED BELOW)
RT current distribution
hole distribution (electronics)

∞ **holes**
SN (USE OF A MORE SPECIFIC TERM IS RECOMMENDED—CONSULT THE TERMS LISTED BELOW)
RT boreholes
cavities
coronal holes
gaps
holes (electron deficiencies)
holes (mechanics)

holes (electron deficiencies)
(added November 1991)
UF *electron holes*
GS charge carriers
. **holes (electron deficiencies)**
RT acceptor materials
crystal defects
donor materials
electrons
excitons
hole distribution (electronics)
hole mobility
∞ holes
majority carriers
∞ materials
minority carriers
order-disorder transformations
p-type semiconductors
semiconductor plasmas
semiconductors (materials)
Suhl effect
vacancies (crystal defects)

holes (mechanics)
(added September 1988)
RT cavities
hole distribution (mechanics)
hole geometry (mechanics)
∞ holes
perforated plates
perforated shells
∞ perforation
porous boundary layer control

Holland
USE **Netherlands**

∞ **hollow**
SN (USE OF A MORE SPECIFIC TERM IS RECOMMENDED—CONSULT THE TERMS LISTED BELOW)
DEF Low tract of land surrounded by hills or mountains; small sheltered valley or basin, especially in a rugged area.
RT **cavities**
∞ **depression**
recesses

hollow cathodes
GS **electrodes**
. **cathodes**
. . **hollow cathodes**
RT **tube cathodes**
tunnel cathodes

holmium
GS **chemical elements**
. **rare earth elements**
. . **holmium**
. . . holmium isotopes
metals
. **rare earth elements**
. . **holmium**
. . . holmium isotopes

holmium isotopes

holrammetry
RT **holography**
imaging techniques
photographic recording
photomapping
speckle holography
terrain analysis

holographic interferometry
GS **interferometry**
. **holographic interferometry**
RT **coherent light**
diffraction patterns
holographic optical elements
holography
laser outputs
Moire interferometry
scatter plates (optics)
speckle holography
wave front reconstruction

holographic optical elements
(added April 1995)
DEF Holograms used to control transmitted light beams, rather than to display images, based on the principles of diffraction.
RT **diffraction paths**
geometrical optics
holographic interferometry
imagery
laser beams
light transmission
optical paths
pulse diffraction
wave diffraction
white light holography

holographic spectroscopy
GS **spectroscopy**
. **holographic spectroscopy**
RT **Fourier transformation**
holography
spectrum analysis
wave front reconstruction

holographic subtraction
DEF A holographic technique by which two dissimilar optical fields can be subtracted to yield only their difference. Used for self subtraction holography.
UF *self subtraction holography*
RT **holography**

holography
DEF The interferometry technique used to make three-dimensional pictures of surfaces. One light beam illuminates a surface, and sets up interference patterns with a reference beam.
GS **imagery**
. **photography**
. . **holography**
. . . **acoustical holography**
. . . **microwave holography**
. . . **speckle holography**
. . . **white light holography**

physiology
respiratory system
skin (anatomy)
stress (physiology)
thermoregulation
thromboplastin
water balance

homeotherms
UF *warm blooded animals*
GS **animals**
. **homeotherms**
RT **birds**
body temperature
mammals
vertebrates

homing
DEF The following of a path of energy waves to or toward their source or point of reflection.
RT **automatic pilots**
beacons
guidance (motion)
missile control
radio direction finders
terminal guidance

homing devices
UF *seekers*
RT **beacons**
guidance (motion)
infrared tracking
laser guidance
missiles
navigation
navigation aids
radio beacons
radio direction finders
radio navigation
rendezvous guidance
solar compasses
trajectory control

homodyne reception
GS **signal reception**
. **homodyne reception**
RT **frequency synchronization**
radio reception

homogeneity
DEF Having the same properties at all points.
RT **anisotropic media**
homogenizing
sampling
statistical tests
unity
variance (statistics)

homogeneous turbulence
GS **turbulence**
. **homogeneous turbulence**
RT **atmospheric turbulence**
fluctuation theory
isotropic turbulence
low level turbulence
magnetohydrodynamic turbulence

homogenization
USE **homogenizing**

homogenizing
UF *homogenization*
GS **mixing**
. **homogenizing**
RT **agitation**
colloiding
compounding
dispersing
dissolving
homogeneity
premixing
∞ **separation**
suspending (mixing)

homojunctions
DEF Junctions between semiconductors that differ in their doping level conductivities but not in their atomic or alloy composition.
GS **semiconductor junctions**

. **homojunctions**
RT heterojunction devices
heterojunctions
silicon junctions
solar cells

homology
UF cohomology
RT analogies
duality theorem
matching
∞ relationships
topology

homomorphisms
GS algebra
. group theory
. . **homomorphisms**
. . . automorphisms
. . . monoids
. . . subgroups
RT field theory (algebra)
isomorphism

homopolar generators
DEF Rotating electric machines for converting mechanical power into pure direct current by utilizing poles having the same polarity at the armature.
GS electric generators
. direct power generators
. . DC generators
. . . **homopolar generators**
. rotating generators
. . **homopolar generators**
RT direct current
∞ electric equipment
electromechanical devices
∞ generators

homosphere
DEF The lower portion of a two part division of the atmosphere according to the general homogeneity of atmospheric composition; opposed to the heterosphere. The region in which there is no gross change in atmospheric composition, that is, all the atmosphere from the Earth's surface to about 90 kilometers. The homosphere is about equivalent to the neutrosphere, and includes the troposphere, stratosphere, and mesosphere; it also includes the ozonosphere and at least part of the chemosphere.
GS Earth atmosphere
. **homosphere**
RT biosphere
chemosphere
Earth ionosphere
lower atmosphere
mesosphere
middle atmosphere
ozonosphere
stratosphere
thermosphere
troposphere
upper atmosphere

homotopy theory

EXOS sounding rocket
Hercules engine
solid propellant rocket engines
Trailblazer 1 reentry vehicle

honeycomb cores
DEF Lightweight strengthening materials of structures resembling honeycomb meshes.
GS cores
. **honeycomb cores**
honeycomb structures
. **honeycomb cores**
RT ceramic honeycombs
composite structures
low density materials
sandwich structures

honeycomb mirrors
(added August 1995)
DEF High strength to weight telescope mirrors constructed of spun-cast borosilicate glass in a honeycomb structure that optically represents a single large mirror.
GS honeycomb structures
. **honeycomb mirrors**
mirrors
. **honeycomb mirrors**
RT adaptive optics
astronomical observatories
borosilicate glass
optical correction procedure
reflecting telescopes
segmented mirrors

honeycomb structures

scanners
. **horizon scanners**
RT attitude control
infrared scanners
navigation instruments
optical equipment
photometers
radio horizons
radiometers
Scanner project

horizon sensing
USE **horizon scanners**

horizontal branch stars
DEF Horizontal strips of stars on the Hertzsprung–Russell diagram of globular clusters to the left of the red giant branch.
GS celestial bodies
. stars
. . **horizontal branch stars**
RT color–magnitude diagram
giant stars
globular clusters
Hertzsprung–Russell diagram
stellar evolution
stellar luminosity
stellar spectra
stellar spectrophotometry

horizontal distribution
(added September 1992)
GS distribution (property)
. spatial distribution
. . **horizontal distribution**
RT atmospheric circulation
atmospheric composition
atmospheric models
horizontal orientation
vertical distribution

horizontal flight
RT aerodynamic balance
aircraft stability
climbing flight
cruising flight
∞ flight
flight paths
rocket flight
soaring
transition flight
turning flight

horizontal orientation
DEF The attitude of an object in reference to the plane which is perpendicular to the direction of gravity.
RT **alignment**
attitude (inclination)
directional stability
dynamic stability
horizontal distribution
∞ orientation
stabilization
vertical orientation

horizontal spacecraft landing
GS landing
. glide landings

flow distortion
flow geometry
vortex filaments
vortex generators
vortex rings
vorticity
wakes
wing tip vortices

hoses
RT pipes (tubes)
∞ tubes

hospitals
RT evacuating (transportation)
medical equipment

hot air
USE **high temperature air**

hot atoms
DEF Atoms with high internal or kinetic energy as a result of a nuclear process such as beta decay or neutron capture.
GS atoms
. **hot atoms**
RT beta particles
decay
neutron decay

hot cathodes
DEF Cathodes that function primarily by the process of thermionic emission.
GS electrodes
. cathodes
. . tube cathodes
. . . **hot cathodes**
RT Bayard–Alpert ionization gages
ionization gages
thermionic cathodes

hot corrosion
DEF The corrosion at high temperatures as a result of the reduction of protective oxide coatings and scales and the subsequent accelerated oxidation.
GS corrosion
. **hot corrosion**
RT coatings
damage
degradation
deterioration
erosion
gas–metal interactions
metal coatings
oxidation
pitting
rusting
scale (corrosion)
surface properties
temperature dependence

hot cycle propulsion system
USE **tip driven rotors**

hot electrons

hot stars
GS celestial bodies
. **stars**
. . early stars
. . . **hot stars**
. . . . A stars
. . . . B stars
. . . . . shell stars
. . . . . Sigma Orionis
. . . . blue stars
. . . . O stars
. . . . white dwarf stars
. . . . Wolf–Rayet stars
RT cataclysmic variables
peculiar stars
red dwarf stars

hot surfaces
RT heat transfer
Rayleigh–Benard convection
∞ surfaces

hot water rocket engines
GS engines
. rocket engines
. . **hot water rocket engines**

hot weather
GS weather
. **hot weather**
RT heat stroke
summer
tropical regions

hot working
DEF Controlled mechanical operations for shaping a product at temperatures above the recrystallization temperature. Used for hot forming.
UF *hot forming*
GS forming techniques
. **hot working**
. . ausforming
RT bulging
forging
metal drawing
metal spinning
metal working
pultrusion
shearing
upsetting

hot–film anemometers
GS measuring instruments
. anemometers
. . **hot–film anemometers**
RT flow measurement
meteorological instruments
sonic anemometers
velocity measurement
wind (meteorology)
wind measurement
wind vanes
wind velocity
wind velocity measurement

hot–wire anemometers
GS measuring instruments
. anemometers
. . **hot–wire anemometers**
RT flow measurement
flowmeters
meteorological instruments
velocity measurement

hot–wire flowmeters

hydrogen masers
DEF A stimulated emission device in which hydrogen gas provides an output signal with a high degree of stability and spectral purity.
GS stimulated emission devices
. masers
. . gas masers
. . . **hydrogen masers**

hydrogen metabolism
DEF The physical and chemical processes by which an organism transforms the complex hydrogen components of foodstuffs into simple hydrogen compounds by disassimilation and catabolism in the production of energy.
GS metabolism
. **hydrogen metabolism**
RT carbohydrate metabolism
nitrogen metabolism
oxygen metabolism
respiration
secretions

hydrogen oxygen engines
DEF Engines using liquid hydrogen as fuel and liquid oxygen as oxidizer. Used for hydrox engines and lox–hydrogen engines.
UF *hydrox engines*
LOX–hydrogen engines
GS engines
. rocket engines
. . liquid propellant rocket engines
. . . **hydrogen oxygen engines**
. . . . J–2 engine

organic compounds
. cyclic compounds
. . heterocyclic compounds
. . . alkaloids
. . . . **hyoscine**

hyperbaric chambers
DEF Chambers used to induce a decrease in ambient pressure as would occur in ascending to altitude. This type of chamber is primarily used for training and experimental purposes. It is also called an altitude chamber or a decompression chamber.
GS compartments
. test chambers
. . pressure chambers
. . . **hyperbaric chambers**
RT ∞ chambers
high pressure
vacuum chambers

hyperbolas
DEF Open curves with two branches, all points of which have a constant difference in distance from two fixed points called focuses.
GS geometry
. Euclidean geometry
. . analytic geometry
. . . conics
. . . . **hyperbolas**
RT hyperbolic trajectories

hyperbolic coordinates
UF *hyperbolic space*
GS coordinates

gelled rocket propellants
hybrid propellants
hydrocarbon fuels
pyrophoric materials
solid propellant ignition
spontaneous combustion
storable propellants

Hyperion
DEF One of the natural satellites of Saturn orbiting at a mean distance of 1,481,000 kilometers.
GS celestial bodies
. natural **satellites**
. . icy **satellites**
. . . **Hyperion**
. . Saturn **satellites**
. . . **Hyperion**
RT Saturn (planet)

hyperkinesis
DEF Excessive exercise, that is often accompanied by uncontrollable muscular movement.
GS physical exercise
. **hyperkinesis**
RT exhaustion
fatigue (biology)
hypokinesia
stress (physiology)
work capacity

hypermedia
USE **multimedia**

hypermnesia
RT mental performance

hypernuclei
GS particles
. charged particles
. . energetic particles
. . . nuclei (nuclear physics)
. . . . **hypernuclei**
. corpuscular radiation
. . energetic particles
. . . nuclei (nuclear physics)
. . . . **hypernuclei**
RT elementary particles
radioactive decay

hyperons
DEF In the classification of subatomic particles according to mass, the heaviest of such particles. Some large and highly unstable components of cosmic rays are hyperons.
GS particles
. elementary particles
. . bosons
. . . mesons
. . . . **hyperons**
. . . . . xi hyperons

Ice
DEF Water in the solid state; specifically, the dense substance formed in nature by the freezing of liquid water, by the condensation of water vapor directly into ice crystals, or by the recrystallization or compaction of fallen snow. It is colorless to pale blue or greenish blue, usually white from included

gas bubbles. At standard atmospheric pressure, it is formed at and has a melting point of 0 deg. C; in freezing it expands about one eleventh in volume. Ice commonly occurs as hexagonal crystals, and in large masses is classed as a rock. The term is often substituted for glacier, as in "continental ice."

Illuminance
SN (LIMITED TO DETECTION RATE PER UNIT AREA OF VISIBLE RADIATION—EQUALS LIGHT PRESSURE TIMES SPEED OF LIGHT)
DEF The total luminous flux received on a unit area of a given real or imaginary surface, expressed in such units as the footcandle, lux, or phot. Illuminance is analogous to irradiance, but is to be distinguished from the latter in that illuminance refers only to light and contains the luminous efficiency weighting factor necessitated by the nonlinear wavelength response of the human eye. Used for light pressure.

incineration
USE **Incinerators**

Incinerators
UF *incineration*
RT burners
furnaces
waste disposal
waste energy utilization

∞ **Inclination**
SN (USE OF A MORE SPECIFIC TERM IS RECOMMENDED—CONSULT THE TERMS LISTED BELOW)
DEF The angle between the plane of an orbit and the reference plane. The equator is the reference plane for geocentric orbits and the ecliptic is the reference plane for heliocentric orbits. Also the magnetic dip.
RT geomagnetism
magnetic equator
orbits
slopes
tendencies

Inclusions
GS defects
. **Inclusions**
RT casting
castings
clathrates
heterogeneity
impurities
metallography
voids

Incoherence
RT discontinuity
nonsynchronization

Incoherent scatter radar
DEF Radar used in the study of the ionosphere, thermosphere, etc.
GS radar
. **Incoherent scatter radar**
. . EISCAT radar system (Europe)
RT incoherent scattering
radar scattering

Incoherent scattering
DEF The phenomena of generating waves with random variations in phase, amplitude, polarization, and direction of propagation when an incident wave encounters matter.
GS scattering
. **Incoherent scattering**
RT coherent scattering
EISCAT radar system (Europe)
electromagnetic radiation
electromagnetic wave transmission
incoherent scatter radar
nuclear scattering
radar scattering

Income
RT budgeting
economics
incentives

Incompatibility
RT corrosion
hazards

Indentation
RT deformation
hardness

Independent variables
DEF Any of those variables of a problem, chosen according to convenience, which may arbitrarily be specified, and which then determine the other or dependent variables of the problem. The independent variables are often called the coordinates, particularly in problems involving motion in space. Dependent and independent variables can be interchanged, e.g., height and pressure. Used for arguments (mathematics) and parameters.
UF *arguments (mathematics)*
parameters
GS **Independent variables**
. lattice parameters
RT dependent variables
distributed parameter systems
observability (systems)
parameter identification
∞ variable

∞ **Indexes**
SN (USE OF A MORE SPECIFIC TERM IS RECOMMENDED—CONSULT THE TERMS LISTED BELOW)
RT indexes (documentation)
indexes (ratios)
KP index
KWIC indexes

Indexes (documentation)
DEF Ordered reference lists of contents of a file or document, together with keys or reference notations for identification or location of those contents.
GS classifications
. **Indexes (documentation)**
. . KWIC indexes
. . Wiswesser notations
RT abstracts
bibliographies
∞ catalogs
documentation

inelastic bodies
USE **rigid structures**

Inelastic collisions
DEF Collisions between two particles in which changes occur both in the internal energy of one or both of the particles and in the sums, before and after collisions, of their kinetic energies.
GS collisions
. **Inelastic collisions**
RT scattering

Inelastic scattering
GS scattering
. **Inelastic scattering**
RT coherent scattering
Compton effect
elastic scattering
electron scattering
Mandelstam representation
nuclear scattering
quark parton model

Inelastic stress
DEF A force acting on a solid and producing a deformation such that the original shape and size of the solid are not restored after the force is removed.
RT cyclic loads
mathematical models
metal fatigue
stress analysis
stress–strain diagrams

Inequalities
GS **inequalities**
. Schwartz inequality
RT ∞ mathematics

Inert atmosphere
DEF A gaseous medium that because of its lack of chemical reaction is used to enclose tests or equipment.
GS controlled atmospheres
. **inert atmosphere**

inert gases
USE **rare gases**

Inertia
DEF Resistance to acceleration. Used for inertial forces.
UF *inertial forces*
GS **inertia**
. inertia principle
. . Mach inertia principle
RT ∞ force
Froude number
mass
moments of inertia
∞ motion
similitude law

Inertia bonding
DEF The joining of materials with friction and pressure.
GS bonding
. **inertia bonding**
RT ∞ joining
metal–metal bonding

inertia moments
USE **moments of inertia**

Inertia principle
GS inertia
. **inertia principle**
. . Mach inertia principle
RT equations of motion
moments of inertia

inertia wheels
USE **counter-rotating wheels**
reaction wheels

Inertial confinement fusion
DEF The process of using intense beams of heavy ions to convey the energy needed to compress and heat small pellets containing deuterium–tritium fuels to achieve ignition of the pellets.
GS **inertial confinement fusion**
. impact fusion
RT strongly coupled plasmas

Inertial coordinates
GS coordinates
. **inertial coordinates**
RT Astroguide Navigation System
geocentric coordinates
inertialess steerable antennas

inertial forces
USE **inertia**

Inertial fusion (reactor)
DEF Reactors in which pellet fusion is initiated by high energy sources including lasers.
RT ∞ fusion
fusion reactors
ion beams
laser fusion
laser plasmas
nuclear fuels
plasma compression
pulsed lasers
relativistic electron beams

Inertial guidance
DEF Guidance by means of the measurement and integration of acceleration from within the craft.
GS guidance (motion)
. **inertial guidance**
. . strapdown inertial guidance
RT injection guidance
midcourse guidance
reentry guidance
satellite guidance
spacecraft guidance
stabilized platforms
terminal guidance

inertial measuring units
USE **inertial platforms**

Inertial navigation
DEF Dead reckoning performed automatically by a device which gives a continuous indication of position by integration of accelerations since leaving a starting point.
GS navigation
. **inertial navigation**
. . Astroguide Navigation System
. . gimballess inertial navigation
RT acceleration measurement
air navigation
all-weather air navigation
celestial navigation
dead reckoning
digital navigation
hyperbolic navigation
navigation aids
polar navigation
radar navigation
radio navigation
Schuler tuning
space navigation
star trackers
strapdown inertial guidance
surface navigation

Inertial platforms
UF *inertial measuring units*
RT gimballess inertial navigation
gyroscopic stability
Kalman–Schmidt filtering
navigation instruments
∞ platforms
three axis stabilization

Inertial reference systems
RT celestial reference systems
∞ reference systems
relativity
∞ systems

Inertial Upper Stage
DEF A solid propulsive upper stage designed to place spacecraft on high Earth orbits or on escape trajectories for planetary missions.
UF *interim upper stage (STS)*
IUS
GS interim stages (spacecraft)
. **Inertial Upper Stage**
RT orbit transfer vehicles
recoverable spacecraft
reusable spacecraft
Space Shuttle orbiters
space shuttles
space transportation
space transportation system
space tugs
Ulysses mission
upper stage rocket engines

Inertialess steerable antennas
GS antennas
. directional antennas
. . steerable antennas
. . . **Inertialess steerable antennas**
arrays
. antenna arrays
. . steerable antennas
. . . **Inertialess steerable antennas**
RT communication equipment
inertial coordinates

Infarction
GS diseases
. heart diseases

. . **infarction**
. . . myocardial infarction
RT **embolisms**
thrombosis
tissues (biology)

infections
USE **infectious diseases**

infectious diseases
UF *infections*
GS **diseases**
. **infectious diseases**
. . airborne infection
. . bacterial diseases
. . . cholera
. . . diphtheria
. . . keratitis
. . . syphilis
. . . tuberculosis
. . . typhoid
. . . typhus
. . conjunctivitis
. . dermatitis
. . . contact dermatitis
. . fungal diseases
. . hepatitis
. . meningitis
. . parasitic diseases
. . viral diseases
. . . acquired immunodeficiency syndrome
. . . influenza
. . . poliomyelitis
. . . smallpox
RT antiseptics
Aspergillus
∞ blisters
epidemiology
immunity
leukopenia

inference
RT **assumptions**
deduction
hypotheses
implication
∞ induction

infestation
UF *insect damage*
RT **beetles**
boll weevils
bollworms
chironomus flies
flatworms
insects
larvae
locusts
moths
parasites
plants (botany)
silkworms
worms

infiltration
GS **infiltration**
. chemical vapor infiltration
RT air conditioning
permeability
porosity
resin film infusion
voids
warfare

infinite span wings
GS airfoils
. thin airfoils
. . thin wings
. . . **infinite span wings**
. wings
. . slender wings
. . . **infinite span wings**
. . thin wings
. . . **infinite span wings**
. . unswept wings
. . . **infinite span wings**
planforms
. wing planforms
. . **infinite span wings**
RT flexible wings

infinity
DEF A point, line, or region, beyond measurable limits.
RT functions (mathematics)
geometry
number theory
probability theory
real variables
series (mathematics)

inflatable devices
USE **inflatable structures**

inflatable gliders
GS expandable structures
. inflatable structures
. . **inflatable gliders**
gliders
. paragliders
. . **inflatable gliders**
RT∞ aircraft

inflatable space structures
(added August 1996)
GS **inflatable space structures**
. inflatable spacecraft
. . Beacon satellites
. . . Beacon Explorer A
. . . Explorer 22 satellite
RT antennas
folding structures
space erectable structures

inflatable spacecraft
GS expandable structures
. inflatable structures
. . **inflatable spacecraft**
. . . Beacon satellites
. . . . Beacon Explorer A
. . . . Explorer 22 satellite
inflatable space structures
. **inflatable spacecraft**
. . Beacon satellites
. . . Beacon Explorer A
. . . Explorer 22 satellite
space erectable structures
. **inflatable spacecraft**
. . Beacon satellites
. . . Beacon Explorer A
. . . Explorer 22 satellite
RT artificial satellites
orbital assembly
self erecting devices
∞ spacecraft
unmanned spacecraft

inflatable structures
UF *deflating*
inflatable devices
GS expandable structures
. **inflatable structures**
. . air bag restraint devices
. . balloons
. . . high altitude balloons
. . . jimsphere balloons
. . . skyhook balloons
. . . superpressure balloons
. . meteorological balloons
. . . jimsphere balloons
. . . ROBIN balloons
. . microballoons
. . tethered balloons
. . ballutes
. . gas bags
. . inflatable gliders
. . inflatable spacecraft
. . . Beacon satellites
. . . . Beacon Explorer A
. . . . Explorer 22 satellite
RT airships
boats
buildings
flexible bodies
flexible wings
floats
folding structures
inflating
life rafts
lunar shelters
pneumatic equipment
pressure suits
radomes
self erecting devices
space erectable structures
space stations
∞ structures
tires
variable geometry structures

inflating
SN (EXCLUDES ECONOMIC INFLATION)
RT expansion
gas injection
growth
inflatable structures
pressure reduction
pressurizing
swelling

inflection points
GS geometry
. Euclidean geometry
. . points (mathematics)
. . . **inflection points**
RT curves (geometry)
. . .ctions (mathematics)
line shape
real variables

influence coefficient
GS coefficients
. **influence coefficient**
. . structural influence coefficients
RT aeroelasticity
discharge coefficient
elastic properties
flutter
force distribution
∞ hydraulics
moment distribution
nozzle thrust coefficients
plastic properties
pressure distribution
stress analysis
structural analysis

influenza
GS diseases
. infectious diseases
. . viral diseases
. . . **influenza**
. respiratory diseases

. . influenza

information
DEF Any facts or data which can be used, transferred, or communicated.
RT annotations
audio tapes
communicating
communication
∞ data
documentation
mathematical tables
news media
presentation
privacy
reports
video tapes

information adaptive system
DEF The spaceborne portion of the NASA End–to–End Data System.
GS information systems
. **information adaptive system**
RT communication equipment
∞ systems

information dissemination
GS communicating
. **information dissemination**
. . messages
. . selective dissemination of information
RT bibliographies
catalogs (publications)
documentation
electronic publishing
extraterrestrial communication
indexes (documentation)
information transfer
integrated library systems
Internet resources
libraries
privacy
reports
summaries

information flow
RT aerospace technology transfer
communicating
communication
∞ flow
information transfer
management
message processing
selective dissemination of information
technology transfer

information management
GS management
. **information management**
. . information resources management
. . records management
RT communicating
communication
data base management systems
data retrieval
data storage
information transfer
integrated library systems
technology transfer

information processing (biology)
DEF An approach to the study of perception, memory, language and/or thought that considers organisms to be complex systems that receive, transform, store and transmit information.
RT artificial intelligence
bioelectricity
brain
cognition
cognitive psychology
electrophysiology
human performance
neurophysiology
perception
psychophysiology

information resources management
(added September 1995)
DEF A comprehensive strategy for managing an organization's information resources throughout the information life cycle, including creation, collection, use, processing, and dissemination.
UF *IRM*
GS management
. information management
. . **information resources management**
. resources management
. . **information resources management**
RT computer information security
data management
data processing
documentation
information transfer
Internet resources
libraries
records management

information retrieval

information theory
UF *Shannon information theory*
RT ∞ applications of mathematics
automata theory
∞ automation
BCH codes
coding
combinatorial analysis
communication theory
computers
correction
correlation
cryptography
cybernetics
data processing
data transmission
decision theory
ergodic process
error detection codes
Fourier analysis
game theory
∞ logic
machine translation
management information systems
∞ mathematics
maximum entropy method
messages
∞ noise
operations research
parity
Petri nets
phase shift keying
probability theory
random processes
• redundancy
Shannon–Wiener measure
statistical analysis
∞ statistics
stochastic processes
systems engineering
telecommunication
terms
∞ theories

information transfer
RT document markup languages
information dissemination
information flow
information management
information resources management
information retrieval
information systems
international cooperation
technology transfer
technology utilization
World Wide Web

information transmission
USE **data transmission**

infrared absorption
DEF The taking up of energy from infrared radiation by a medium through which the radiation is passing.
GS energy absorption
. radiation absorption
. . electromagnetic absorption
. . . **infrared absorption**
RT ∞ absorption
atmospheric attenuation
atmospheric optics
infrared radiation
light scattering
optical properties
thermal emission
transmittance
wave attenuation

infrared astronomy
GS astronomy
. **infrared astronomy**
RT astronomical photography
blazars
Infrared Astronomy Satellite
infrared cirrus (astronomy)
infrared photometry
infrared sources (astronomy)
Infrared Space Observatory (ISO)
Kuiper Airborne Observatory
Large Deployable Reflector
SOFIA (airborne observatory)
Space Infrared Telescope Facility

Infrared Astronomy Satellite
DEF A joint NASA–Netherlands–Great Britain spacecraft designed to perform astronomical observations in the infrared spectral region. It was launched on January 25, 1983. Used for IRAS.
UF *IRAS*
GS artificial satellites
. scientific satellites
. . astronomical satellites
. . . **Infrared Astronomy Satellite**
observatories
. astronomical observatories
. . astronomical satellites
. . . **Infrared Astronomy Satellite**
RT geosynchronous orbits
infrared astronomy
infrared sources (astronomy)
IRAS–Araki–Alcock comet
Netherlands space program
UK satellites

infrared cirrus (astronomy)
(added September 1989)
RT ∞ clouds
cosmic dust
galactic radiation
infrared astronomy
infrared radiation
infrared sources (astronomy)
interstellar matter
molecular clouds

infrared detectors
GS measuring instruments
. radiation measuring instruments
. . actinometers
. . . radiometers
. . . . **infrared detectors**
. . . . . FLIR detectors
. . . . . infrared radiometers
. . . . . Advanced Very High Resolution Radiometer
. . . . . infrared scanners
. . . . . visible infrared spin scan radiometer
. . infrared instruments
. . . **infrared detectors**
. . . . FLIR detectors
. . . . infrared radiometers
. . . . . Advanced Very High Resolution Radiometer
. . . . . infrared scanners
. . . . . visible infrared spin scan radiometer
RT bolometers
∞ detectors
electromagnetic measurement
focal plane devices
forest fire detection
infrared signatures
mercury cadmium tellurides
x ray detectors

infrared filters
GS electromagnetic wave filters
. optical filters
. . **infrared filters**
RT electric filters
ultraviolet filters

infrared horizon scanners
USE **horizon scanners**
infrared scanners

infrared imagery
GS imagery
. photography
. . **infrared imagery**
RT color infrared photography
lunar equator
thermography
x ray imagery

infrared inspection
GS inspection
. **infrared inspection**
RT nondestructive tests
quality control

infrared instruments
GS measuring instruments
. radiation measuring instruments
. . **infrared instruments**
. . . infrared detectors
. . . . FLIR detectors
. . . . infrared radiometers
. . . . . Advanced Very High Resolution Radiometer
. . . . . infrared scanners
. . . . . visible infrared spin scan radiometer
. . . infrared interferometers
. . . infrared spectrometers
. . . . filter wheel infrared spectrometers
. . . infrared spectrophotometers
RT Advanced Very High Resolution Radiometer
forest fire detection

infrared interferometers
GS measuring instruments
. interferometers
. . **infrared interferometers**
. radiation measuring instruments
. . infrared instruments
. . . **infrared interferometers**
RT astronomical interferometry
interferometry
optical equipment
optical measurement
optical measuring instruments
speckle interferometry

infrared lasers
UF *infrared masers*
IR lasers
irasers
GS stimulated emission devices
. lasers
. . **infrared lasers**
RT argon lasers
carbon dioxide lasers
carbon lasers
carbon monoxide lasers
chemical lasers
dye lasers
gas lasers
HF lasers
liquid lasers
organic lasers
solid state lasers
waveguide lasers
YLF lasers

infrared masers
USE **infrared lasers**

infrared photography
GS imagery
. photography
. . multispectral photography
. . . **infrared photography**
. . . . color infrared photography
RT aerial photography
astronomical photography
black and white photography
cinematography
faint object camera
forest fire detection
geographic information systems
ice mapping
lunar photography
meteorological satellites
METEOSAT satellite
multispectral band cameras
Nimbus satellites
radiometers
satellite–borne photography
timber inventory
ultraviolet photography

infrared photometry
DEF Photometry in the infrared region.
GS optical measurement
. photometry
. . **infrared photometry**
RT astronomical photometry
infrared astronomy
infrared spectra
near infrared radiation
stellar spectrophotometry

infrared radar
DEF Radar covering a range from the limit of the visible spectrum to the shortest microwaves.
GS radar
. **infrared radar**
RT FLIR detectors
optical radar
radar imagery

infrared radiation
DEF Electromagnetic radiation lying in the wavelength interval from 75 microns to an indefinite upper boundary sometimes arbitrarily set at 1000 microns (0.01 centimeter).
GS electromagnetic radiation
. **infrared radiation**

. . far infrared radiation
. . near infrared radiation
RT beams (radiation)
black body radiation
coherent electromagnetic radiation
energy absorption
evaporography
exhaust emission
heat
infrared absorption
infrared cirrus (astronomy)

RT forest fire detection
horizon scanners
multispectral band scanners
optical equipment
Scanner project
thermal mapping

infrared signatures
DEF The infrared spectral characteristics of an object or uniform land surface which uniquely defines it.
GS signatures
. **infrared signatures**
RT infrared detectors
infrared radiation
infrared spectra
signature analysis

infrared sources (astronomy)
DEF Celestial bodies or astronomical regions emitting a large amount of radiation in the infrared portion of the electromagnetic spectrum.
GS celestial bodies
. **infrared sources (astronomy)**
. . infrared stars
RT astronomy
Herbig–Haro objects
infrared astronomy
Infrared Astronomy Satellite
infrared cirrus (astronomy)
infrared radiation

Infrared Space Observatory (ISO)
DEF An astronomical satellite observatory funded by ESA operating at wavelengths from 3 to 200 microns. The observatory is comprised of a 60 cm Cassegrain telescope, a CCD infrared camera, two Michelson interferometers, and a photopolarimeter.
GS artificial satellites
. ESA satellites
. . **Infrared Space Observatory (ISO)**

. . **infrared stars**
. stars
. . **infrared stars**
RT Herbig–Haro objects

infrared suppression
DEF The shielding and/or protection of aircraft engines and exhausts from heat-seeking missiles and/or detecting devices.
RT afterburning
aircraft detection

aircraft engines
cooling systems
exhaust gases
exhaust nozzles
heat shielding
jet engines
jet exhaust
reaction products
suppressors
temperature control

Infrared telescopes
DEF Special optical instruments for astronomical observations in the range from one micron to one millimeter.
GS telescopes
. Infrared telescopes
. . Large Deployable Reflector
. . Space Infrared Telescope Facility
RT astronomy
Astropiane

Infrared tracking
GS tracking (position)
. Infrared tracking
RT antimissile missiles
compensatory tracking
homing devices
missile tracking
optical tracking
pursuit tracking
radiometers

Infrared windows
DEF A frequency region in the infrared where there is good transmission of electromagnetic radiation through the atmosphere.
RT apertures
lasers
optical materials
∞ windows

Infrasonic frequencies
DEF Frequencies below the audiofrequency range.
GS frequencies
. Infrasonic frequencies
RT acoustics

∞ **Ingestion**
SN ((USE OF A MORE SPECIFIC TERM IS RECOMMENDED—CONSULT THE TERMS LISTED BELOW.)
RT ingestion (biology)
ingestion (engines)

Ingestion (biology)
GS Ingestion (biology)
. drinking
. eating
. grazing

∞ **nozzles**
openings
pipe nozzles

inlet pressure
DEF In connection with performance data on pumps, when not otherwise specified, the total static pressure measured in a standard testing chamber by a vacuum gage located near the inlet port.
GS **pressure**
. **inlet pressure**
RT **pressure gradients**
pressure recovery
stagnation pressure
water pressure

inlet temperature
DEF A location for measuring the temperature of fluids, particles, etc., entering a heat system, an engine, or other machine.
GS **temperature**
. **inlet temperature**
RT **air intakes**
engine inlets

fuel systems
gas temperature
intake systems

inlets (devices)
USE **intake systems**

inlets (topography)
DEF Small narrow openings, recesses, indentations, or other entrances into coastlines or shores of lakes or rivers, through which water penetrates into land.
GS landforms
. **inlets (topography)**
. . bayous
. . Cook Inlet (AK)
RT bays (topographic features)
Delaware Bay (US)
fiords
gulfs
lagoons
Persian Gulf
Saginaw Bay (MI)
sounds (topographic features)

inliers (landforms)
DEF Areas or groups of rocks surrounded by rocks of younger age.

Interfaces
DEF A common boundary between two parts of a system, whether material or non material. Specifically, in a rocket vehicle or other mechanical assembly, a common boundary between two components. Specifically, in fluid dynamics, a surface separating two fluids across which there is a discontinuity of some fluid property such as density or velocity or of some derivative of these properties in a direction normal to the interface. The equations of motion do not apply at the interface but are replaced by the boundary conditions.
GS **interfaces**

International Field Year for Great Lakes
RT Canada
Great Lakes (North America)
United States

International Geophysical Year
DEF By international agreement, a period during which greatly increased observation of worldwide geophysical phenomena is undertaken through the cooperative effort of participating nations. July 1957 to December 1958 was the first such year; however, precedent was set by the International Polar Years of 1882 and 1932. Used for IGY (geophysical year).
UF *IGY (geophysical year)*
RT geophysics
Vanguard satellites
world data centers

International Geosphere–Biosphere program
GS programs
. **International Geosphere–Biosphere program**
RT biogeochemistry
biosphere
Earth observations (from space)
geophysics
man environment interactions
solar terrestrial interactions

International Hydrological Decade
DEF A ten-year program, 1965–74, patterned after the International Geophysical Year, aimed at training hydrologists and technicians, and at the establishment of networks for measuring hydrologic data. The idea originated in the United States, but the program was sponsored by UNESCO, and a large proportion of membership of the United Nations participated. Used for IHD (hydrological decade).

RT cometary atmospheres
planetary atmospheres
plasmapause
space plasmas
Venus atmosphere

ionosondes
DEF An HF radar that sweeps or steps through all or part of the frequency range from 0.3 to 30 MHz (medium and hihg frequency band). Transmitting pulse modulated or continuous frequency variation signals with a vertical looking antenna, it measures the delay time of echos from the ionosphere as a function of frequency. Modern digital pulse ionosondes measure not only the amplitude, but also phase or Doppler frequency, polarization, and arrival angle of the echoes.

ions
DEF Charged atoms or molecularly bound groups of atoms; sometimes also free electrons or other charged subatomic particles. In atmospheric electricity, any of several types of electrically charged submicroscopic particles normally found in the atmosphere. Atmospheric ions are of two principal types, small ions and large ions, although a class of intermediate ions has occasionally been reported. In chemistry, atoms or specific groupings of atoms which have gained or lost one or more electrons, as the chloride ion or ammonium ion. Such ions exist in aqueous solutions and in certain crystal structures.

RT attenuators
insulation
isolation
noise reduction
shock absorbers
spacers
suppressors
vibration

Isomerization
DEF Process for converting hydrocarbon or other organic compound to an isomer.
GS **Isomerization**
. ortho para conversion
RT ∞ conversion
refining

Isomers
DEF Nuclides having the same mass number A and atomic number Z, but existing for measurable times in different quantum states with different energies and radioactive properties. Molecules having the same atomic composition and molecular weight, but differing in geometrical configuration.
GS **Isomers**
. isopropyl alcohol
. phenanthrene
RT atoms
congeners
nuclear chemistry
stereochemistry
tautomers

Isomorphism
UF *morpholropism*
GS morphology
. **Isomorphism**
RT crystal lattices
crystal structure
duality theorem
homomorphisms

Isoparametric finite elements
DEF The basis for the calculation of physical properties of structural shapes including stress analyses.
RT conformal mapping
coordinate transformations
∞ elements
finite element method
fracture mechanics
numerical analysis
stress analysis

Isoperimetric problem
RT analytic functions
continuity (mathematics)

Isopycnic processes
UF *isosteric processes*
RT density (mass/volume)
isentropic processes
isobars (pressure)
isochoric processes

Isostasy
DEF A supposed equality existing in vertical sections of the Earth, whereby the weight of any column from the surface of the Earth to a constant depth is approximately the same as that of any other column of equal area, the equilibrium being maintained by plastic flow from one part of the Earth to another.
RT ∞ equilibrium
geomorphology
geophysics
glaciology
gravitation
hydrostatics
orography
seismology
subsidence

Isostatic pressure
GS pressure
. **Isostatic pressure**
RT atmospheric pressure
hot isostatic pressing
hydrostatic pressure
static pressure

Isosteric processes
USE **Isopycnic processes**

Isotensoid structures
DEF Filamentary structures in which the filaments are uniformly stressed throughout for the design loading conditions.
RT composite wrapping
filament winding
pressure vessels
prestressing
shells (structural forms)
spiral wrapping
∞ structures

Isothermal flow
GS fluid flow
. **Isothermal flow**
RT flow distribution
isotherms
temperature distribution

Isothermal layers
RT isotherms
laminar boundary layer
stratosphere
stratospheric warming
temperature distribution
temperature gradients
thermal mapping
tropopause

Isothermal processes
DEF Thermodynamic changes of state of a system that take place at constant temperature.
RT adiabatic conditions
isobars (pressure)
isotherms
thermodynamic equilibrium

Isotherms
DEF Lines connecting points of equal temperature.
RT Atmospheric & Oceanographic Inform Sys
atmospheric temperature
gradients

jet engines
SN (EXCLUDES HYDROJET ENGINES)
DEF Broadly, engines that eject jets or streams of gas or fluids, obtaining all or most of their thrust by reaction to the ejection. Specifically, aircraft engines that derive all or most of their thrust by reaction to their ejection of combustion products (or heated air) in a jet and that obtains oxygen from the atmosphere for the combustion of their fuel (or outside air for heating, as in the case of the nuclear jet engine), distinguished in this sense from a rocket engine. Jet engines of this kind may have compressors, commonly turbine driven, to take in and compress air (turbojets), or they may be compressorless, taking in and compressing air by other means (pulsejets, ramjets).

Kepler laws
DEF The three empirical laws governing the motions of the planets in their orbits, discovered by Johannes Kepler (1571–1630). These are: (a) the orbits of the planets are ellipses, with the sun at a common focus; (b) as a planet moves in its orbit, the line joining the planet and the sun sweeps over equal areas in equal intervals of time (also called law of equal areas); (c) the squares of the periods of revolution of any two planets are proportional to the cubes of their mean distances from the sun.

kettles (geology)
DEF Steepsided, usually basin or bowlshaped holes or depressions, commonly without surface drainage, in glacial drift deposits (especially outwash and kame fields). Kettles often contain lakes or swamps; formed by the melting of large detached blocks of stagnant ice (left behind by retreating glaciers) that had been wholly or partly buried by glacial drift. Kettles range in depth from about a meter to as much as 13 km. Thoreau's Walden Pond is an example.

lagoons
DEF Shallow stretches of seawater, such as sounds, channels, bays (topographic features), or

saltwater lakes, near or communicating with seas and partly or completely separated from them by low, narrow, elongated strips of land, such as reefs, barrier islands, sandbanks, or spits. Lagoons are often used to describe sheets of water between offshore coral reefs and the mainland. They often extend roughly parallel to the coast and are little affected by tides. Lagoons are also considered shallow freshwater ponds or lakes near or communicating with larger lakes or rivers.

Lagrange coordinates
DEF Systems of coordinates by which fluid parcels are identified for all times by assigning them coordinates which do not vary with time. Examples of such coordinates are: (a) the values of any properties of the fluid conserved in the motion; or (b) more generally, the positions in space of the parcels at some arbitrarily selected moment. Subsequent positions in space of the parcels are then the dependent variables, functions of time and of the Lagrange coordinates. Also called material coordinates.

YAG lasers

laser micromachining
USE **laser machining**

laser microscopy
DEF The application of a laser microscope having a ceramic tube in which a metal vapor is formed at 1600 degrees C. Copper (or other metal atoms) are excited and amplify light so that, when used with a projection microscope, the object to be magnified is illuminated. The power of the emitted beam on the screen remains constant.
GS microscopy

libration
DEF A real or apparent oscillatory motion, particularly the apparent oscillation of the moon. Because of libration more than half of the moon's surface is revealed to an observer on the Earth even though the same side of the moon is always toward the Earth, because the moon's periods of rotation and revolution are the same. Other motions regarded as librations are long period orbital motions and periodic perturbations in orbital elements.

light modulators
(added September 1995)
GS modulators
. **light modulators**
RT acousto-optics

electro-optics
light modulation
magneto-optics
optical data processing

light pressure
USE **illuminance**

light probes
USE **light beams**

light scattering
GS scattering
. wave scattering
.. electromagnetic scattering
... **light scattering**
.... halos
transmission
. electromagnetic wave transmission
.. light transmission
... **light scattering**
.... halos
. wave propagation
.. **light scattering**
... halos
RT afterglows
atmospheric scattering
bidirectional reflectance
Brillouin effect
circumsolar radiation
diffuse radiation
electromagnetic absorption
forward scattering
gravitational lenses
infrared absorption
Rayleigh scattering
reflection nebulae
scatter plates (optics)
speckle patterns
transmissivity
tropospheric scattering
Umkehr effect

light scattering meters
GS measuring instruments
. optical measuring instruments
.. **light scattering meters**
optical equipment
. optical measuring instruments
.. **light scattering meters**
RT meteorological instruments

light sources
GS **light sources**
. illuminators
RT arc lamps
cathodoluminescence
dayglow
duochromators
electric arcs
electroluminescence
flash lamps
glow discharges
HCN lasers
heat sources
illuminating
lasers
lighting equipment
luminaires
mercury lamps
monochromators
moon
plasma display devices
point sources
porous silicon
radiation sources
sun

light speed
GS rates (per time)
. **light speed**
velocity
. **light speed**
RT high speed
relativistic velocity
Schwarzschild metric

light transmission
UF *optical absorption*
GS transmission
. electromagnetic wave transmission
.. **light transmission**
... light scattering
.... halos
RT absorptance
atmospheric optics
atmospheric refraction
Fermat principle
fiber optics
flicker
gamma ray lasers
geometrical optics
haze
holographic optical elements
illuminating
∞ illumination
integrated optics
lasers
low visibility
molecular absorption
opacity
optical bistability
optical coupling
optical properties
optical reflection
optical waveguides
rainbows
Sagnac effect
squeezed states (quantum theory)
stimulated emission devices
translucence
transparence
turbidity
ultraviolet lasers
visibility
wave dispersion
wave propagation

light transport aircraft
DEF A classification of multiengine airplanes having a maximum passenger capacity of 30 seats and a gross weight of about 35,000 pounds.
GS commercial aircraft
. **light transport aircraft**
transport aircraft
. **light transport aircraft**
RT∞ aircraft
multiengine vehicles
passenger aircraft

light valves
DEF Optical shutters which, when activated by light, become either transparent or opaque.
RT electro-optics
light modulation
liquid crystals
optical data processing

light water
DEF Water in which both hydrogen atoms in each molecule are of the isotope protium. Used for protium.
UF *protium*
GS hydrogen compounds
. **light water**
water
. **light water**

light water breeder reactors
GS nuclear reactors
. breeder reactors
.. **light water breeder reactors**
RT heavy water reactors

light water reactors
DEF Nuclear reactors using ordinary (rather than heavy) water as moderator.
GS nuclear reactors
. liquid cooled reactors
.. water cooled reactors
... **light water reactors**
RT water moderated reactors

light-cone expansion
RT field theory (physics)
Minkowski space
quantum mechanics
relativity
space-time functions

Lighthill gas model
GS models
. **Lighthill gas model**
RT boundary layer flow
gas mixtures
gas transport
hypersonic flow
molecular theory
transport properties

Lighthill method
RT airfoil profiles
airfoils
conformal mapping
flow theory
integral transformations
∞ methodology

lighting
USE **illuminating**

lighting equipment
GS **lighting equipment**
. illuminators
. luminaires
.. aircraft lights
.. airport lights
... runway lights
.. arc lamps
.. flash lamps
... alkali vapor lamps
.. mercury lamps
.. quartz lamps
.. searchlights
.. xenon lamps
RT∞ electric equipment
∞ equipment
∞ flares
illuminating
light (visible radiation)
light sources
onboard equipment
waste energy utilization

lightning
DEF A discharge of atmospheric electricity accompanied by a vivid flash of light.
GS electric current
. electric discharges
.. **lightning**
... ball lightning
RT∞ arresters
atmospheric electricity
electric arcs

electric sparks
electricity
electrodeless discharges
gas discharges
lightning suppression
nitrogenation
radiative recombination
static electricity
thunderstorms
whistlers

lightning suppression
GS weather modification
. **lightning suppression**
RT atmospheric electricity
climatology
electric discharges
lightning
thunderstorms

lights
USE **luminaires**

lignin
DEF That part of plant material which is not saccharified by the action of 72 percent sulfuric acid or 42 percent hydrochloric acid, after the resins, waxes, and tannins have been removed.
RT cellulose
∞ polymers

lignite
DEF Coal of relatively recent origin, an intermediate between peat and bituminous coal.
GS fuels
. chemical fuels
. . hydrocarbon fuels
. . . fossil fuels
. . . . coal
. . . . . **lignite**
resources
. Earth resources
. . fossil fuels
. . . coal
. . . . **lignite**
rocks
. sedimentary rocks
. . carbonaceous rocks
. . . coal
. . . . **lignite**
RT ashes
bitumens
carbonaceous materials
coal gasification
coal liquefaction
coal utilization
coke
energy conversion
energy policy
energy technology
gaseous fuels
hydrocarbon fuel production
hydrogen production
hydropyrolysis
synthane

likelihood ratio
DEF The probability of a random drawing of a specified sample from a population, assuring a given hypothesis about the parameters of the population, divided by the probability of a random drawing of the same sample, assuring that the parameters of the population are such that this probability is maximized.
GS ratios
. **likelihood ratio**
statistical analysis
. **likelihood ratio**
RT estimates
mathematical models
maximum likelihood estimates
probability theory
statistical tests

limb brightening
DEF The increase in the intensity of radio or x ray brightness of the sun or other stars from its center to its limb.
RT B stars
brightness
brightness temperature
∞ limbs
solar flux
solar flux density
solar granulation
solar limb
stellar atmospheres
stellar luminosity

limb darkening
DEF A condition, sometimes observed on celestial bodies, in which the brightness of the object decreases as the edges or limbs of the object are approached. The sun and Jupiter exhibit limb darkening.
GS darkening
. **limb darkening**
RT B stars
binary stars
∞ limbs
solar limb
stellar atmospheres
stellar luminosity

∞ **limbs**
SN (USE OF A MORE SPECIFIC TERM IS RECOMMENDED—CONSULT THE TERMS LISTED BELOW)
RT Earth limb
limb brightening
limb darkening
limbs (anatomy)
lunar limb
planetary limb
solar limb

limbs (anatomy)
GS anatomy
. **limbs (anatomy)**
. . arm (anatomy)
. . . elbow (anatomy)
. . . forearm
. . hand (anatomy)
. . . fingers
. . leg (anatomy)
. . . feet (anatomy)
. . . knee (anatomy)
. . . thigh
RT appendages
human body
∞ limbs

lime
USE **calcium oxides**

limen
DEF Threshold; a psychophysical concept denoting the lowest detectable intensity of any sensory stimulus.
RT psychological tests
thresholds (perception)

limestone
DEF Sedimentary rock composed principally of calcium carbonate (the mineral calcite) or the double carbonate of calcium and magnesium (the mineral dolomite) or mixture of the two.
GS rocks
. sedimentary rocks
. . **limestone**
RT aggregates
calcium carbonates
dolomite (mineral)
Earth resources
fluxes
minerals
schist
soils

limitations
USE **constraints**

limiter amplifiers
GS amplifiers
. **limiter amplifiers**

limiter circuits
GS circuits
. **limiter circuits**
. . clipper circuits
RT circulators (phase shift circuits)
clamping circuits
current regulators
power limiters

limiters (fusion reactors)
DEF Material aperture in fusion power reactors which collect particles from the outer surfaces of the plasmas to control their transport to regions of low density.
RT blankets (fusion reactors)
controlled fusion
divertors (fusion reactors)
fusion reactors
moderation (energy absorption)
moderators
plasma control
plasma loss
reactor design
reactor materials
tokamak devices
toroidal plasmas
walls

∞ **limits**
SN (USE OF A MORE SPECIFIC TERM IS RECOMMENDED—CONSULT THE TERMS LISTED BELOW)
RT ignition limits
limits (mathematics)
range (extremes)

limits (mathematics)
GS analysis (mathematics)
. calculus
. . **limits (mathematics)**
. real variables
. . extremum values
. . . **limits (mathematics)**
RT differential calculus
∞ envelopes
∞ limits

limnology
DEF The physical, chemical, meteorological, and especially the biological and ecological conditions in inland waters.
RT aquifers
arroyos
Earth hydrosphere
fresh water
geochemistry
geophysics

ground water
∞ hydraulics
hydrography
hydrology
Lake Texoma (OK–TX)
lakes
marine biology
marine chemistry
ponds
potable water
rain
streams
water
water management
water pollution
water resources
wells

limonite
GS iron compounds
. **limonite**
minerals
. **limonite**

Lincoln Experimental Satellites
UF *LES (satellites)*
GS artificial satellites
. **Lincoln Experimental Satellites**

line current
GS electric current
. **line current**
RT electric power supplies
electrodynamics
magnetohydrodynamic flow
plasma currents
∞ power supplies

line of sight
DEF An aim or observation taken with mechanical or optical aid to establish a direct path to an objective, target, etc.
RT area
coordinates
∞ direction
loci
targets

line of sight communication
DEF Electromagnetic wave propagation, usually microwaves, in a straight line between the transmitter and receiver. The useful transmission distance is generally limited to the horizon as sighted from the elevation of the transmitter.
GS telecommunication
. communication
. . **line of sight communication**
RT boresight error
frequency modulation
space communication
television transmission

line shape
GS shapes
. **line shape**
RT curves (geometry)
inflection points
∞ profiles

line spectra
DEF The spontaneous emission of electromagnetic radiation from the bound electrons as they jump from high to low energy levels in an atom. Used for spectral lines.
UF *spectral lines*
GS spectra
. radiation spectra
. . electromagnetic spectra
. . . **line spectra**
. . . . Balmer series
. . . . D lines
. . . . electronic spectra
. . . . Fraunhofer lines
. . . . H lines
. . . . . H alpha line
. . . . . H beta line
. . . . . H gamma line
. . . . K lines
. . . . Lyman spectra
. . . . Paschen series
. . . . Rydberg series
. . . . telluric lines
RT absorption spectra
atomic energy levels
Bohr theory
emission spectra
fine structure
flame spectroscopy
frequencies
hyperfine structure
infrared spectra
light (visible radiation)
∞ lines
molecular spectroscopy
oscillator strengths
pressure broadening
Raman spectra
Raman spectroscopy
resonance lines
rotational spectra
Seyfert galaxies
solar spectra
spectral bands
spectral emission
spectral energy distribution
spectral line width
spectral resolution
spectrograms
spectrum analysis
Stark effect
stellar spectra
ultraviolet spectra
visible spectrum

lineament
USE **structural properties (geology)**

linear AC alternators
USE **linear alternators**

linear accelerators
DEF Devices for accelerating charged particles employing alternate electrodes and gaps arranged in a straight line, so proportioned that when their potentials are varied in the proper amplitudes and frequency, particles passing through them receive successive increments of energy.
GS particle accelerators
. **linear accelerators**
RT ∞ accelerators
electron accelerators
ion sources
multipactor discharges
neutron sources

linear alternators
(added July 1991)
DEF An electromagnetic energy converter that converts reciprocating linear harmonic motion and driving force input to AC electrical power and energy output.
UF *linear AC alternators*
GS electric generators
. AC generators
. . **linear alternators**
RT free–piston engines
∞ generators
Stirling engines

linear amplifiers
GS amplifiers
. **linear amplifiers**

linear arrays
DEF Antenna arrays whose elements are equally spaced along a straight line.
GS arrays
. antenna arrays
. . **linear arrays**
. . . endfire arrays
. . . . Yagi antennas
. . . multispectral linear arrays
RT dipole antennas
focal plane devices
laser arrays
multiple beam interval scanners
phased arrays
pushbroom sensor modes

linear circuits
GS circuits
. **linear circuits**
RT amplifiers
distributed parameter systems
electrical resistance
superposition (mathematics)
transconductance
volt–ampere characteristics

linear energy transfer (LET)
GS energy transfer
. **linear energy transfer (LET)**
RT ionizing radiation

linear equations
GS algebra
. **linear equations**
. . linear evolution equations
. . Riccati equation
analysis (mathematics)
. real variables
. . **linear equations**
. . . linear evolution equations
. . . Riccati equation
RT determinants
differential equations
∞ equations
Floquet theorem
Gaussian elimination
linear operators
matrices (mathematics)
operational calculus
polynomials

linear evolution equations
DEF Denotes a large class of differential or integral differential equations which are used to describe the evolution in time of some physical systems from an initial state. The equation is said to be linear if the unknown functions and their derivatives appear linearly.
GS algebra
. linear equations
. . **linear evolution equations**
analysis (mathematics)
. real variables
. . linear equations
. . . **linear evolution equations**
RT difference equations
∞ equations

linear filters
GS **linear filters**
. **Kalman filters**
. reduced order filters
RT **adaptive filters**
electric filters
electromagnetic wave filters
∞ **filters**
frequency response
nonlinear filters

linear integrated circuits
GS circuits
. integrated circuits
. . **linear integrated circuits**
RT electronic packaging
large scale integration
microminiaturization
molecular electronics
operational amplifiers
transistor circuits

linear operators
GS operators (mathematics)
. **linear operators**
RT linear equations
linear systems
linear transformations

linear polarization
DEF Polarization of an electromagnetic wave in which the electric vector at a fixed point in space remains pointing in a fixed direction although varying in magnitude. Also known as plane polarization.
GS polarization (waves)
. **linear polarization**
RT light emission
microwave emission
optical polarization
∞ polarization
polarized electromagnetic radiation
polarized radiation
radio astronomy

linear prediction
GS predictions
. **linear prediction**
RT computation
differential pulse code modulation
mathematical models
operations research
quality control
statistical analysis

linear programming
DEF An optimization problem characterization in which a set of parameter values are to be determined, subject to given linear constraints.
GS optimization
. mathematical programming
. . **linear programming**
research
. **linear programming**
RT ∞ applications of mathematics
computer programming
constraints
dynamic programming
formalism
game theory
matrices (mathematics)
nonlinear programming
numerical analysis
operations research
∞ programming
simplex method

linear quadratic Gaussian control
DEF A type of optimal–state feedback control whose design considers noise. It is primarily used to control aircraft and spacecraft systems. Used for LQG control.
UF *LQG control*
GS automatic control
. optimal control
. . **linear quadratic Gaussian control**
optimization
. linear quadratic regulator
. . **linear quadratic Gaussian control**
. optimal control
. . **linear quadratic Gaussian control**
RT ∞ control
control systems design
control theory
feedback control
H–infinity control
Kalman filters

linear quadratic regulator
DEF A type of optimal–state feedback controller that does not consider noise. It is primarily used to control aircraft and spacecraft. Used for linear regulator and LQR.
UF *linear regulator*
LQR
GS optimization
. **linear quadratic regulator**
. . linear quadratic Gaussian control
RT ∞ control
control systems design
control theory
controllers
feedback control
Kalman filters
optimal control

linear receivers
GS receivers
. **linear receivers**
RT frequency response
Nyquist frequencies

linear regulator
USE **linear quadratic regulator**

linear systems
RT distributed parameter systems
linear operators
nonlinear systems
robustness (mathematics)
state estimation
∞ systems
tracking problem

linear transformations
GS algebra
. **linear transformations**
functions (mathematics)
. **linear transformations**
transformations (mathematics)
. **linear transformations**
RT Fourier analysis
Jordan form
linear operators
matrices (mathematics)
orthogonal functions
Schwartz inequality
vector spaces

linear vibration
GS vibration
. structural vibration
. . **linear vibration**
RT free vibration
missile vibration
random vibration
vibration mode

linearity
DEF The maximum deviation between an actual instrument reading and the reading predicted by a straight line drawn between upper and lower calibration points; usually expressed as a percentage of the full scale.
GS **linearity**
. collinearity
RT accuracy
consistency
differential equations
dynamic characteristics
errors
functions (mathematics)
instrument errors
linearization
nonlinearity
tolerances (mechanics)
variability

linearization
RT Bernoulli theorem
∞ equations
Galerkin method
linearity
simplification

linen
GS fabrics
. **linen**
fibers
. **linen**
textiles
. **linen**
RT organic materials

liners
USE **linings**

∞ **lines**
SN (USE OF A MORE SPECIFIC TERM IS RECOMMENDED—CONSULT THE TERMS LISTED BELOW)
RT delay lines
line spectra
lines of force
pipelines
terminator lines
tetherlines
transmission lines
underground transmission lines

lines (geometry)
GS geometry
. Euclidean geometry
. . **lines (geometry)**
. . . chords (geometry)
. . . geodesic lines
RT radii
reciprocal theorems
segments

lines of force
RT barium ion clouds
conjugate points
field aligned currents
flux pinning
flux transfer events
∞ force
∞ lines
magnetic circuits
magnetic domains
magnetic fields
magnetic flux
magnetic mirrors
magnetic properties

magnetostatic fields
nonuniform magnetic fields
polar cusps

Ling–Temco–Vought aircraft
UF *LTV aircraft*
GS **Ling–Temco–Vought aircraft**
. A–7 aircraft
. F–8 aircraft
. XC–142 aircraft
RT ∞ aircraft

linguistics
GS **linguistics**
. machine translation
. phonemics
. phonetics
. psycholinguistics
. semantics
. syntax
RT languages
natural language processing
orthography
phonemes
predicate logic
speech
speech recognition

lining processes
RT coating
coatings
insulation
linings
sealing
tunneling (excavation)

linings
UF *liners*
GS **linings**
. rocket linings
RT bushings
∞ casing
coatings
inserts
insulation
jackets
lining processes
sheaths
shielding
∞ tubes

linkages
RT cams
connectors
coupling
couplings
eccentrics
fasteners
fittings
joints (junctions)
latches
∞ links
mechanical devices
unions (connectors)
yokes

linking
USE **joining**

∞ **links**
SN (USE OF A MORE SPECIFIC TERM IS RECOMMENDED—CONSULT THE TERMS LISTED BELOW)
RT chains
data links
linkages
links (mathematics)

links (mathematics)
GS geometry
. topology
. . **links (mathematics)**
RT ∞ links

Liouville equations
GS analysis (mathematics)
. real variables
. . differential equations
. . . partial differential equations
. . . . **Liouville equations**
RT ∞ equations
plasma physics
plasmas (physics)
statistical mechanics

Liouville theorem
GS analysis (mathematics)
. complex variables
. . **Liouville theorem**
theorems
. **Liouville theorem**

lip reading
GS communicating
. **lip reading**
reading
. **lip reading**

lipid metabolism
GS metabolism
. protein metabolism
. . **lipid metabolism**
RT ∞ nutrients
oils

lipids
GS organic compounds
. **lipids**
. . calciferol
. . castor oil
. . fats
. . lipoproteins
. . phylloquinone
. . retinene
. . steroids
. . . cholesterol
. . . corticosteroids
. . . . aldosterone
. . . . hydroxycorticosteroid
. . . . . cortisone
. . . estrogens
. . . prostaglandins
. . tocopherol
RT amino acids
esters
glycerols
myelin
∞ nutrients

lipoic acid
GS acids
. carboxylic acids
. . fatty acids
. . . **lipoic acid**
organic compounds
. carboxylic acids
. . fatty acids
. . . **lipoic acid**

lipoproteins
GS biopolymers
. proteins
. . **lipoproteins**
organic compounds
. lipids
. . **lipoproteins**
. proteins
. . **lipoproteins**

lips (anatomy)
GS anatomy
. digestive system
. . mouth
. . . **lips (anatomy)**
. face (anatomy)
. . mouth
. . . **lips (anatomy)**
RT head (anatomy)

Lipschitz condition
GS analysis (mathematics)
. real variables
. . **Lipschitz condition**
conditions
. **Lipschitz condition**
RT differential equations

liquefaction
GS phase transformations
. **liquefaction**
. . coal liquefaction
RT ∞ condensation
∞ conversion
jet condensers
melting
noncondensable gases
thixotropy

liquefied gases
GS **gases**
. **liquefied gases**
. . liquefied natural gas
. . liquid air
. . liquid ammonia
. . liquid fluorine
. . liquid helium
. . . liquid helium 2
. . liquid hydrogen
. . liquid neon
. . liquid nitrogen
. . liquid oxygen
liquids
. **liquefied gases**
. . liquefied natural gas
. . liquid air
. . liquid ammonia
. . liquid fluorine
. . liquid helium
. . . liquid helium 2
. . liquid hydrogen
. . liquid neon
. . liquid nitrogen
. . liquid oxygen
RT condensates
condensers (liquefiers)
cryogenic rocket propellants
cryogenics
gas mixtures
liquid rocket propellants
solid cryogen cooling

liquefied natural gas
UF *LNG*
GS fuels
. chemical fuels
. . hydrocarbon fuels
. . . fossil fuels
. . . . natural gas
. . . . . **liquefied natural gas**
. gaseous fuels
. . natural gas
. . . **liquefied natural gas**
gases
. flammable gases

. . gaseous fuels
. . . natural gas
. . . . liquefied natural gas
. . liquefied natural gas
. liquefied gases
. . liquefied natural gas
geophysical fluids
. natural gas
. . liquefied natural gas
liquids
. liquefied gases
. . liquefied natural gas
organic compounds
. hydrocarbons
. . natural gas
. . . liquefied natural gas
resources
. Earth resources
. . fossil fuels
. . . natural gas
. . . . liquefied natural gas
RT methane

liquid air
GS gases
. gas mixtures
. . air
. . . liquid air
. liquefied gases
. . liquid air
liquids
. liquefied gases
. . liquid air
mixtures
. solutions
. . gas mixtures
. . . air
. . . . liquid air

liquid air cycle engines
UF *LACE (engine)*
GS engines
. rocket engines
. . liquid propellant rocket engines
. . . liquid air cycle engines
RT aerospace planes
hydrogen oxygen engines
sustainer rocket engines
turborocket engines

liquid alloys
GS alloys
. liquid alloys
RT metals

liquid ammonia
GS gases
. ammonia
. . liquid ammonia
. liquefied gases
. . liquid ammonia
inorganic compounds
. ammonia
. . liquid ammonia
liquids
. liquefied gases
. . liquid ammonia
nitrogen compounds
. ammonia
. . liquid ammonia
RT fuels
liquid fuels

liquid atomization
GS atomizing
. liquid atomization
RT gas atomization
spraying

liquid bearings
GS bearings
. liquid bearings
RT lubrication

liquid breathing
GS respiration
. liquid breathing
RT acclimatization
pressure breathing
resuscitation

liquid bridges
(added September 1993)
DEF Axisymmetric liquid columns held by capillary forces and forming an interface between two solids or between two gaps in a solid. Useful in space processing.
RT∞ bridges
capillary flow
containerless melts
interfacial tension
liquid–solid interfaces
low gravity manufacturing
Marangoni convection
space manufacturing
space processing

liquid chromatography
UF *gel permeation chromatography*
GS chemical tests
. chemical analysis
. . chromatography
. . . liquid chromatography
RT colorimetry
paper chromatography
sorption

liquid cooled reactors
GS nuclear reactors
. liquid cooled reactors
. . liquid metal cooled reactors
. . . advanced sodium cooled reactor
. . . Experimental Breeder Reactor 1
. . . Experimental Breeder Reactor 2
. . . Lithium Cooled Reactor Experiment
. . . Los Alamos Molten Plutonium Reactor
. . . military compact reactors
. . . sodium graphite reactors
. . . sodium reactor experiment
. . organic cooled reactors
. . . experimental organic cooled reactors
. . water cooled reactors
. . . boiling water reactors
. . . . experimental boiling water reactors
. . . . Halden Boiling Water Reactor
. . . . Los Alamos Water Boiler Reactor
. . . . Pathfinder nuclear reactor
. . . . Spert reactors
. . . heavy water reactors
. . . . heavy water components test reactors
. . . . plutonium recycle test reactor
. . . . zero power reactor 2
. . . light water reactors
. . . NRX reactors
. . . Plum Brook Reactor
. . . pressurized water reactors
. . . . spectral shift control reactor
. . . swimming pool reactors
. . . zero power reactors
. . . . zero power reactor 2
. . . . zero power reactor 3
. . . . zero power reactor 6
. . . . zero power reactor 9
RT sodium cooling

liquid cooling
SN (COOLING WITH LIQUIDS)
UF *water cooling*
GS cooling
. liquid cooling
. . film cooling
RT air cooling
coolants
cooling systems
sodium cooling
space cooling (buildings)
sweat cooling
thermal pollution
water immersion

liquid crystals
GS crystals
. liquid crystals
RT anisotropic fluids
cholesterol
ferroelectric materials
light valves

liquid drops
USE **drops (liquids)**

liquid filled shells
GS shells (structural forms)
. fluid filled shells
. . liquid filled shells
RT hydrodynamic ram effect
propellant tanks
reinforced shells
shell stability
∞ storage
tanks (containers)
∞ vessels

liquid flow
GS fluid flow
. liquid flow
. . open channel flow
. . water flow
RT critical flow
gas flow
head (fluid mechanics)
head flow
hydrodynamic coefficients
laminar flow
mass flow
multiphase flow
nonNewtonian flow
orifice flow
pipe flow
pressure gradients
pressure heads
rheology
single–phase flow
Soret coefficient
steady flow
subcritical flow
supercritical flow
turbulent flow
two phase flow
uniform flow
unsteady flow

liquid fluorine
GS chemical elements
. halogens
. . fluorine
. . . liquid fluorine
gases
. liquefied gases

. . **liquid fluorine**
liquids
. liquefied gases
. . **liquid fluorine**

liquid fuels
GS **fuels**
. chemical fuels
. . **liquid fuels**
. . . aircraft fuels
. . . antimisting fuels
. . . automobile fuels
. . . diesel fuels
. . . gasoline
. . . hydrogen fuels
. . . jet engine fuels
. . . . JP-4 jet fuel
. . . . JP-5 jet fuel
. . . . JP-6 jet fuel
. . . . JP-7 jet fuel
. . . . JP-8 jet fuel
. . . kerosene
RT fuel production
gaseous fuels
liquid ammonia
liquid hydrogen
liquid rocket propellants
liquids
synthetic fuels

liquid helium
UF *helium 2*
GS chemical elements
. rare gases
. . helium
. . . **liquid helium**
. . . . liquid helium 2
gases
. liquefied gases
. . **liquid helium**
. . . liquid helium 2
. rare gases
. . helium
. . . **liquid helium**
. . . . liquid helium 2
liquids
. cryogenic fluids
. . **liquid helium**
. . . liquid helium 2
. liquefied gases
. . **liquid helium**
. . . liquid helium 2
RT cryostats
superfluidity
two fluid models

liquid helium 2
GS chemical elements
. rare gases
. . helium
. . . liquid helium
. . . . **liquid helium 2**
gases
. liquefied gases
. . liquid helium
. . . **liquid helium 2**
. rare gases
. . helium
. . . liquid helium
. . . . **liquid helium 2**
liquids
. cryogenic fluids
. . liquid helium
. . . **liquid helium 2**
. liquefied gases
. . liquid helium
. . . **liquid helium 2**
RT cryostats
superfluidity

liquid hydrogen
GS chemical elements
. hydrogen
. . **liquid hydrogen**
gases
. hydrogen
. . **liquid hydrogen**
. liquefied gases
. . **liquid hydrogen**
liquids
. cryogenic fluids
. . **liquid hydrogen**
. liquefied gases
. . **liquid hydrogen**
RT cryogenic rocket propellants
fuels
hydrogen fuels
hydrogen-based energy
liquid fuels
slush hydrogen
topping cycle engines

liquid injection
GS injection
. fluid injection
. . **liquid injection**
. . . deep well injection (wastes)
. . . water injection
RT film cooling
fuel injection
fuel sprays
mixing
propellant sprays
thrust vector control

liquid lasers
GS stimulated emission devices
. lasers
. . **liquid lasers**
RT carbon lasers
chemical lasers
dye lasers
infrared lasers
organic lasers

liquid levels
GS level (horizontal)
. **liquid levels**
RT fluid boundaries

liquid lithium
GS chemical elements
. alkali metals
. . lithium
. . . **liquid lithium**
liquids
. liquid metals
. . **liquid lithium**
metals
. alkali metals
. . lithium
. . . **liquid lithium**
. liquid metals
. . **liquid lithium**

liquid mercury
USE **mercury (metal)**

liquid metal cooled reactors
UF *LMCR (reactors)*
GS nuclear reactors
. liquid cooled reactors
. . **liquid metal cooled reactors**
. . . advanced sodium cooled reactor
. . . Experimental Breeder Reactor 1
. . . Experimental Breeder Reactor 2
. . . Lithium Cooled Reactor Experiment
. . . Los Alamos Molten Plutonium Reactor
. . . military compact reactors
. . . sodium graphite reactors
. . . sodium reactor experiment
RT Enrico Fermi atomic power plant
sodium

liquid metal fast breeder reactors
UF *LMFBR*
GS nuclear reactors
. breeder reactors
. . **liquid metal fast breeder reactors**
. fast nuclear reactors
. . **liquid metal fast breeder reactors**
RT nuclear power reactors

liquid metals
GS liquids

liquid rocket propellants
DEF Specifically, rocket propellants in liquid form. Examples of liquid propellants include fuels such as alcohol, gasoline, aniline, liquid ammonia, and liquid hydrogen; oxidants such as liquid oxygen, hydrogen peroxide (also applicable as a monopropellant), and nitric acid; additives such as water; and monopropellants such as nitromethane. Used for bipropellants and tripropellants.
UF *bipropellants*
tripropellants
GS propellants
. rocket propellants
. . **liquid rocket propellants**
. . . cryogenic rocket propellants
. . . gelled rocket propellants
. . . hypergolic rocket propellants
. . . monopropellants
. . . . aerozine

magic tees
DEF Compound waveguides or coaxial tees with four arms which exhibit directional characteristics, when properly matched, so that a signal entering one arm will be split between two of the other arms but not the third. A signal entering another arm is likewise split with half the energy entering one of the arms common to the other input but not its second arm and the other half of the energy entering the arm not used by the other input. Magic tees are used in radar as transmitter receiver duplexers.
RT duplexers

RT ∞ films

magnetic flux
DEF The magnetic force exerted on an imaginary unit magnetic pole placed at any specified point of space. It is a vector quantity. Its direction is taken as the direction toward which a north magnetic pole would tend to move under the influence of the field. If the force is measured in dynes and the unit pole is a cgs unit pole, the field intensity is given in oersteds. Used for magnetic field intensity.
UF *magnetic field intensity*

Q devices
Scylla
spheromaks

magnetic moments
DEF The quantities obtained by multiplying the distances between two magnetic poles by the average strength of the poles. Measures of the magnetic flux set up by the gyration of an electric field in a magnetic field. Moments are negative, indicating they are diagramatic, and equal to the energy of rotation divided by the magnetic field. In atomic and nuclear physics, moments, measured in Bohr magnetrons, are associated with the inirinsic spin of the particle and with the orbital motion of the particle in a system.

Mercator projection
DEF An equatorial, cylindrical, conformal map projection derived by mathematical analysis (not geometrically) in which the equator is represented by a straight line true to scale. The meridians are represented by parallel straight lines perpendicular to the equator and equally spaced according to their distance apart at the equator. The parallels are represented by straight lines perpendicular to the meridians and parallel with (and the same length as) the equator. The parallels are spaced so as to achieve conformality, their spacing increasing rapidly with their distance from the equator so that at all places the degrees of latitude and longitude have the same ratio to each other as to the sphere itself. This results in greater distortion of distances, areas, and shapes in the polar regions (above 80 deg. latitude). The scale is increasingly poleward as the secant of the latitude. Because any line of constant direction (azimuth) on the sphere is truly represented on the projection by a straight line, the Mercator projection is of great value in navigation. It is used for hydrographic charts, and also to show geographic variations of some physical property (such as magnetic declination) or to plot trajectories of Earth satellites in oblique orbits. It is named after Gerhardus Mercator (1512–1594), a Flemish mathematician and geographer, whose world map of 1569 used this projection.

mesas
DEF Isolated, nearly level landmasses standing distinctly above the surrounding country, bounded by abrupt or steeply sloping erosion scarps on all sides, and capped by layers of resistant, nearly horizontal rock (often lava). Less strictly, very broad, flat topped, usually isolated hills or mountains of moderate height bounded on at least one side by a steep cliff or slope and representing an erosion remnant. Mesas are similar to, but have more summit area than buttes and are common topographical features in arid and semiarid regions of the United States. Mesas are often considered broad terraces or comparatively flat plateaus along river valleys. They are marked by an abrupt slope or escarpment on one side.

metamorphic rocks
DEF Rocks derived from pre-existing rocks by mineralogical, chemical and/or structural changes, essentially in the solid state. These changes are in response to marked changes in temperature, pressure, shearing stress, and chemical environment, generally at the depth of the Earth's crust. Metamorphic rocks constitute one of the three main classes into which rocks are divided, the others being igneous rocks and sedimentary rocks.
GS rocks
. **metamorphic rocks**
. . quartzite
RT metamorphism (geology)

metamorphism (geology)
DEF The mineralogical and structural adjustment of solid rocks to physical and chemical conditions which have been imposed at depth below the surface zones of weathering and cementation, which differ from the conditions under which the rocks in question originated.
RT contacts (geology)
metamorphic rocks
phase transformations
rocks

meteorology
DEF The study dealing with the phenomena of the atmosphere. This includes not only the physics, chemistry, and dynamics of the atmosphere, but is extended to include many of the direct effects of the atmosphere upon the Earth's surface, the oceans, and life in general. A distinction can be drawn between meteorology and climatology, the latter being primarily concerned with average not actual weather conditions. Used for atmospheric conditions.

. electron microscopy
. . scanning electron microscopy
. . scanning tunneling microscopy
. . transmission electron microscopy
laser microscopy
. photoacoustic microscopy
. ultraviolet microscopy
RT cytometry
microscopes
microtomy
phase contrast
photomicrography
slides (microscopy)

microseisms
DEF Seismic pulses of short duration and low amplitude, often occurring previous to failure of a material or structures.
GS elastic waves
. seismic waves
. . microseisms
RT crustal fractures
earthquake damage
earthquakes

microsonics
GS acoustics
. microsonics
RT elastic properties
piezoelectric crystals
sound fields
sound waves
surface acoustic wave devices
surface waves

microspores
GS spores
. microspores
RT fungi
microorganisms
plants (botany)
protozoa

microstrip antennas
DEF Antennas which consist of thin metallic conductors bonded to thin grounded dielectric substrates. The metallic conductors generally have some regular shape, for example, rectangular, circular, or elliptical. Feeding is often by means of a coaxial probe or a microstrip transmission line.
GS antennas
. microstrip antennas
microstrip devices
. microstrip antennas
RT antenna design
microstrip transmission lines
microwave antennas
patch antennas
waveguide antennas

microstrip devices

unsteady flow

multiphoton absorption
DEF Ionization and dissociation of a molecule under the action of powerful laser radiation. Laser-flux dependent light intensities emitted by different excited states of the molecule indicate the various absorption processes.
GS energy absorption
. radiation absorption
. . electromagnetic absorption
. . . **multiphoton absorption**
RT ∞ absorption
photon absorptiometry

multiple access
DEF The allocation of communication system resources (output) among multiple users by means of power, bandwidth, and power assignment singly or in combination.
GS telecommunication
. **multiple access**
. . Aloha system
. . code division multiple access
. . demand assignment multiple access
. . frequency division multiple access
. . time division multiple access
transmission
. signal transmission
. . data transmission
. . . **multiple access**
. . . . Aloha system
. . . . code division multiple access
. . . . demand assignment multiple access
. . . . frequency division multiple access
. . . . time division multiple access
RT access control
frequency division multiplexing
multichannel communication
packet switching
pulse communication
wideband communication

multiple beam interval scanners
UF *MUBIS (scanners)*
GS antennas
. **multiple beam interval scanners**
RT linear arrays
radar scanning

multiple blocked grids
USE **multiblock grids**

multiple docking adapters
UF *MDA*
GS adapters
. **multiple docking adapters**
RT airlock modules
mooring
orbital rendezvous
Saturn 1 workshop
Saturn 5 workshop
Saturn workshops
Skylab 1
Skylab 2
Skylab 3
Skylab 4
spacecraft docking

multiple frequency radar
USE **multispectral radar**

multiple input multiple output
USE **MIMO (control systems)**

multiple instruction multiple data stream
USE **MIMD (computers)**

multiple output programs
GS computer programs
. **multiple output programs**
RT multiprogramming
readout
time sharing

multiple target tracking
(added August 1991)
DEF The process of following movements of several targets simultaneously.
GS tracking (position)
. **multiple target tracking**
RT optical tracking
radar targets
radar tracking
target acquisition
target recognition
targets
tracking filters
tracking problem

multiple target trajectory systems
USE **MATTS (systems)**

multiplets
USE **fine structure**

multiplex transmission
USE **multiplexing**

multiplexers
USE **multiplexing**

multiplexing
DEF The simultaneous transmission of two or more signals within a single channel. The three basic methods of multiplexing involve the separation of signals by time division, frequency division, and phase division. Used for multiplex transmission and multiplexers.
UF *multiplex transmission*
multiplexers
GS transmission
. **multiplexing**
. . code division multiplexing
. . frequency division multiplexing
. . time division multiplexing
. . wavelength division multiplexing
RT access control
carrier frequencies
code division multiple access
data transmission
demultiplexing
frequency division multiple access
pulse communication
radio transmission
satellite transmission
signal transmission

multiplication
GS number theory
. **multiplication**
RT arithmetic
computation
fringe multiplication

multiplier phototubes
USE **photomultiplier tubes**

multipliers
DEF Devices which have two or more inputs and whose output is a representation of the product of the quantities represented by the input signals.
GS **multipliers**
. channel multipliers
RT Lagrange multipliers
logic circuits
photomultiplier tubes

multipolar fields
RT continuum mechanics
field theory (physics)
gravitational fields
magnetic fields
multipoles

multipoles
RT monopoles
multipolar fields

multiprocessing (computers)
GS data processing
. **multiprocessing (computers)**
RT associative processing (computers)
computers
concurrent processing
Connection Machine
data processing equipment
distributed memory
hypercube multiprocessors
interprocessor communication
multiprogramming
parallel programming
pipelining (computers)
real time operation
supercomputers
time sharing
vector processing (computers)

multiprogramming
UF *multitasking (computers)*
GS computer programming
. **multiprogramming**
RT machine-independent programs
multiple output programs
multiprocessing (computers)
pipelining (computers)
∞ programming
time sharing

multipropellants
USE **rocket propellants**

multiradar tracking
USE **radar networks**

multisensor applications
GS **multisensor applications**
. multisensor fusion
RT enhanced vision
image processing
imaging techniques
pattern recognition
remote sensing
remote sensors

multisensor fusion
(added October 1994)
DEF A combination of data or images from more than one sensor source (or from multispectral sensors) for display as a single image.
UF *data fusion*
sensor fusion
GS multisensor applications
. **multisensor fusion**
RT data integration
fuzzy systems
imaging techniques
remote sensing
robotics
signal processing
terrain analysis

multispectral band cameras
GS optical equipment
. cameras
. . **multispectral band cameras**
photographic equipment
. cameras
. . **multispectral band cameras**
RT infrared photography
photography

multispectral band scanners
GS optical equipment
. optical scanners
. . **multispectral band scanners**
. . . thematic mappers (LANDSAT)
scanners
. optical scanners
. . **multispectral band scanners**
. . . thematic mappers (LANDSAT)
RT band ratioing
change detection
Coastal Zone Color Scanner
Earth observations (from space)
imaging techniques
infrared scanners
ocean color scanner
panoramic scanning
photography
radiometric correction
radiometric resolution
scanning
spaceborne photography
spectral reconnaissance
vegetative index

multispectral linear arrays
DEF Large number of interconnected solid state detectors in a pushbroom mode wherein the forward motion of the vehicle (spacecraft) sweeps the assembly of detectors which are oriented perpendicular to the ground track. Used for MLA.
UF *MLA*
GS arrays
. antenna arrays
. . linear arrays
. . . **multispectral linear arrays**
electronic equipment
. solid state devices
. . **multispectral linear arrays**
spacecraft instruments
. satellite instruments
. . **multispectral linear arrays**
RT ∞ detectors
∞ sensors

multispectral photography
GS imagery
. photography
. . **multispectral photography**
. . . infrared photography
. . . . color infrared photography
. . . radar photography
RT change detection
crop identification
Earth observations (from space)
I2S cameras
image resolution
imaging techniques
spectral reconnaissance

multispectral radar
UF *dual frequency radar*
multiple frequency radar
GS radar
. **multispectral radar**
RT imagery
imaging techniques
spectral reconnaissance

Multispectral Resource Sampler
DEF An experimental remote sensing instrument for satellites to measure both intensity and polarization at several wavelengths. The first one was launched in the late 1980s.
GS artificial satellites
. **Multispectral Resource Sampler**
RT remote sensing

multispectral tracking telescopes
GS telescopes
. spectroscopic telescopes
. . **multispectral tracking telescopes**
RT optical measuring instruments
optical tracking
tracking (position)

multistage compressors
USE **turbocompressors**

multistage rocket vehicles
DEF Vehicles having two or more rocket units, each unit firing after the one in back of it has exhausted its propellant. Normally, each unit, or stage, is jettisoned after completing its firing.
GS rocket vehicles
. **multistage rocket vehicles**
. . Ablestar launch vehicle
. . Antares rocket vehicle
. . Argo rocket vehicles
. . Astrobee rocket vehicles
. . . Astrobee 1500 rocket vehicle
. . Athena rocket vehicle
. . Atlas launch vehicles
. . . Atlas Able 5 launch vehicle
. . . Atlas Agena B launch vehicle
. . . Atlas Agena launch vehicles
. . . Atlas Centaur launch vehicle
. . . Atlas SLV-3 launch vehicle
. . Bernice rocket vehicle
. . Black Knight rocket vehicle
. . Blue Scout rocket vehicle
. . Diamant launch vehicle
. . Eldo launch vehicle
. . EXOS sounding rocket
. . Jaguar rocket vehicle
. . Javelin rocket vehicle
. . Juno launch vehicles
. . . Juno 1 launch vehicle
. . . Juno 2 launch vehicle
. . Jupiter C rocket vehicle
. . Kappa rocket vehicles
. . . Kappa 8 rocket vehicle
. . . Kappa 9 rocket vehicle
. . Lambda rocket vehicles
. . Little Joe 2 launch vehicle
. . Nike rocket vehicles
. . . Nike-Apache rocket vehicle
. . . Nike-Cajun rocket vehicle
. . . Nike-Hydac rocket vehicle
. . . Nike-Iroquois rocket vehicle
. . . Nike-Javelin rocket vehicle
. . . Nike-Tomahawk rocket vehicle
. . Nova launch vehicles
. . Pegasus air-launched booster
. . Phoenix sounding rocket
. . RAM B launch vehicle
. . Rubis rocket vehicle
. . Saturn launch vehicles
. . . Saturn 1 launch vehicles
. . . . Saturn 1 SA-1 launch vehicle
. . . . Saturn 1 SA-10 launch vehicle
. . . . Saturn 1 SA-2 launch vehicle
. . . . Saturn 1 SA-3 launch vehicle
. . . . Saturn 1 SA-4 launch vehicle
. . . . Saturn 1 SA-5 launch vehicle
. . . . Saturn 1 SA-6 launch vehicle
. . . . Saturn 1 SA-7 launch vehicle
. . . . Saturn 1 SA-8 launch vehicle
. . . . Saturn 1 SA-9 launch vehicle
. . . Saturn 1B launch vehicles
. . . Saturn 2 launch vehicles
. . . Saturn 5 launch vehicles
. . . Saturn D launch vehicle
. . Scout launch vehicle
. . Skylark rocket vehicle
. . Thor launch vehicles
. . . Thor Able rocket vehicle
. . . Thor Agena launch vehicle
. . . Thor Delta launch vehicle
. . Titan launch vehicles
. . . Titan 3 launch vehicle
. . . Titan 4 launch vehicle
. . Vanguard 2 launch vehicle
. . Vega launch vehicle
. . WASP sounding rocket
RT air launching
expendable stages (spacecraft)
interim stages (spacecraft)
launch vehicles
Minuteman ICBM
multiengine vehicles
Navaho missile
payload mass ratio
Pershing missile
piggyback systems
polaris missiles
propulsive efficiency
rocket engines
SS-11 missile
stage separation
Sunblazer space probe
Talos missile
terrier missile
Titan ICBM
Trailblazer 1 reentry vehicle
Trailblazer 2 reentry vehicle
upper stage rocket engines
∞ vehicles

multistatic radar
DEF System in which successive lobes of the antenna are sequentially engaged to provide a tracking capability without physical movement of the antenna. Used for bistatic radar.
UF *bistatic radar*
GS radar
. Doppler radar
. . **multistatic radar**
. surveillance radar
. . **multistatic radar**
RT multipath transmission
pulse radar
radar detection
target recognition

multitasking (computers)
USE **multiprogramming**

multitemporal analysis
USE **temporal resolution**

multivariable control
(added July 1991)
RT ∞ control
control theory
feedback control
optimal control

multivariate statistical analysis
GS statistical analysis
. variance (statistics)
. . **multivariate statistical analysis**
. . . bivariate analysis
. . . covariance
. . . orthogonality
. . . regression analysis
. . . . regression coefficients
RT ∞ analyzing
correlation
discriminant analysis (statistics)
∞ variance

multivibrators
DEF Two-stage regenerative circuits with two possible states and an abrupt transition characteristic.
GS circuits
. **multivibrators**
. . flip-flops
. . monostable multivibrators
RT amplifiers
bistable circuits
logic circuits
oscillators
positive feedback
switching circuits
trigger circuits

muon spin rotation
DEF Particle spin depolarization caused by sensitivity of muon spin to the presence of defects in certain metals.
GS gyration
. rotation
. . **muon spin rotation**
RT charged particles
hyperfine structure
muons
particle diffusion
particle spin
precession

muonium
RT electrons
mesons

muons
GS particles
. elementary particles
. . bosons
. . . mesons
. . . . muons
. . fermions
. . . leptons
. . . . muons
. . hadrons
. . . mesons
. . . . muons

. nuclear particles
. . bosons
. . . mesons
. . . . muons
RT baryons
charged particles
electron decay rate
muon spin rotation

Murchison meteorite

natural gas
DEF (A) Hydrocarbons that exist as a gas or vapor at ordinary pressures and temperatures. Methane is the moMost important, but ethane, propane, or others may be present. (B) Gaseous hydrocarbons trapped in the zone of ground water saturation under pressure from, and partially dissolved in, underlying water or petroleum.
GS **fuels**
. chemical fuels
. . hydrocarbon fuels

. **negative electron affinity**
RT electron affinity
electron emission
gallium arsenides
photoelectric emission
semiconductors (materials)

negative feedback
DEF Feedback which results in decreasing the amplification. Used for degenerative feedback.
UF *degenerative feedback*
GS feedback
. **negative feedback**
RT automatic control
damping
degeneration
feedback control
nonlinear feedback
oscillators
transfer functions

negative ions
DEF Ions singly or in groups which acquire negative charges by gaining one or more electrons.
GS ions
. **negative ions**
. . anions
RT free radicals
ionic mobility
nitrogen ions
oxygen ions
plasma physics

negative matter
(added August 1991)
SN (NOT ANTIMATTER)
DEF A hypothetical form of matter whose active–gravitational, passive–gravitational, inertial, and rest mass are opposite in sign to normal, positive matter. Negative matter is not antimatter.
GS matter (physics)
. **negative matter**
RT antimatter
condensed matter physics
extraterrestrial matter
mass

negative matter propulsion
(added August 1991)
GS propulsion
. spacecraft propulsion

Nusselt number
DEF A number expressing the ratio of convective to conductive heat transfer between a solid boundary and a moving fluid, defined as hl/k where h is the heat transfer coefficient, l is the characteristic length, and k is the thermal conductivity of the fluid. (Named after Wilhelm Nusselt, German engineer.)
GS dimensionless numbers
. **Nusselt number**
ratios
. **Nusselt number**
RT convective heat transfer
heat transfer
Prandtl number
Schmidt number

nutation
DEF The oscillation of the axis of any rotating body, as a gyroscope rotor. Specifically, in astronomy, irregularities in the precessional motion of the equinoxes because of varying positions of the moon and, to a lesser extent, of other celestial bodies with respect to the ecliptic. Used for nutational oscillation.

Omega Navigation System
DEF A very long distance navigation system operating at approximately 10 kHz (kilohertz), in which hyperbolic lines of position are determined by measurement of the difference in travel time of continuous wave signals from two transmitters separated by 5000 nmi (nautical miles) to 6000 nmi (9000 km [kilometers] to 11000 km) or in which changes in distances from the transmitters are measured by counting RF (radio frequency) wavelengths in the space of lanes as the vehicle moves from a known position, the lanes being counted by phase comparison with a stable oscillator aboard the vehicle.

. . . Praesepe star clusters

OPEN Project
DEF A former NASA project now absorbed by the International Solar Terrestrial Physics Project. It proposed a simultaneous study of plasmas in the Earth's magnetosphere and neighborhood using the following four instrumented spacecraft: interplanetary physics laboratory (IPL), geomagnetic tail laboratory (GTL), polar plasma laboratory (PPL), and equatorial magnetosphere laboratory (EML). Used for Origin of Plasmas in Earth Neighborhood.
UF *Origin of Plasmas in Earth Neighborhood*

nonstabilized oscillation
nutation dampers
springs (elastic)
vibration isolators

oscillations
DEF Fluctuations or vibrations on each side of a mean value or position. One oscillation is half an oscillatory cycle, consisting of a fluctuation or vibration in one direction; half a vibration. The variation, usually with time, of the magnitude of a quantity with respect to a specified reference when the magnitude is alternately greater and smaller than the reference. Used for phugoid oscillations.
UF *phugoid oscillations*
GS **oscillations**
. airfoil oscillations

RT consolidation
foundations

Overhauser effect
DEF In atomic physics, a radio frequency field applied to a substance in an external magnetic field, whose nuclei have spin 1/2 and which has unpaired electrons at the electron spin resonance frequency. This results in polarization of the nuclei as great as if the nuclei had the much larger electron magnetic moment.
RT ∞ effects
magnetic resonance
nuclear spin
∞ polarization
resonance

overpressure
DEF (1) The pressure resulting from the blast wave of an explosion. It is referred to as positive when it exceeds atmospheric pressure and negative during the passage of the wave when resulting pressures are less than atmospheric pressure. (2) The transient pressure, usually expressed in pounds per square inch, exceeding existing atmospheric pressure manifested in the blast wave from an explosion. During some period of the passage of the wave past a point, the overpressure is negative.

. . endocrine glands
. . . **pancreas**
RT diabetes mellitus
gastrointestinal system
trypsin

Pandora
(added July 1995)
DEF A natural satellite of Saturn, orbiting at a mean distance of 141,700 kilometers.
GS celestial bodies
. natural satellites
. . Saturn satellites
. . . **Pandora**
RT Saturn (planet)

panel flutter
GS vibration
. structural vibration
. . flutter
. . . **panel flutter**
. . self induced vibration
. . . **panel flutter**
RT aerodynamic noise
aeroelasticity
bending vibration

panel method (fluid dynamics)
DEF Technique for analyzing and predicting the properties and characteristics of fluid flow, sometimes called the finite element method.
GS procedures
. **panel method (fluid dynamics)**
RT Bernoulli theorem
boundary layers
computational fluid dynamics
finite element method
∞ flow
flow theory
fluid dynamics
flux vector splitting
gas-solid interactions

panic
RT emotional factors
emotions
fear
human behavior

panoramic cameras
GS optical equipment
. cameras
. . **panoramic cameras**
photographic equipment
. cameras
. . **panoramic cameras**
RT camera shutters
focusing
lenses
photography
wide angle lenses

panoramic scanning
GS scanning
. **panoramic scanning**
RT conical scanning
frequency scanning
multispectral band scanners
radar scanning
scanners
searching
surveillance

panspermia
DEF The theory that holds that reproductive bodies of living organisms exist throughout the universe and develop wherever the environment is favorable.
RT abiogenesis
aerospace environments
bacteria
biological evolution
exobiology
extraterrestrial life
fungi

PANT program
DEF The passive nosetip technology (PANT) program is an investigation of flow phenomena over reentry vehicle nosetips by the Air Force. Used for ablative nosetips and passive nosetip technology.
UF *ablated nosetips*
passive nosetip technology
GS programs
. **PANT program**

Pantar chondrites
GS celestial bodies
. meteorites
. . stony meteorites
. . . chondrites
. . . . **Pantar chondrites**

Panther aircraft

Papua New Guinea
GS nations
. **Papua New Guinea**
RT Asia
Australia
New Guinea (island)

para hydrogen
GS gases
. **para hydrogen**
RT hydrogen
ortho para conversion

parabolas
DEF Open curves where all points of which are equidistant from a fixed point called the focus, and a straight line. The limiting case occurs when the point is on the line, in which case the parabola becomes a straight line.
GS geometry
. Euclidean geometry
. . analytic geometry
. . . conics
. . . . **parabolas**

parabolic antennas
GS antennas
. directional antennas
. . reflector antennas
. . . **parabolic antennas**
RT antenna design
Cassegrain antennas
horn antennas
microwave antennas
radar antennas
radar equipment
radar reflectors

parabolic bodies
DEF Surfaces of revolution generated by revolving sections of parabolas about their major axis. Used for paraboloids.
UF *paraboloids*
GS symmetrical bodies
. bodies of revolution
. . **parabolic bodies**

parabolic differential equations
GS analysis (mathematics)
. real variables

. . differential equations
. . . partial differential equations
. . . . **parabolic differential equations**
RT ∞ equations

parabolic flight
RT **ascent trajectories**
ballistic trajectories
climbing flight
coasting flight
descent trajectories
∞ flight
midcourse trajectories
missile trajectories
suborbital flight
trajectories
weightlessness
weightlessness simulation

parabolic reflectors
DEF Reflecting surfaces having the cross section along the axis in the shape of a parabola. Parallel rays striking the reflector are brought to a focus at a point, or if the source of the rays is placed at the focus, the reflected rays are parallel. Used for dishes.
UF dishes
GS reflectors
. **parabolic reflectors**
. . paraboloid mirrors
RT microwave antennas
radar reflectors
reflector antennas
Schwarzschild antennas
solar reflectors

parabolic velocity
USE **escape velocity**

paraboloid mirrors
GS mirrors
. **paraboloid mirrors**
reflectors
. parabolic reflectors
. . **paraboloid mirrors**
RT reflecting telescopes
solar reflectors

paraboloids
USE **parabolic bodies**

parachute descent
UF *parachuting*
GS descent
. **parachute descent**
RT bailout
ejection
ejection training
escape (abandonment)
free fall
Mars Pathfinder
parachutes

parachute fabrics
GS fabrics
. **parachute fabrics**
RT Fortisan (trademark)
gores
netting (materials/structures)
parachutes

parachutes
DEF A device used, or intended to be used to retard the fall of a body or object through the air.
GS **parachutes**
. drag chutes
. parafoils
. recovery parachutes
. ribbon parachutes
. rotochutes
RT aerodynamic brakes
air drop operations
airdrops
ballutes
brakes (for arresting motion)
folding structures
parachute descent
parachute fabrics
paracone
parawings
towed bodies
whirl towers

parachuting
USE **parachute descent**

parachuting injury
GS injuries
. **parachuting injury**

paracone
DEF A system for recovering men and objects from great distances above the Earth's surface and landing them safely onto the Earth.
RT **escape capsules**
escape systems
parachutes

paradoxes
GS knowledge
. philosophy
. . **paradoxes**
RT ∞ logic
relativity

paraffins
GS organic compounds
. hydrocarbons
. . aliphatic hydrocarbons
. . . **alkanes**
. . . . **paraffins**
. . . . . ceresin
RT hydrocarbon fuels
kerosene
shale oil

parafoils
(added July 1994)
GS parachutes
. **parafoils**
RT aerodynamic brakes
airdrops
bailout
free fall
paragliders

paragliders
GS gliders
. **paragliders**
. . inflatable gliders
RT folding structures
hypersonic gliders
parafoils
parawings
∞ subsonic aircraft

Paraguay
GS nations
. **Paraguay**
RT South America

parallax
DEF The difference in the apparent direction or position of an object when viewed from different points expressed as an angle.
GS **parallax**
. solar parallax
. stellar parallax
RT astrometry
companion stars
∞ optics

parallel computers
GS data processing equipment
. computers
. . digital computers
. . . **parallel computers**
. . . . massively parallel processors
. . . . . Connection Machine
. . . . MIMD (computers)
. . . . SIMD (computers)

systems analysis
systems engineering

parameterization
GS **parameterization**
. parameter identification
RT **algorithms**
∞ applications of mathematics
dependent variables
derivation
dimensional analysis
∞ estimators
formalism
formulations
mathematical models
scale effect
semiempirical equations
system identification
units of measurement

parameters
USE **independent variables**

parametric amplifiers
DEF Inverting parametric devices used to amplify a signal without frequency translation from input to output. Used for parametric oscillators and reactance amplifiers.
UF *parametric oscillators*
reactance amplifiers
GS amplifiers
. **parametric amplifiers**
RT frequency converters
LC circuits
magnetostatic amplifiers
microwave amplifiers
negative resistance devices
power amplifiers
semiconductor devices

parametric diodes
GS electronic equipment
. diodes
. . semiconductor diodes
. . . **parametric diodes**
. solid state devices
. . semiconductor devices
. . . **parametric diodes**
RT varactor diodes

parametric frequency converters
GS frequency converters
. **parametric frequency converters**
RT ∞ converters
phase modulation
up-converters

parametric oscillators
USE **parametric amplifiers**

parametrons
RT computer storage devices
magnetic cores
magnetic storage
oscillators
phase lock demodulators
thin films

paranasal sinuses
GS anatomy
. respiratory system
. . **paranasal sinuses**
sinuses
. **paranasal sinuses**
RT nose (anatomy)

paraplasts
GS plasters
. **paraplasts**
RT resins

parapsychology
USE **extrasensory perception**

parasites
GS **parasites**
. trypanosome
RT animals
blight
infestation

parasitic antennas
USE **parasitic elements (antennas)**

parasitic diseases
GS diseases
. infectious diseases
. . **parasitic diseases**
RT airborne infection
amoeba
blight
rust fungi
trypanosome

parasitic elements (antennas)
(added July 1993)
UF *parasitic antennas*
parasitic reflectors
passive elements
GS antenna components
. **parasitic elements (antennas)**
. . directors (antenna elements)
antennas
. **parasitic elements (antennas)**
. . directors (antenna elements)
RT antenna design
antenna radiation patterns
dipole antennas
directional antennas
log periodic antennas
radio receivers
reflectors
Yagi antennas

parasitic reflectors
USE **parasitic elements (antennas)**

parathyroid gland
GS anatomy
. glands (anatomy)
. . endocrine glands
. . . **parathyroid gland**
RT calcium metabolism

parawings
GS airfoils
. wings
. . flexible wings
. . . **parawings**
RT air drop operations
folding structures
hang gliders
parachutes
paragliders

parenteral functions
RT ∞ functions

parents
RT children
human beings

parity
DEF A symmetry property of a wave function.
RT BCH codes
coding
conservation
correction
equivalence
error detection codes
information theory
nuclear physics
particle spin

quantum numbers
quantum theory
strangeness
vector currents

∞ **parking**
SN (USE OF A MORE SPECIFIC TERM IS RECOMMENDED—CONSULT THE TERMS LISTED BELOW)
RT parking orbits
ramps (structures)

parking orbits
GS orbits
. spacecraft orbits
. . satellite orbits
. . . **parking orbits**
RT Earth orbits
Earth–Moon trajectories
flight optimization
interplanetary trajectories
low earth orbits
lunar orbits
lunar trajectories
orbital mechanics
∞ parking
planetary orbits
thrust programming
transfer orbits

Parkinson disease
GS diseases
. **Parkinson disease**
RT tremors

parks
GS land
. **parks**
. . national parks
. . . Yellowstone National Park (ID–MT–WY)
RT recreation
regional planning
urban development
urban planning

parotid gland
USE **salivary glands**

parsing algorithms
DEF Computer routines for the syntactic and/or semantic analysis and restructuring of natural language instructions or data for internal processing
GS mathematical logic
. algorithms
. . **parsing algorithms**
RT compilers
computer techniques
grammars
natural language processing
semantics
subroutines
syntax

partial differential equations
GS analysis (mathematics)
. real variables
. . differential equations
. . . **partial differential equations**
. . . . biharmonic equations
. . . . Burger equation
. . . . Cauchy–Riemann equations
. . . . elliptic differential equations
. . . . . Monge–Ampere equation
. . . . Euler–Cauchy equations
. . . . Fokker–Planck equation
. . . . Gauss equation
. . . . Helmholtz vorticity equation
. . . . Liouville equations
. . . . parabolic differential equations
. . . . Poisson equation
. . . . Vlasov equations
RT alternating direction implicit methods
Boltzmann–Vlasov equation
∞ equations
functional integration
kinetic equations
Laplace equation
method of characteristics
Neumann problem
reaction–diffusion equations
wave equations

partial pressure
DEF The pressure exerted by a designated component or components of a gaseous mixture
GS pressure
. **partial pressure**
. . oxygen tension
. . . hypoxemia
RT Dalton law
gas pressure
Henry law
internal pressure
Raoult law
residual gas
∞ tension
vapor pressure

particle acceleration
GS rates (per time)
. acceleration (physics)
. . **particle acceleration**
RT ∞ acceleration
electromagnetic acceleration
magnetic fields
plasma acceleration
racetracks (particle accelerators)
wave–particle interactions

particle accelerator targets
GS targets
. **particle accelerator targets**
RT ∞ accelerators
target thickness

particle accelerators
DEF Specifically, devices for imparting large kinetic energy to charged particles, such as electrons, protons, deuterons, and helium ions.
GS **particle accelerators**
. cyclic accelerators
. . betatrons
. . synchrocyclotrons
. . synchrotrons
. . . bevatron
. . . storage rings (particle accelerators)
. cyclotrons
. . geocyclotrons
. . microtrons
. . Oak Ridge isochronous cyclotron
. . omegatrons
. . synchrocyclotrons
. electron accelerators
. . betatrons
. ion accelerators
. linear accelerators
. Nimrod accelerator
. superconducting super collider
. synchrophasotrons
. Van de Graaff accelerators
RT ∞ accelerators
beam splitters
electron guns
elementary particles
ion sources
kaon production
neutron sources
nuclear particles
racetracks (particle accelerators)
railgun accelerators
SEPAC (payload)

particle beams
GS beams (radiation)
. **particle beams**
. . atomic beams
. . electron beams
. . . relativistic electron beams
. . ion beams
. . neutral beams
. . . molecular beams
. . . neutron beams
. . neutrino beams
. . pion beams
. . proton beams
RT beam splitters
electron acceleration
electron bombardment
flux (rate)
ion stripping
magnetic sails
phonon beams

particle charging
RT charged particles

particle collisions
GS collisions
. **particle collisions**
RT atomic collisions
atomic excitations
BGK model
dense plasmas
Faddeev equations
ionic collisions
kinetics
mean free path
molecular collisions
molecular excitation
nucleon–nucleon scattering
scattering

particle counters
USE **radiation counters**

particle decay
(added May 1994)
SN (LIMITED TO THE DECAY OF ELEMENTARY PARTICLES; EXCLUDES NUCLEAR DECAY)
GS decay
. **particle decay**
. . neutron decay
RT elementary particle interactions
fermions
hadrons
radioactive decay

particle density (concentration)
GS density (number/volume)
. **particle density (concentration)**
. . electron density (concentration)
. . . carrier density (solid state)
. . . electron density profiles
. . . ionospheric electron density
. . . magnetospheric electron density
. . electron distribution
. . . electron density profiles
. . ion density (concentration)
. . . ionospheric ion density
. . . magnetospheric ion density
. . . magnetospheric proton density

... proton density (concentration)
..... magnetospheric proton density
... plasma density
RT atmospheric density
ESRO 4 satellite
ion stripping
ionospheric composition
space density
spatial distribution

particle detectors
USE **radiation counters**

particle diffusion
GS diffusion
.. **particle diffusion**
... electron diffusion
... ionic diffusion
RT atomic beams
Boltzmann transport equation
diffusion coefficient
diffusion length
drop size
flux (rate)
gaseous self-diffusion
molecular diffusion
muon spin rotation
self diffusion (solid state)
thermophoresis

particle emission
GS emission
.. **particle emission**
... electron emission
..... field emission
..... photoelectric emission
..... secondary emission
... ion emission
... neutron emission
... thermionic emission
RT exhaust emission
expulsion
self sustained emission
stimulated emission

particle energy
GS **particle energy**
.. electron energy
... **electron states**
.. proton energy
RT ∞ energy
internal energy
kinetic energy
monochromatization
∞ particle intensity

particle flux
USE **flux (rate)**

particle flux density
SN (LIMITED TO PARTICLE EMISSION OR DETECTION RATE PER UNIT AREA)
GS **rates (per time)**
.. flux density
... radiant flux density
..... **particle flux density**
..... electron flux density
..... neutron flux density
..... proton flux density
RT Helios satellites
∞ particle intensity
radiancy
radiation counters
radiation pressure
solar constant
solar flux density

particle image displacement velocimetry
USE **particle image velocimetry**

particle image velocimetry
(added June 1993)
UF *particle image displacement velocimetry*
PIDV (velocimetry)
PIV (velocimetry)
GS mechanical measurement
.. flow measurement
... **particle image velocimetry**
.. velocity measurement
... **particle image velocimetry**
RT flow distribution
flow velocity
flow visualization
imaging techniques
laser doppler velocimeters
photographic measurement
photographic recording
two phase flow

particle in cell technique
GS analysis (mathematics)
.. numerical analysis
... approximation
..... **particle in cell technique**
RT ∞ cells
crystal lattices
flow equations
∞ methodology
vortex in cell technique

∞ **particle intensity**
SN (USE OF A MORE SPECIFIC TERM IS RECOMMENDED—CONSULT THE TERMS LISTED BELOW)
RT particle energy
particle flux density

particle interactions
GS **particle interactions**
.. elementary particle interactions
... electroweak interactions (field theory)
... high energy interactions
..... strong interactions (field theory)
... meson-meson interactions
... meson-nucleon interactions
... nuclear capture
..... electron capture
... nucleon-nucleon interactions
... weak energy interactions
..... weak interactions (field theory)
.. ion atom interactions
.. molecular interactions
... molecular collisions
.. nuclear interactions
... nuclear capture
..... electron capture
... spin-orbit interactions
..... electron capture
... weak interactions (field theory)
.. plasma-particle interactions
.. wave-particle interactions
RT Bragg curve
charm (particle physics)
chemical reactions
collision parameters
electron phonon interactions
electron scattering
Feynman diagrams
flavor (particle physics)
∞ interactions
neutral currents
nuclear reactions
photonuclear reactions
photophoresis
quantum chromodynamics

particle ladon jets
DEF Fluid, mainly issuing from a nozzle, that are turbulent and contain dispersed particles.
RT fuel flow
jet flow
particles
turbulent flow

particle mass
GS mass
.. **particle mass**
... electron mass
RT gravitons
magnetic rigidity
nuclides

particle motion
RT diffraction radiation
electrophoresis
falling
lattice vibrations
magnetic rigidity
mean free path
∞ motion
neutral sheets
photophoresis
recoilings
relativistic velocity
settling
thermophoresis

particle precipitation
DEF The precipitation of particles other than electrons and protons.
GS **particle precipitation**
.. electron precipitation
.. proton precipitation
RT atomic structure
charged particles
∞ precipitation

particle production
GS **particle production**
.. kaon production
.. pair production
.. photoproduction
RT comminution
corpuscular radiation
high energy interactions
nuclear radiation
nuclear reactions
particles
radioactivity
spallation

particle size distribution
GS size distribution
.. **particle size distribution**
RT dimensions
drop size
fineness
fines
fractions
grain size
particles
particulates
precipitation particle measurement
size determination
size separation
solids flow
thermophoresis

particle spin
GS spin
.. **particle spin**
... electron spin
... isotopic spin

. . nuclear spin
RT angular momentum
ising model
muon spin rotation
nuclear magnetic resonance
nuclear physics
parity
quenching (atomic physics)
spin resonance

particle telescopes
UF electron telescopes
GEP telescopes
Goddard experiment package telescope
proton telescopes
GS measuring instruments
. counters
. . radiation counters
. . . **particle telescopes**
. radiation measuring instruments
. . radiation counters
. . . **particle telescopes**
. telescopes
. . **particle telescopes**
RT Geiger counters
satellite-borne instruments
scintillation counters

particle theory
RT body kinematics
charm (particle physics)
collision parameters
electroweak model
flavor (particle physics)
grand unified theory
Higgs bosons
. . interactions
many body problem
plasma-particle interactions
quark models
standard model (particle physics)
string theory
supergravity
supersymmetry
∞ theories
unified field theory
weak energy interactions

particle tracks
RT chemical analysis
core sampling
cosmic rays
fossils
geochronology
lunar rocks
meteoroids
nuclear particles
radiation effects
stratigraphy
trace elements
∞ tracks

particle trajectories
GS trajectories
. **particle trajectories**
. . electron trajectories
RT bubble chambers
charged particles
electron optics
ionizing radiation
∞ motion
∞ paths
racetracks (particle accelerators)
∞ tracks

particles
DEF Elementary subatomic particles such as protons, electrons or neutrons. Very small pieces of matter. In celestial mechanics, hypothetical entities which respond to gravitational forces but which exert no appreciable gravitational force on other bodies, thus simplifying orbital computations.
GS **particles**
. aerosols
. . fog
. charged particles
. . antiprotons
. . energetic particles
. . . electrons
. . . . conduction electrons
. . . . free electrons
. . . . high energy electrons
. . . . . relativistic electron beams
. . . . hot electrons
. . . . N electrons
. . . . negatrons
. . . . photoelectrons
. . . . pi-electrons
. . . . polarons
. . . . solar electrons
. . . nuclei (nuclear physics)
. . . . alpha particles
. . . . deuterons
. . . . even-even nuclei
. . . . heavy nuclei
. . . . hypernuclei
. . . . odd-even nuclei
. . . . odd-odd nuclei
. . . . tritons
. . plasmas (physics)
. . . argon plasma
. . . beta particles
. . . boundary layer plasmas
. . . cold plasmas
. . . collisional plasmas
. . . . strongly coupled plasmas
. . . collisionless plasmas
. . . cosmic plasma
. . . cylindrical plasmas
. . . dense plasmas
. . . . plasma focus
. . . . strongly coupled plasmas
. . . electron plasma
. . . electron-positron plasmas
. . . elliptical plasmas
. . . helium plasma
. . . high temperature plasmas
. . . hydrogen plasma
. . . . deuterium plasma
. . . laser plasmas
. . . metallic plasmas
. . . . cesium plasma
. . . . uranium plasmas
. . . microplasmas
. . . nitrogen plasma
. . . nonequilibrium plasmas
. . . nonuniform plasmas
. . . oxygen plasma
. . . rarefied plasmas
. . . relativistic plasmas
. . . rotating plasmas
. . . semiconductor plasmas
. . . space plasmas
. . . . solar wind
. . . . stellar winds
. . . spherical plasmas
. . . thermal plasmas
. . . toroidal plasmas
. . ionized gases
. . Lorentz gas

USE **components**

PAS
UF *perigee–apogee satellites*
GS artificial satellites
. **PAS**
RT elliptical orbits
twenty-four hour orbits

Pascal (programming language)
DEF High order computer programming language developed by Niklaus Wirth originally as an educational tool to foster structured programming
GS **languages**
. programming languages
. . **Pascal (programming language)**
RT compilers
computer programming

Paschen series
GS **spectra**
. radiation spectra
. . electromagnetic spectra
. . . line spectra
. . . . **Paschen series**
RT absorption spectra
atomic spectra
electron transitions
emission spectra
H lines
hydrogen

Pasiphae
(added January 1996)
DEF A natural satellite of Jupiter orbiting at a mean distance of 23,500,000 kilometers
GS celestial bodies
. natural satellites
. . Jupiter satellites
. . . **Pasiphae**
RT Jupiter (planet)

passageways
DEF A pass-through between non-adjacent modules or spaces
GS **passageways**
. straits
. . Torres Strait
. transfer tunnels
RT approach
cavities
corridors
gaps
notches
openings
∞ paths
roads
∞ tunnels

electrolysis
∞ inhibition
inhibitors
oxidation
oxidation resistance
rusting
siliconizing

paste (consistency)
DEF Mixtures with characteristic soft or plastic consistencies.
RT mixtures

pastes
DEF Adhesive compositions having a characteristic plastic-type consistency, that is, high order of yield values, such as that of pastes prepared by heating a mixture of starch and water and subsequently cooling the hydrolyzed product.
GS adhesives
. **pastes**
RT glues
plasters

pasteurizing
GS heating
. **pasteurizing**
RT purification
sterilization

patch antennas
(added June 1997)
GS antennas
. **patch antennas**
RT antenna arrays
antenna design
microstrip antennas
microwave antennas

patch tests

payload assist module
DEF Rocket vehicle with a spinning solid-propellant motor to attain injection velocity to place payload into intended orbits from the parking orbits of the STS.
GS modules
. **payload assist module**
rocket vehicles
. **payload assist module**
RT instrument packages
payloads
Space Shuttle payloads
space transportation system
spaceborne experiments

payload control
DEF Execution of events involved in operating the payload and supporting systems.
RT ∞ control
payloads
sounding rockets
space shuttles

payload delivery (STS)
DEF The transport of payloads via the Space Transportation System including ground to Earth orbit delivery by the Space Shuttle and orbit to orbit delivery via orbit transfer vehicles.
GS delivery
. **payload delivery (STS)**
RT Advanced Launch System (STS)
electric power supplies
orbit insertion
orbit transfer vehicles
orbital launching
payloads
power modules (STS)
solar arrays
space transportation system

payload deployment & retrieval system
DEF System of mechanical and control devices, with associated data systems, for payload handling in space.
GS payload deployment & retrieval system
. remote manipulator system
RT manipulators
NASA programs
orbit transfer vehicles
payloads
remote handling
space shuttles
∞ systems

payload integration
RT mission planning
payload integration plan
payloads
Space Shuttle payloads

payload integration plan

RT girdles

penalties
GS law (jurisprudence)
. public law
. . **penalties**
RT air law
disciplining
judgments
legal liability
liabilities
prohibition
regulations

penalty function
DEF In mathematics, a function used in treating maxima and minima problems subject to restraints.
GS functions (mathematics)
. **penalty function**
RT constraints
∞ functions
maxima
minima
optimization

pencil beams
GS beams (radiation)
. **pencil beams**
RT antenna design
antenna radiation patterns
radar beams

pendulous gyroscopes
USE **gyroscopic pendulums**

pendulums
GS oscillators
. mechanical oscillators
. . **pendulums**
. . . gyroscopic pendulums
RT accelerometers
gravitation
momentum
oscillations
timing devices

penetrants
RT∞ agents
preservatives
retardants

penetrating particles
USE **corpuscular radiation**

penetration
DEF The depths to which one material extends into or penetrates another.
RT diffusion
drilling
fragmentation
hydrodynamic ram effect
impact
nuclear vulnerability
percolation
perforating
permeability
permeating
piercing
∞ saturation
seepage
terminal ballistics
terrain following
vulnerability

penetration ballistics
USE **terminal ballistics**

penetrometers
DEF Simple devices for measuring the penetrating power of a beam of x rays or other penetrating radiation by comparing transmission through various absorbers.
GS measuring instruments
. **penetrometers**
RT lunar soil

penicillin
GS drugs
. antibiotics
. . **penicillin**

Peninsular Ranges (CA)
GS landforms
. mountains
. . **Peninsular Ranges (CA)**
RT California

peninsulas
DEF Elongated bodies or stretches of land nearly surrounded by water and connected with a larger land area, usually by a neck or an isthmus. The term is derived from the Latin 'paeninsula' 'almost island.'
GS landforms
. **peninsulas**
. . Delmarva Peninsula (DE–MD–VA)
RT isthmuses
land
water

Penning discharge
DEF A direct current discharge where electrons are forced to oscillate between two opposed cathodes and are restrained from going to the surrounding anode by the presence of a magnetic field.
GS electric current
. electric discharges
. . **Penning discharge**
RT electrodeless discharges
gas ionization
ion motion
plasma generators

Penning effect
DEF An increase in the effective ionization rate of a gas due to the presence of a small number of foreign metastable atoms.
RT∞ effects
gas ionization
laser cooling
metastable atoms

Penning gages
GS measuring instruments
. pressure gages
. . vacuum gages
. . . ionization gages
. . . . **Penning gages**
vacuum apparatus
. vacuum gages
. . ionization gages
. . . **Penning gages**

photons

photons
DEF According to the quantum theory of radiation, the elementary quantities of radiant energy. They are regarded as discrete quantities having a momentum equal to $h\nu/c$, where h is the Planck constant, ν is the frequency of the radiation, and c is the speed of light in a vacuum. Photons are never at rest, have no electric charges and no magnetic moments, but they have spin moments. The energy of a photon (the unit quantum of energy) is equal to $h\nu$.

Pioneer Venus 2 spacecraft
DEF This multiprobe spacecraft, launched on its Venus mission in August 1978, comprises a Transporter Bus, a sounder probe, and three identical probes (North, night, and day) which separately investigated and photographed the atmosphere, clouds and related phenomena. The multiprobe spacecraft traveled about 354 million kilometers. It entered Venus atmosphere on December 9, 1978 and all probes transmitted data. Used for Pioneer Venus 2 Multiprobe spacecraft.

planetary geology
planetary meteorology
planetary rotation
planetary structure
Saturn rings
terrestrial planets

planets
DEF Celestial bodies of the solar system, revolving around the sun in nearly circular orbits, or similar bodies revolving around stars. The larger of such bodies are sometimes called principal planets to distinguish them from asteroids, planetoids, or minor planets, which are comparatively small. The larger planets are accompanied by satellites such as the moon. Inferior planets have orbits smaller than that of the Earth; superior planets have orbits larger than that of the Earth. The four planets nearest the sun are called inner planets; the others, outer planets. The four largest planets are called major planets. The four planets commonly used for celestial observations are called navigational planets. The word planet is of Greek origin, meaning, literally, wanderer, applied because the planets appear to move relative to the stars.
GS celestial bodies
. planets
. . extrasolar planets
. . gas giant planets
. . . Jupiter (planet)
. . . Neptune (planet)
. . . Saturn (planet)

plasmas (physics)
SN (LIMITED TO COMPLETELY IONIZED MATTER; FOR PARTIALLY IONIZED GASES SEE IONIZED GASES)
DEF Electrically conductive gases comprised of neutral particles, ionized particles, and free electrons but which, taken as a whole, are electrically neutral. Plasmas are further characterized by relatively large intermolecular distances, large amounts of energy stored in the internal energy levels of the particles, and the presence of plasma sheaths at all boundaries of the plasma. Plasmas are sometimes referred to as a fourth state of matter. Used for electrostatic plasma, ionized plasma, magnetoionic plasma, magnetoplasmas, and plasmoids.

∞ theories

plateaus
DEF Broadly, and comparatively flat areas of great extent and elevation; specifically, extensive land regions considerably elevated (more than 150–300 meters in altitude) above the adjacent country or above sea level. They are commonly limited on at least one side by an abrupt descent, have a flat or nearly smooth surface but are often dissected by deep valleys and surmounted by high hills or high mountains, and have a large part of their total surface at or near the summit level. Plateaus are usually higher and have more noticeable relief than plains (they often represent elevated plains), and are usually higher and more extensive than mesas. They may be tectonic, residual, or volcanic in origin.
GS landforms
. terraces (landforms)
. . plateaus
. . . Alleghany Plateau (US)

polarization (charge separation)
polarization (spin alignment)
quadrupoles

∞ **polarization**
SN (USE OF A MORE SPECIFIC TERM IS RECOMMENDED—CONSULT THE TERMS LISTED BELOW)
DEF The state of electromagnetic radiation when transverse vibrations take place in some regular manner, e.g., all in one plane, in a circle, in an ellipse, or in some other definite curve. With respect to particles in an electric field, the displacement of the charge centers within a particle in response to the electric force acting thereon. The response of the molecules of a paramagnetic medium (such as iron) when subjected to a magnetic field.

linear equations
nonlinear equations
quadratic equations
roots of equations
shape functions

polynuclear organic compounds
DEF Hydrocarbon molecules with two or more nuclei and with or without oxygen, nitrogen, or other elements.
GS organic compounds
. polynuclear organic compounds
RT air pollution
∞ chemical compounds
petroleum products
purification

polynucleotides
DEF Linear sequences of esters of nucleotides and phosphoric acid.
GS organic compounds
. nucleotides
. . polynucleotides
phosphorus compounds
. phosphates
. . polynucleotides
RT biopolymers
proteins
ribonucleic acids

polyorganosiloxanes
USE polysiloxanes

Polyot satellites
GS artificial satellites
. Polyot satellites

polypeptides
DEF In organic chemistry, chains of amino acids linked by peptide bonds but with lower molecular weights than proteins; obtained by synthesis or by partial hydrolysis of proteins.
GS organic compounds
. peptides
. . polypeptides
. . . glutathione
. . . hypertensin
RT amino acids
biopolymers
proteins

polyphenyl ether
GS ethers
. polyphenyl ether

polyphenyls
GS phenyls
. polyphenyls
. . tetraphenyls
. . triphenyls

polypropylene
GS plastics
. polypropylene
RT addition resins
synthetic resins

polypyrroles
(added August 1994)
UF *PPY*

low density materials
∞ materials
metal powder
porosity
powder metallurgy
sands
soils
sponges (materials)
xerogels

porous plates
GS structural members
. plates (structural members)
. . porous plates
RT low density materials
porosity

porous silicon
(added September 1995)
GS chemical elements
. metalloids
. . silicon
. . . porous silicon
porous materials
. porous silicon
RT cathodoluminescence
conduction bands
electroluminescence
light sources
photoluminescence
porosity

porous walls
GS walls
. porous walls
RT ∞ diffusers

porphines
GS organometallic compounds
. porphines
RT chlorophylls
hemoglobin

porphyra
GS plants (botany)
. algae
. . porphyra

porphyrins
GS porphyrins
. chlorophylls
RT hemoglobin

porpoises
GS animals
. vertebrates
. . mammals
. . . marine mammals
. . . . porpoises

portable equipment
RT ∞ equipment
kidscopes
logistics
mobility
stowage (onboard equipment)

portable life support systems
UF *PLSS*
GS support systems
. life support systems
. . portable life support systems
. . . AEPS
. . . IMLSS
RT argon–oxygen atmospheres
biopaks
breathing apparatus
emergency life sustaining systems
helium–oxygen atmospheres
oxygen masks
pressure suits
∞ systems

Portevin-le Chatelier effect
(added August 1997)
DEF A discontinuous yielding in crystalline solids characterized by a serrated or step-like deformation curve.
UF *PLC effect*
RT crystal dislocations
deformation
∞ effects
strain rate
stress–strain diagrams
stress–strain relationships

∞ **ports**
SN (USE OF A MORE SPECIFIC TERM IS RECOMMENDED—CONSULT THE TERMS LISTED BELOW)

holders
jacks (lifts)
∞ machinery
slewing

positive feedback
DEF Feedback which results in increasing the amplification. Used for regenerative feedback.
UF *regenerative feedback*
GS feedback
. positive feedback
RT amplification
feedback amplifiers
multivibrators
nonlinear feedback
oscillators
regeneration (engineering)
self oscillation
transfer functions

positive ions
DEF Group of atoms which has acquired a positive electric charge by the loss of one or more electrons.
GS ions
. positive ions
. . cations
. . . formyl ions
. . . vanadyl radical
. . hydronium ions
RT atoms
hydrogen ions
ion density (concentration)
ionic mobility
ionospheric ion density
magnetospheric ion density
metal ions
molecular ions
monatomic molecules
polyatomic molecules
protons
trivalent ions
valence

positron annihilation
UF *electron-positron annihilation*
GS annihilation reactions
. positron annihilation
RT antiparticles
electron-positron pairs
elementary particles
matter-antimatter propulsion
nuclear particles
pair production
particles

positronium
RT atoms
excitons

positrons
DEF Subatomic particles which are identical to electrons in atomic mass, theoretical rest mass, and energy, but opposite in sign.
GS antimatter
. antiparticles
. . positrons
particles
. charged particles
. . positrons
. elementary particles
. . antiparticles
. . . positrons
. . fermions
. . . leptons
. . . . positrons
. nuclear particles

. . . positrons
RT electron-positron pairs
electron-positron plasmas
pair production

post boost propulsion system
RT ascent trajectories
propulsion
propulsion system configurations
rocket engines
spacecraft propulsion
∞ systems
trajectory control

post-blast nuclear radiation
GS nuclear radiation
. post-blast nuclear radiation
RT fallout
half life
radiant flux density
∞ radiation
radiation effects
radioactive decay
radioactivity
Vela satellites

postamplifiers
GS amplifiers
. postamplifiers
RT preamplifiers

posterior sections
RT anatomy
dorsal sections

postflight analysis
RT ∞ analyzing
∞ performance
postmission analysis (spacecraft)

postlaunch reports
DEF Memoranda issued following spacecraft launchings to report launch data, the launch vehicle performance, orbital elements (expected and measured), and current status.
GS documents
. postlaunch reports
reports
. postlaunch reports
RT prelaunch summaries

spacecraft launching
spacecraft performance
summaries

postmission analysis (spacecraft)
DEF A broader term than postflight analysis which deals with the scientific aspects of a mission.
RT flight tests
postflight analysis

postulates
USE axioms

posture
RT human body
orthostatic tolerance
physical fitness

potable liquids
GS liquids
. potable liquids
. . beverages
. . . wines
. . potable water
RT purity

potable water
GS liquids
. potable liquids
. . potable water
water
. potable water
RT cold water
conservation
consumables (spacecrew supplies)
drought
fresh water
ground water
limnology
Modular Integrated Utility System
oases
purification
sanitation
springs (water)
water management
water resources
water tables
water treatment

potassium
GS chemical elements
. alkali metals
. . potassium
. . . liquid potassium
. . . potassium isotopes
. . . . potassium 38

metals
. alkali metals
. . potassium
. . . potassium isotopes
. . . . potassium 38
. . . . potassium 39
. . . . potassium 40

potassium nitrates
GS nitrogen compounds
. nitrates
. . inorganic nitrates

. . . potassium nitrates
potassium compounds
. potassium nitrates

potassium oxides
GS chalcogenides
. oxides
. . metal oxides
. . . potassium oxides
potassium compounds
. potassium oxides

potassium perchlorates
GS halogen compounds
. chlorine compounds
. . perchlorates
. . . potassium perchlorates
potassium compounds
. potassium perchlorates
RT explosives
solid rocket propellants

potassium peroxides
GS chalcogenides
. oxides
. . anhydrides
. . . peroxides
. . . . potassium peroxides
potassium compounds
. potassium peroxides

potassium phosphates
GS phosphorus compounds
. phosphates
. . potassium phosphates
potassium compounds
. potassium phosphates

potassium silicates
GS potassium compounds
. potassium silicates
silicon compounds
. silicates
. . potassium silicates
RT minerals

potatoes
GS farm crops
. potatoes
plants (botany)
. potatoes
vegetables
. potatoes
RT ∞ food

∞ **potential**
SN (USE OF A MORE SPECIFIC TERM IS RECOMMENDED—CONSULT THE TERMS LISTED BELOW)
RT Coulomb potential
electric potential
geopotential
ionization potentials
Klein–Dunham potential
myoelectric potentials
nucleon potential
open circuit voltage
plasma potentials
potential energy
potential fields
potential theory
Yukawa potential

potential energy
DEF Energy possessed by a body by virtue of its position in a gravity field in contrast with kinetic energy, that possessed by virtue of its motion.
GS potential energy
. electric potential
. . bioelectric potential
. . contact potentials
. . Coulomb potential
. . high voltages
. . Lienard potential
. . low voltage
. . open circuit voltage
. . photovoltages
. . quantum wells
. . . photoexcitation
. . spike potentials
. . threshold voltage
. geopotential height
. ionization potentials
. nuclear potential

RT chemical energy
electric energy storage
∞ energy
energy storage
Froude number
geopotential
internal energy
kinetic energy
Lagrangian function
Morse potential
∞ potential

potential fields
RT field theory (physics)
∞ potential

potential flow
UF *irrotational flow*
GS fluid flow
. potential flow
. . equipotentials
RT Cartan space
heat transmission
inviscid flow
vorticity

potential gradients
DEF In general, the local space rate of change of any potential, as the gravitational potential gradient or the velocity potential gradient.
GS gradients
. potential gradients
RT pressure gradients
spark gaps
temperature gradients

potential theory
RT differential equations
Jacobi integral
Lennard–Jones potential
∞ potential
stream functions (fluids)
∞ theories

∞ **potentiometers**
SN (USE OF A MORE SPECIFIC TERM IS RECOMMENDED—CONSULT THE TERMS LISTED BELOW)
DEF Instruments for measuring differences in electric potential by balancing the unknown voltage against a variable known voltage. If the balancing is accomplished automatically, the instrument is called a self-balancing potentiometer. A variable electric resistor.
RT potentiometers (instruments)
potentiometers (resistors)

potentiometers (instruments)
GS measuring instruments
. potentiometers (instruments)
RT bolometers
electric potential
electrical measurement
electrometers
∞ potentiometers
thermocouple pyrometers
thermocouples
voltmeters

potentiometers (resistors)
GS attenuators
. resistors
. . potentiometers (resistors)
RT ∞ potentiometers

potentiometric analysis
UF *potentiometry*
GS chemical tests
. chemical analysis
. . potentiometric analysis

potentiometry
USE **potentiometric analysis**

Potez aircraft
RT ∞ aircraft

Potomac River Valley (MD–VA–WV)
GS valleys
. Potomac River Valley (MD–VA–WV)
RT District of Columbia
§ Maryland
Virginia
West Virginia

potting compounds
RT ∞ compounds
encapsulating
insulation

pouring
RT casting
castings

powder (particles)
DEF An aggregate of discrete particles that are usually within the size range 1 to 1,000 mm.
GS particles
. powder (particles)
. . fines
. . metal powder
. . . platinum black
. . . powdered aluminum
. . . . sintered aluminum powder
RT compressibility
crop dusting
dust
explosives
flakes
flour (food)
granular materials
obsidian
pumice
size separation

powder metallurgy
DEF The art of producing metal powders and of the utilization of metal powders for the production of massive materials and shaped objects.
RT alloying
alloys
autoclaving
cermets
combustion synthesis
comminution
compacting
composite materials
electrodeposition
liquid phase sintering
low density materials

metal matrix composites
metal particles
metal powder
∞ metallurgy
mixed crystals
porous materials
preforms
reaction bonding
sintered aluminum powder
sintering
vacuum melting

powdered aluminum
GS particles
. metal particles
. . metal powder
. . . powdered aluminum
. . . . sintered aluminum powder
. powder (particles)
. . metal powder
. . . powdered aluminum
. . . . sintered aluminum powder
RT aluminum
lithium aluminum hydrides

powdered metals
USE **metal powder**

∞ **power**
SN (USE OF A MORE SPECIFIC TERM IS RECOMMENDED—CONSULT THE TERMS LISTED BELOW)
RT electric generators
fluid power
flux (rate)
flux density
horsepower
resolution
thrust

power amplifiers
GS amplifiers
. power amplifiers
RT amplidynes
cyclotron resonance devices
feedback amplifiers
magnetic amplifiers
parametric amplifiers
push–pull amplifiers
transistor amplifiers
traveling wave amplifiers

power beaming
(added November 1989)
UF *beamed power*
GS power beaming
. laser power beaming
. microwave power beaming
. satellite power transmission
RT energy conversion
laser propulsion
microwave transmission
∞ power transmission
solar power satellites
spacecraft power supplies

power conditioning
UF *power processing systems*
RT ∞ conditioning
electric current
electric generators
electric potential
energy conversion
energy conversion efficiency
output
satellite solar energy conversion
satellite solar power stations

power converters
RT ∞ converters
torque converters

power density (electromagnetic)
USE **radiant flux density**

power efficiency
GS efficiency
. power efficiency
RT combustion efficiency
compressor efficiency
horsepower
nozzle efficiency
power factor controllers
∞ power loss
propeller efficiency
propulsion system performance
propulsive efficiency
thermodynamic efficiency
transmission efficiency

power factor controllers
DEF A solid state electronic device that reduces excess energy waste in AC induction motors by providing only the amount of voltage required to satisfy a given load.
GS controllers
. power factor controllers
RT current regulators
electric motors
energy conservation
energy conversion efficiency
induction motors
power efficiency
voltage regulators

power gain
DEF The ratio of the power that a transducer delivers to a specified load, under specified operating conditions, to the power absorbed by its input circuit. Of an antenna, in a given direction, 4 pi times the ratio of the radiation intensity in that direction to the total power delivered to the antenna.
GS amplification
. power gain
RT CATT devices
high gain
open circuit voltage

power generators
USE **electric generators**

power law bodies
(added May 1995)
GS symmetrical bodies
. axisymmetric bodies
. . power law bodies
. bodies of revolution
. . power law bodies
RT blunt bodies
slender bodies

power limited spacecraft
RT ∞ spacecraft

power limiters
RT attenuators
clamping circuits
clipper circuits
limiter circuits

power lines
GS transmission lines
. power lines
RT bus conductors
∞ cables
coaxial cables
electric power transmission
electric wire
submarine cables
superconducting power transmission
underground transmission lines

∞ **power loss**
SN (USE OF A MORE SPECIFIC TERM IS RECOMMENDED—CONSULT THE TERMS LISTED BELOW)
RT energy dissipation
power efficiency

power modules (STS)
DEF Modules for providing power for payloads for STS and mission dependent equipment.
GS modules
. power modules (STS)
RT orbital maneuvering vehicles
payload delivery (STS)
solar arrays
space transportation system
spacecraft power supplies

∞ **power plants**
SN (USE OF A MORE SPECIFIC TERM IS RECOMMENDED—CONSULT THE TERMS LISTED BELOW)
RT cogeneration
electric power plants
engines
Enrico Fermi atomic power plant
geothermal energy utilization
Hallam Nuclear Power Facility
hydroelectric power stations
hydroelectricity
ML–1 nuclear power plant
solar sea power plants
solar thermal electric power plants

power processing systems
USE **power conditioning**

power reactors
RT nuclear power reactors
∞ reactors
saturable reactors

power series
GS analysis (mathematics)

hydroelectric power stations
mechanical drives
power beaming
windmills (windpowered machines)

power transmission (lasers)
USE **laser power beaming**

power transmission (microwave)
USE **microwave power beaming**

powered lift aircraft
RT∞ aircraft
externally blown flaps
short takeoff aircraft
STOVL aircraft
vertical takeoff aircraft

powered models
SN (LIMITED TO TEST FACILITIES)
DEF Models that can be tested in complete force equilibrium, including propulsion.
GS models
. wind tunnel models
. . powered models
RT aircraft models
dynamic models

Poynting theorem
GS theorems
. Poynting theorem
RT∞ electric power
electromagnetic radiation
energy transfer
Maxwell equation
vector analysis

Poynting–Robertson effect
DEF The gradual decrease in orbital velocity of a small particle such as a micrometeorite in orbit about the sun due to the absorption and remission of radiant energy by the particle.
RT∞ effects
micrometeoroids
orbital mechanics
radiation effects
zodiacal dust
zodiacal light

PPI (position indicators)
USE **plan position indicators**

PPM (modulation)
USE **pulse position modulation**

PPY
USE **polypyrroles**

practices

Falkner–Skan equation
flow deflection
laminar flow
method of characteristics
Newton pressure law
supersonic flow
two dimensional flow

praseodymium
GS chemical elements
. rare earth elements
. . praseodymium
. . . praseodymium isotopes
metals
. rare earth elements
. . praseodymium
. . . praseodymium isotopes
RT didymium
praseodymium compounds

praseodymium 144
USE **praseodymium isotopes**

praseodymium compounds
(added August 1990)
GS rare earth compounds
. praseodymium compounds
RT∞ chemical compounds
∞ metal compounds
praseodymium

praseodymium isotopes
UF *praseodymium 144*
GS chemical elements
. nuclides
. . isotopes
. . . praseodymium isotopes
. rare earth elements
. . praseodymium
. . . praseodymium isotopes
metals
. rare earth elements
. . praseodymium
. . . praseodymium isotopes

pre-Imbrian period
DEF One of four stratigraphic classifications adopted for displaying (on maps) the geological ages of major features on the moon.
RT lunar composition
lunar craters
lunar evolution
lunar geology
lunar rocks

pre-main sequence stars
DEF Stars in which nuclear reactions that take place in its core have not yet occurred.
GS celestial bodies
. stars
. . protostars
. . . pre-main sequence stars
. . . . T Tauri stars
RT main sequence stars
star formation
stellar evolution

preamplifiers
DEF Amplifiers, the primary function of which is to raise the output of a low level source to an intermediate level so that the signal may be further processed without appreciable degradation in the signal-to-noise ratio. In radar amplifiers separated from the remainder of the receiver and located so as to provide the shortest possible input circuit path from the antenna so as to avoid deterioration of the signal-to-noise ratio. Used for preselectors.
UF *preselectors*
GS amplifiers
. preamplifiers
RT intermediate frequency amplifiers
low noise
mixing circuits
postamplifiers
signal detection
signal detectors
signal reception
transistor amplifiers
voltage amplifiers

prebumers
GS pressure vessels

. preburners
RT pumps
turbine pumps

Precambrian period
RT Baltic Shield (Europe)
Cambrian Period
Canadian Shield
geology
paleontology
Paleozoic Era

precautions
USE accident prevention

precession
DEF Change in the direction of the axis of rotation of a spinning body, as a gyro, when acted upon by a torque.
GS gyration
. precession
. . Larmor precession
. . proton precession
. . quenching (atomic physics)
RT coning motion
Earth orientation
gyroscopes
gyroscopic stability
Larmor radius
libration
muon spin rotation
nutation
polar wandering (geology)

precious metals
USE noble metals

precipitates
SN (EXCLUDES METEOROLOGICAL PRECIPITATES)
RT alloys
grain boundaries
microstructure
precipitation (chemistry)
precipitation hardening
reaction products

∞ **precipitation**
SN (USE OF A MORE SPECIFIC TERM IS RECOMMENDED—CONSULT THE TERM LISTED BELOW)
RT drop size
electron precipitation
falling
hydrometallurgy
materials recovery
particle precipitation
precipitation (chemistry)
precipitation (meteorology)
proton precipitation

precipitation (chemistry)
DEF The separation of a new phase from solid or liquid solution, usually with changing conditions of temperature or pressure or both.
RT agglomeration
cementation
∞ chemistry
coagulation
colloiding
concentrating
crystallization
deposition
dissolving
filtration
flocculating
hydrometallurgy
materials recovery
Ostwald ripening
precipitates
∞ precipitation
precipitators
∞ saturation
saturation (chemistry)
∞ separation
settling
solubility
supersaturation
unsaturation (chemistry)

precipitation (meteorology)
DEF The precipitation of water from the atmosphere in the form of hail, mist, rain, sleet, and snow. Deposits of dew, fog, and frost are excluded.
GS precipitation (meteorology)
. graupel
. hail
. rain
. . acid rain
. snow
. snow cover
RT Alpine meteorology
anvil clouds
atmospheric moisture

RT cold hardening
eutectic composites
heat treatment
precipitates
solid solutions
strain hardening
supersaturation
time temperature parameter

precipitation particle measurement
GS size determination
. precipitation particle measurement
RT drop size
meteorological radar
particle size distribution
particles

precipitators
GS separators
. precipitators
. . electrostatic precipitators
RT air filters
concentrators
dust collectors
precipitation (chemistry)
thickeners (equipment)

precision
DEF The quality of being exactly or sharply defined or stated. A measure of the precision of a representation is the number of distinguishable alternatives from which it was selected, which is sometimes indicated by the number of significant digits it contains. Used for exactness.
UF exactness
RT accuracy
allowances
confidence limits
consistency
definition
dynamic characteristics
errors
geometric dilution of precision
high resolution
hysteresis
quality
quality control
reliability
resolution
schedules
sensitivity
∞ sharpness
tolerances (mechanics)
truncation errors
validity

precision guided projectiles
DEF Missiles guided by precise laser radiation.
GS missiles
. precision guided projectiles
projectiles
. precision guided projectiles
weapons
. guns (ordnance)
. . artillery
. . . precision guided projectiles
. warheads
. . precision guided projectiles
RT ∞ bombs

terminal ballistics

preconditioning
GS preparation

preparation

premixed flames
GS flames
. premixed flames
RT carburetors
flame propagation
gas mixtures
mixing
premixing
reacting flow
turbulent combustion
turbulent flames

premixing
DEF The mixing of ingredients prior to a specified action (mixing of fuel and air prior to ignition in combustion, for example).
GS mixing
. premixing
RT fuel-air ratio
fuels
gas mixtures
homogenizing
ignition
jet mixing flow
premixed flames
spraying

preparation
GS preparation
. preconditioning
. pretreatment
. . prestressing
. prewhirling
. prewhitening
RT assembling

premature operation
∞ priming

prepolymers
DEF Polymers of degrees of polymerization between that of the monomer or monomers, and the final polymer.
GS prepolymers
. dimers
. trimers
RT monomers
∞ polymers

prepregs
DEF The reinforcing materials containing or combined with the full complement of resin before molding operations in the production of composite materials.
RT composite materials
epoxy resins
functionally gradient materials
laminates
resin matrix composites

preprocessing
RT data processing
data reduction
image processing

presbyopia
RT vision

preselectors
USE preamplifiers

presentation
RT information

preservatives
RT additives
∞ agents
anticoagulants

velocity
velocity measurement
Venturi tubes
weight indicators
wind tunnel calibration
wind tunnel tests

pressure modulator radiometers
DEF A cell containing a known quantity of a gas is placed in the single optical path of the radiometer and subjected to cyclical pressure changes which alter the absorption lines in the infrared spectrum of the gas. A narrow band signal results from the different voltages at the detector at high and low cell pressures. A wideband signal is generated by physically chopping a percentage of the input beam with a rotating chopper blade.
GS measuring instruments
. radiation measuring instruments
. . actinometers
. . . radiometers
. . . . pressure modulator radiometers
RT infrared radiometers
pressure

pressure oscillations
GS oscillations
. pressure oscillations
RT acoustic frequencies
combustion stability
flame propagation
pressure
∞ pressure drop
Southern oscillation
turbulent flow

pressure probes
USE pressure sensors

pressure pulses
GS pulses
. pressure pulses
RT blast loads
flame propagation
pressure
shock waves

pressure ratio
DEF The relationship of a force to the deformation of a system whose deformation varies in some proportion to the force.
GS ratios
. pressure ratio
RT fuel-air ratio
lift drag ratio
mass ratios
payload mass ratio
pressure
propellant mass ratio
stress ratio
thrust-weight ratio

pressure recorders
GS recording instruments

propellants
DEF Any agents used for consumption or combustion in rockets and from which the rockets derive their thrust, such as fuels, oxidizers, additives, catalysts, or any compounds or mixture of these; specifically, fuels, oxidants, or a combination or mixture of fuels and oxidants used in propelling rockets. Propellants are commonly in either liquid or solid form.

proton–proton reactions
DEF Thermonuclear reactions in which two protons collide at very high velocities and combine to form deuterons. The resultant deuterons may capture other protons to form tritium and the latter may undergo proton capture to form helium. The proton–proton reactions are now believed to be the principal sources of energy within the sun and other stars of its class. A temperature of 5 million degrees Kelvin and high hydrogen (proton) concentrations are required for these reactions to proceed at rates compatible with energy emission by such stars.
GS nuclear reactions
. proton–proton reactions
RT annihilation reactions

supernova remnants

pulsating flow
USE **unsteady flow**

pulse (cardiovascular)
USE **heart rate**

pulse amplitude
DEF A general term indicating the magnitude of a pulse. Used for pulse height.
UF *pulse height*
GS amplitudes
. pulse amplitude waveforms
. pulse amplitude
RT amplitude distribution analysis
electric pulses
photopeak
pulsed radiation
sawtooth waveforms
square waves

pulse amplitude modulation
UF *PAM (modulation)*
GS coding
. signal encoding
. . pulse modulation
. . . pulse amplitude modulation
modulation
. pulse modulation
. . pulse amplitude modulation
RT modems
P.A.C.M. telemetry

pulse charging
DEF Rapid and efficient method for charging electric batteries.
RT battery chargers
electric batteries
electric charge
storage batteries

pulse code modulation
DEF Any modulation which involves a pulse code. Used for PCM (modulation).
UF *PCM (modulation)*
GS coding
. signal encoding
. . pulse modulation
. . . pulse code modulation
. . . . delta modulation
. . . . differential pulse code modulation
modulation
. pulse modulation
. . pulse code modulation
. . . delta modulation
. . . differential pulse code modulation
RT bilevary code
decommutators
P.A.C.M. telemetry
PCM telemetry
unified S band

pulse communication
UF *digital communication*
GS telecommunication
. pulse communication
. . digital spacecraft television
RT bit error rate
communication networks
data transmission
delta modulation
differential pulse code modulation
digital television
electromagnetic missiles
electromagnetic pulses
frequency division multiplexing
modems
multiple access
multiplexing
orthogonal multiplexing theory
radio communication
radio transmission
satellite transmission
signal transmission
space communication
telegraph systems
telemetry
time division multiple access

pulse compression
DEF The coding and processing of a signal pulse of long time duration to one of short time duration and high range resolution, while maintaining the benefits of high pulse energy.
RT coding
compressing
radar

pulse diffraction
GS diffraction
. pulse diffraction
RT holographic optical elements
plasma jets
pulsed radiation
wave propagation

pulse Doppler radar
DEF A pulse radar system which utilizes the Doppler effect for obtaining information about the target (not including simple resolution from fixed targets).
GS radar
. Doppler radar
. . pulse Doppler radar
. . . monopulse radar
. . . Shuttle Imaging Radar
. pulse radar
. . pulse Doppler radar
. . . monopulse radar
. . . Shuttle Imaging Radar
RT cancellation circuits
coherent radar

pulse duration
DEF The time interval between the first and last instances at which the instantaneous amplitude reaches a stated fraction of the peak pulse amplitude. Used for light duration and pulse width.
UF *light duration*
pulse width
GS waveforms
. pulse duration
RT electric pulses
laser outputs
maser outputs
pulse repetition rate
pulsed radiation
sawtooth waveforms
square waves
time signals
ultrashort pulsed lasers

pulse duration modulation
DEF A form of pulse time modulation in which the duration of a pulse is varied. Used for PDM (modulation), pulse width modulation, and PWM (modulation).
UF *PDM (modulation)*
pulse width modulation
PWM (modulation)
GS coding
. signal encoding
. . pulse modulation
. . . pulse time modulation
. . . . pulse duration modulation
modulation
. pulse modulation
. . pulse time modulation
. . . pulse duration modulation
RT modems

pulse frequency modulation
DEF A form of pulse time modulation in which the pulse repetition rate is the characteristic varied. Used for PFM (modulation).
UF *PFM (modulation)*
GS coding
. signal encoding
. . frequency modulation
. . . pulse frequency modulation
. . pulse modulation
. . . pulse frequency modulation
modulation
. frequency modulation
. . pulse frequency modulation
. pulse modulation
. . pulse frequency modulation
RT communication equipment
differential pulse code modulation
modems

pulse frequency modulation telemetry
GS telecommunication
. radio communication
. . radio telemetry
. . . pulse frequency modulation telemetry
. telemetry
. . radio telemetry
. . . pulse frequency modulation telemetry
transmission
. signal transmission
. . telemetry
. . . radio telemetry
. . . . pulse frequency modulation telemetry
RT communication equipment
frequency modulation
modulation
pulse modulation
radio transmission
signal encoding

pulse generators
RT computation
electric pulses
function generators
∞ generators
impulse generators
laser cavities
lasers
plasma generators
pulse repetition rate
pulsed radiation
shock wave generators

pulse heating
GS hardening (materials)
. pulse heating
heat treatment
. annealing
. . pulse heating
heating
. transient heating
. . pulse heating
RT laser heating
simulated annealing

pulse height
USE pulse amplitude

pulse modulation
DEF Modulation of a carrier by a pulse train. Modulation of one or more characteristics of a pulse carrier.
GS coding
. signal encoding
. . pulse modulation
. . . pulse amplitude modulation
. . . pulse code modulation
. . . . delta modulation
. . . . differential pulse code modulation
. . . pulse frequency modulation
. . . pulse time modulation
. . . . pulse duration modulation
. . . . pulse position modulation
modulation
. pulse modulation
. . pulse amplitude modulation
. . pulse code modulation
. . . delta modulation
. . . differential pulse code modulation
. . pulse frequency modulation
. . pulse time modulation
. . . pulse duration modulation
. . . pulse position modulation
RT amplitude modulation
demodulation
demodulators
electric pulses
electromagnetic missiles
electromagnetic pulses
frequency modulation
light modulation
modems
modulators
phase modulation
pulse frequency modulation telemetry
pulsed radiation
radio telemetry
time division multiplexing
trigatrons

pulse position modulation
DEF A form of pulse time modulation in which the position in time of a pulse is varied. Also called pulse phase modulation. Used for PPM (modulation).
UF *PPM (modulation)*
GS coding
. signal encoding
. . pulse modulation
. . . pulse time modulation
. . . . pulse position modulation
modulation
. pulse modulation
. . pulse time modulation
. . . pulse position modulation
RT modems

pulse radar
DEF A type of radar, designed to facilitate range measurement, in which the transmitted energy is emitted in periodic short pulses.
GS radar
. pulse radar
. . pulse Doppler radar
. . . monopulse radar
. . . Shuttle Imaging Radar
RT coherent radar
continuous wave radar
Doppler radar
echo suppressors
electromagnetic pulses
meteorological radar
multistatic radar
polystation doppler tracking system
search radar
surveillance radar
synchronizers
tracking radar

pulse rate
SN (FOR CARDIOVASCULAR PULSE, USE HEART RATE)
UF *chronotrons*
GS rates (per time)
. pulse rate
. . pulse repetition rate
RT electric pulses
picosecond pulses
pulsed radiation

pulse recorders
USE counters

pulse repetition rate
GS rates (per time)
. pulse rate
. . pulse repetition rate
RT frequency response
optical pumping
pulse duration
pulse generators
pulsed lasers

pulse time modulation
DEF Modulation in which the values of instantaneous samples of the modulating wave are caused to modulate the time of occurrence of some characteristic of a pulse carrier. Used for PTM (modulation).
UF *PTM (modulation)*
GS coding
. signal encoding
. . pulse modulation
. . . pulse time modulation
. . . . pulse duration modulation
. . . . pulse position modulation
modulation
. pulse modulation
. . pulse time modulation
. . . pulse duration modulation
. . . pulse position modulation

pulse width
USE pulse duration

pulse width amplitude converters
RT ∞ converters
frequency converters

pulse width modulation
USE pulse duration modulation

pulsed jet engines
GS engines
. pulsed jet engines
RT electric rocket engines
electrothermal engines
plasma engines
resistojet engines

pulsed laser deposition
(added December 1992)
GS deposition
. laser deposition
. . pulsed laser deposition
utilization
. laser applications
. . laser deposition
. . . pulsed laser deposition
RT crystal growth
epitaxy
excimer lasers
laser heating
pulsed lasers
superconducting films
vapor deposition

pulsed lasers
GS stimulated emission devices
. lasers
. . pulsed lasers
. . . Q switched lasers
. . . ultrashort pulsed lasers
. . . ultraviolet lasers
RT argon lasers
carbon dioxide lasers
gas lasers
glass lasers
inertial fusion (reactor)
laser heating
laser target interactions
laser welding
nitrogen lasers
pulse repetition rate
pulsed laser deposition
ruby lasers
semiconductor lasers
TEA lasers
tube lasers
waveguide lasers

pulsed radiation
GS pulsed radiation
. electromagnetic pulses
. . system generated electromagnetic pulses
RT continuous radiation
corpuscular radiation
elastic waves
electromagnetic radiation
gamma ray lasers
laser damage
lasers
picosecond pulses
pulse amplitude
pulse diffraction
pulse duration
pulse generators
pulse modulation
pulse rate
∞ radiation
∞ rays

pulsejet engines
DEF Compressorless jet engines in which combustion takes place intermittently producing thrust by a series of explosions, commonly occurring at the approximate resonance frequency of the engine.
GS engines
. air breathing engines
. . gas turbine engines
. . . jet engines
. . . . ramjet engines
. . . . . pulsejet engines
. internal combustion engines
. . gas turbine engines
. . . jet engines
. . . . ramjet engines
. . . . . pulsejet engines
. turbine engines
. . gas turbine engines
. . . jet engines
. . . . ramjet engines
. . . . . pulsejet engines
RT detonation
firing (ignition)
V-1 missile

pulses
DEF Short-wave trains of mechanical vibration.
GS pulses
. electric pulses
. electromagnetic pulses
. . system generated electromagnetic pulses
. geomagnetic pulsations
. . geomagnetic micropulsations
. micropulsations
. . geomagnetic micropulsations
. picosecond pulses
. pressure pulses
RT amplitudes
intermittency
solitary waves

pultrusion
DEF Process of pulling continuous lengths of resin impregnated fiber through a shaped, heated die to produce lengths of reinforced plastic.
GS forming techniques
. extruding
. . pultrusion
RT casting
composite structures
dies
epoxy matrix composites
fiber composites
glass fiber reinforced plastics
hot working
polymer matrix composites
preimpregnation
pressing (forming)
resin matrix composites

pulverizing
USE grinding (comminution)

pumice
DEF A light-colored, vesicular, glassy rock commonly having the composition of a rhyolite.
GS rocks
. igneous rocks
. . pumice
RT abrasives
obsidian
powder (particles)
soils

pump impellers
GS rotating bodies
. rotors
. . impellers
. . . pump impellers
RT centrifugal compressors
centrifugal pumps

pump seals
GS seals (stoppers)
. pump seals
RT gaskets
∞ glands
glands (seals)
hermetic seals
labyrinth seals
molecular pumps

∞ **pumping**
SN (USE OF A MORE SPECIFIC TERM IS RECOMMENDED—CONSULT THE TERMS LISTED BELOW)
RT blowing
compressed air
compressing
cryopumping
drainage
electron pumping
jet pumps
laser pumping
magnetic pumping
maser pumping
materials handling
nuclear pumping
optical pumping
plasma pumping
pumps
purging
windmills (windpowered machines)
windpowered pumps

pumps
SN (LIMITED TO PUMPS FOR MATERIALS—EXCLUDES HEAT PUMPS)
UF *hydraulic pumps*
GS pumps
. axial flow pumps
. . turbine pumps
. blood pumps
. centrifugal pumps
. diffusion pumps
. electromagnetic pumps
. fuel pumps
. jet pumps
. rams (pumps)
. vacuum pumps
. . condensation pumps
. . ion pumps
. . molecular pumps
. viscopumps
. windpowered pumps
RT bellows
centrifugal compressors
ejectors
feed systems
heat pumps
hydraulic equipment
impellers
injectors
lubrication systems
materials handling
packings (seals)
pipelines
preburners
∞ pumping
siphons
stators
turbomachinery
vaneless diffusers

punched cards
DEF Cards on which a pattern of holes or cuts is used to represent data.
GS cards
. punched cards
RT computer storage devices
data recorders
data recording
data storage
readers

punched tapes
DEF Tapes on which a pattern of holes or cuts is used to represent data.
RT automatic typewriters
computer storage devices
data recording
magnetic tapes
readers
∞ tapes

punches
RT dies
machine tools
molds
platens
presses
stamping

puncturing
USE piercing

pupa
RT insects
larvae

pupil size
RT pupillometry

pupillometry
RT biometrics
dark adaptation
light adaptation
∞ measurement
pupil size

pupils
GS anatomy
. sense organs
. . eye (anatomy)
. . . pupils
RT vision

purging
RT circulation
cleaning
decontamination
degassing
distillation
evacuating (vacuum)
flushing
outgassing
∞ pumping
purification
refining
∞ separation
venting

purification
UF purifiers
GS purification
. air purification
RT aeration
antiseptics
borehole
chemical sterilization
cleaning
crystallization
decontamination
dechlorinating
disinfection
dissipation
distillation
elimination
elution
enrichment
fluxing
getters
pasteurizing
polynuclear organic compounds
potable water

reduction (chemistry)
refining
scavenging
∞ separation
sewage treatment
solvent extraction
spacecraft sterilization
sterilization
sublimation
ultrapure metals
upgrading
washing
water treatment
zone melting

purifiers
USE purification

purines
GS organic compounds
. cyclic compounds
. . heterocyclic compounds
. . . purines
. . . . adenines
. . . . xanthines
. . . . . caffeine
. . . . . guanines
. . . . . uric acid

purity
RT clarity
concentration (composition)
contaminants
contamination
decontamination
dilution
fineness
pollution
potable liquids
purification
quality
trace contaminants
ultrapure metals
water pollution

purposes
RT goals

pursuit tracking
GS tracking (position)
. pursuit tracking
RT infrared tracking
radar tracking
satellite interceptors

push-pull amplifiers
DEF Amplifiers in which there are two identical signal branch circuits so as to operate in phase opposition and with input and output connections each balanced to ground. Used for balanced amplifiers.
UF *balanced amplifiers*
GS amplifiers
. push-pull amplifiers
RT phase modulation
power amplifiers

pushbroom sensor modes
DEF Spacecraft instrument arrangements in which large numbers of detectors comprising linear arrays are swept by the forward motion of the spacecraft to obtain increased fidelity and high sensitivity in the data captured.
GS modes
. pushbroom sensor modes
RT arrays
electro-optics
image processing
linear arrays
photodiodes

pushing
RT∞ force
propulsion

PWM (modulation)
USE pulse duration modulation

pycnometers
RT density (mass/volume)

pylon mounting
RT aerodynamic configurations
aircraft structures
columns (supports)
rigid mounting
structural members
supports
wind tunnel models

pylons
GS supports
. pylons
RT columns (supports)
structural members
struts
towers

Pyramid Lake (NV)
GS lakes
. Pyramid Lake (NV)
RT Nevada
water management
water resources

pyramidal bodies
RT∞ bodies
pyramids
reentry vehicles

pyramids
GS geometry
. Euclidean geometry
. . polyhedrons
. . . pyramids
RT frustums
pyramidal bodies

pyranometers
DEF Actinometers which measure the combined intensity of incoming direct solar radiation and diffuse sky radiation. The pyranometers consist of a recorder and a radiation sensing element which is mounted so that it views the entire sky. Sometimes called solarimeters.
GS measuring instruments
. radiation measuring instruments
. . actinometers
. . . pyranometers
RT photometers
radiometers
sky radiation

pyrazines
DEF Compounds that contain a six-membered heterocyclic ring containing nitrogen atoms in the 1 and 4 positions.
GS pyrazines
. azines
. . cyanurates
. . cyanuric acid
. . meclizine
. . methylene blue
. . phenothiazines

Pyrenees Mountains (Europe)
GS landforms
. mountains
. . Pyrenees Mountains (Europe)
RT Andorra
France
Spain

pyrenes
GS organic compounds
. hydrocarbons
. . pyrenes

Pyrex (trademark)
USE borosilicate glass

pyridine nucleotides
GS organic compounds

. nucleotides
. . pyridine nucleotides
phosphorus compounds
. phosphates
. . pyridine nucleotides

pyridines
DEF Compounds that contain a six-membered heterocyclic ring containing one nitrogen atom.
GS bases (chemical)
. pyridines
organic compounds
. cyclic compounds
. . heterocyclic compounds
. . . pyridines
RT Karl Fischer reagent
piperidine
quinoline

pyridoxine
UF *vitamin B 6*
GS organic compounds
. cyclic compounds
. . heterocyclic compounds
. . . pyridoxine
vitamins
. pyridoxine

pyrimidines
DEF Compounds that contain a six-membered heterocyclic ring containing nitrogen atoms in the 1 and 3 positions.
GS organic compounds
. cyclic compounds
. . heterocyclic compounds
. . . pyrimidines
. . . . siloxan
. . . . thymidine
. . . . thymine
. . . . uracil

pyrites
GS chalcogenides
. sulfides
. . pyrites
iron compounds
. pyrites
minerals
. pyrites
sulfur compounds
. sulfides
. . pyrites

Pyroceram (trademark)
GS ceramics
. Pyroceram (trademark)
glass
. Pyroceram (trademark)

pyroelectricity
GS electrical properties
. pyroelectricity
thermodynamic properties
. thermophysical properties
. . pyroelectricity
RT piezoelectricity
polarization (charge separation)

pyrogen
GS gases
. flammable gases
. . pyrogen
RT torches

pyrographalloy
USE **composite materials**
pyrolytic graphite
refractory materials

pyroheliometers
DEF Actinometers which measure the intensity of direct solar radiation, consisting of a radiation sensing element enclosed in a casing which is closed except for a small aperture, through which the direct solar rays enter, and a recorder unit. Used for heliometry.
UF *heliometry*
GS measuring instruments
. heliometers
. . pyroheliometers
optical equipment
. heliometers
. . pyroheliometers
telescopes
. heliometers
. . pyroheliometers

pyrohydrolysis
DEF Decomposition by the action of heat and water vapor.
GS chemical reactions
. pyrohydrolysis
RT pyrolysis

pyrolysis
DEF Chemical decomposition by the action of heat.
GS chemical reactions
. cracking (chemical engineering)
. . pyrolysis
. thermal decomposition
. . pyrolysis
decomposition
. cracking (chemical engineering)
. . pyrolysis
. thermal decomposition
. . pyrolysis
RT ablation
endothermic reactions
exothermic reactions
pyrohydrolysis
thermal absorption
thermal degradation
thermal instability
thermogravimetry

pyrolytic graphite
UF *pyrographalloy*
GS carbonaceous materials
. graphite
. . pyrolytic graphite
minerals
. graphite
. . pyrolytic graphite
pyrolytic materials
. pyrolytic graphite
RT heat shielding

pyrolytic materials
GS pyrolytic materials
. pyrolytic graphite
RT ablative materials
ceramics
∞ materials
refractory coatings
refractory materials

pyrometallurgy
RT aerothermochemistry
alloying
chlorination
∞ converters
heat balance
metal working
∞ metallurgy
refining
sintering
sublimation
thermochemistry

pyrometers
DEF Instruments that measure high temperature, e.g., of molten lavas, by electrical or optical means.
GS measuring instruments
. temperature measuring instruments
. . pyrometers
. . . radiation pyrometers
. . . thermocouple pyrometers
RT temperature measurement

pyrometry
USE **temperature measurement**

pyrophoric materials
RT explosives
flammability
hypergolic rocket propellants
igniters
ignition temperature
∞ materials
metal combustion
solid propellant ignition
spontaneous combustion

pyrophyllite
DEF A white, greenish, gray, or brown phyllosilicate mineral that resembles talc.
GS aluminum compounds
. aluminum silicates
. . pyrophyllite
minerals
. pyrophyllite
silicon compounds
. silicates
. . aluminum silicates
. . . pyrophyllite
RT aluminum oxides

pyrotechnics
UF *fireworks*
GS pyrotechnics
. HMX
RT ammunition
bombs (ordnance)
chemical fuels
double base propellants
explosives
∞ flares
grenades
illuminating
incendiary ammunition
initiators (explosives)
ordnance
plastic propellants
projectiles
RDX
∞ rockets
∞ signals
thermites

pyroxenes
DEF A group of dark, rock-forming silicate minerals.
GS chalcogenides
. oxides
. . pyroxenes
. . . enstatite
minerals
. pyroxenes

. . enstatite
silicon compounds
. silicates
. . pyroxenes
. . . enstatite
RT eclogite
igneous rocks
regolith
rocks
soils

pyroxylin
USE cellulose nitrate

pyrrhotite
DEF A common reddish-brown to bronze hexagonal mineral.
GS chalcogenides
. sulfides
. . pyrrhotite
. . . troilite
iron compounds
. pyrrhotite
. . troilite
minerals
. pyrrhotite
. . troilite
sulfur compounds
. sulfides
. . pyrrhotite
. . . troilite

pyrroles
DEF Compounds that contain a five-membered heterocyclic ring containing one nitrogen atom.
GS organic compounds
. cyclic compounds
. . heterocyclic compounds
. . . azoles
. . . . pyrroles
. . . . . carbazoles
. . . . . indoles
. . . . . tryptophan
RT methoxy systems
polypyrroles
thiophenes

Pyrrones (trademark)
RT ∞ polymers

pyruvates
RT organic liquids

Q

Q devices
RT magnetic mirrors
plasma pinch
zeta pinch

Q factors
UF *high Q*
quality factors
RT figure of merit
resonant vibration
spectral resolution
tuning

Q switched lasers
DEF A device for producing very short (about 30 ns)intense laser pulses by enhancing the storage and dumping of electronic energy in and out of the lasing medium.
GS stimulated emission devices
. lasers
. . pulsed lasers
. . . Q switched lasers
RT argon lasers
carbon dioxide lasers
chemical lasers
gas lasers
ruby lasers
semiconductor lasers
solid state lasers

Q values (nuclear physics)
GS value
. Q values (nuclear physics)
RT fusion reactors
storage rings (particle accelerators)
thermonuclear reactions
tokamak devices

QAM (modulation)
USE **quadrature amplitude modulation**

Qatar
(added February 1989)
GS nations
. Qatar
RT Asia

QCD
USE **quantum chromodynamics**

QH-60 helicopter
UF *Dash helicopter*
DSN helicopter
Gyrodyne DSN-3 helicopter
Gyrodyne military aircraft
GS Gyrodyne aircraft
. QH-60 helicopter
V/STOL aircraft
. rotary wing aircraft
. . helicopters
. . . military helicopters
. . . . QH-60 helicopter

QPSK
USE **quadrature phase shift keying**

QSO (radio sources)
USE **quasars**

Quadrantid meteoroids
GS celestial bodies
. meteoroid showers
. . Quadrantid meteoroids
. meteoroids
. . Quadrantid meteoroids

quadrants
GS geometry
. Euclidean geometry
. . analytic geometry
. . . quadrants

quadraphase shift keying
USE **quadrature phase shift keying**

quadratic equations
GS algebra
. nonlinear equations
. . quadratic equations
analysis (mathematics)
. real variables
. . nonlinear equations
. . . quadratic equations
field theory (algebra)
. quadratic equations
RT ∞ equations
polynomials

quadratic programming
GS optimization
. mathematical programming
. . quadratic programming
research
. quadratic programming
RT ∞ programming

quadrature amplitude modulation
(added August 1991)
DEF Amplitude modulation in which the signal is 90 degrees out of phase with the carrier which it modulates.
UF *QAM (modulation)*
GS coding
. signal encoding
. . amplitude modulation
. . . quadrature amplitude modulation
modulation
. amplitude modulation
. . quadrature amplitude modulation
RT phase shift keying
quadrature phase shift keying

quadrature approximation
USE **quadratures**

quadrature phase shift keying
(added May 1991)
UF *QPSK*
quadraphase shift keying
GS coding
. signal encoding
. . phase modulation
. . . phase shift keying
. . . . quadrature phase shift keying
keying
. phase shift keying
. . quadrature phase shift keying
modulation
. phase modulation
. . phase shift keying
. . . quadrature phase shift keying
RT binary phase shift keying
quadrature amplitude modulation
satellite transmission

quadratures
DEF Elongations of 90 deg., usually specified as east or west in accordance with the direction of the body from the sun. The moon is a quadrature at first and last quarters. The situation of two periodic quantities differing by a quarter of a cycle. Used for quadrature approximation.
UF *quadrature approximation*
RT circular orbits
orbit calculation
orbital mechanics
orbits
space mechanics

quadrupole lenses
USE **magnetic lenses**

quadrupole networks
GS networks
. quadrupole networks

quadrupoles
DEF A linear accelerator having four longitudinal vanes in its resonating cavity, which are shaped to create RF electric fields that simultaneously accelerate, bunch, and focus the charged particle beam.
RT ∞ dipoles
nuclear quadrupole resonance
polarity

quail missile
GS decoys
. quail missile
missiles
. air to surface missiles
. . quail missile
RT countermeasures
turbojet engines

qualifications
RT certification
contractors
education
experience
fitness
personality tests
personnel
∞ tests

qualitative analysis
DEF An analysis in which some or all of the components of a sample are identified.
GS chemical tests
. chemical analysis
. . qualitative analysis
RT analytical chemistry
electrophotometry
flame spectroscopy
gas analysis
mass spectrometers
microanalysis
neutron activation analysis
quantitative analysis
spectroscopic analysis

quality

quantum counters
GS measuring instruments
. counters
. . radiation counters
. . . quantum counters
. radiation measuring instruments
. . radiation counters
. . . quantum counters
RT squid (detectors)

quantum dots
(added October 1997)
DEF Small (30 nm to 1 micron) metal or semiconductor structures that hold a discrete number of electrons; the number of electrons can be altered by modifying the electrostatic environment of the dot.
GS nanostructures (devices)
. quantum dots
RT electron tunneling
nonlinear optics
quantum electronics
quantum wells
quantum wires
semiconductor devices
semiconductor lasers

quantum efficiency
DEF A measure of the efficiency of conversion or utilization of light or some other form of energy.
RT energy conversion efficiency
energy technology
heterojunction devices
laser outputs
solar cells
volt–ampere characteristics

quantum electrodynamics
GS electrodynamics
. quantum electrodynamics
quantum mechanics
. quantum electrodynamics
RT electromagnetic fields
Feynman diagrams
field theory (physics)
Landau–Ginzburg equations
resonance fluorescence
self consistent fields

quantum electronics
DEF The branch of electronics that essentially deals with lasers and laser devices which require quantum theory for their exact description.
RT∞ electronics
lasers
nanostructures (devices)
quantum dots
quantum mechanics
quantum theory
quantum wires
resonant tunneling
tunnel junctions

quantum generators
USE stimulated emission devices

quantum mechanics
GS quantum mechanics
. Pauli exclusion principle

quantum numbers
DEF A number assigned to one f the various values of a quantized quantity in its descrete range. The quantum numbers arise from the mathematics of the wave equations. When the quantity has a quantum, the quantum number is the number of such quantums. A state may be described by giving a sufficient set of compatible numbers. In the cutomary forumlations, each quantum number is either an integer (which may be positive, negative, or zero) or an odd half–integer.

radar
(added January 1991)
DEF A method, system or technique of using beamed, reflected, and timed radio waves for detecting, locating, or tracking objects (such as rockets), for measuring altitude, etc., in any of various activities, such as air traffic control or guidance. The electronic equipment or apparatus used to generate, transmit, receive, and usually, to display radio scanning or locating waves, a radar set. Used for radio detection and ranging.

. radial velocity
RT astronomical spectroscopy
Doppler effect
radar targets
red shift
velocity measurement

radiance
SN (DIRECTIONAL EMISSION RATE PER UNIT AREA OF RADIATION)
DEF In radiometry, a measure of the intrinsic radiant intensity emitted by a radiator in a given direction. It is the irradiance (radiant flux density) produced by radiation from the source upon a unit surface area oriented normal to the line between source and receiver, divided by the solid angle subtended by the source at the receiving surface. It is assumed that the medium between the radiator and receiver is perfectly transparent; therefore radiance is independent of attenuation between source and receiver.

. . active galaxies
. . . radio galaxies
. radio sources (astronomy)
. . extragalactic radio sources
. . . radio galaxies
RT active galactic nuclei
blazars
disk galaxies
Maffei galaxies
quasars

radio horizons
DEF Loci or points at which direct rays from a radio transmitter become tangential to the Earth's surface.
GS horizon
. radio horizons
RT horizon scanners

radio interference
USE radio frequency interference

radio interferometers
DEF Interferometers operating at radio frequencies. Radio interferometers are used in radio astronomy and in satellite tracking.
GS measuring instruments
. interferometers
. . radio interferometers
RT astrophysics
Orion (radio interferometry network)
very long base interferometry

radio jets (astronomy)
DEF Jets of energetic particles occurring in radio galaxies and quasars usually emitted from the nuclear (active) region of the extragalactic radio source.
GS celestial bodies
. radio sources (astronomy)
. . extragalactic radio sources
. . . radio jets (astronomy)
particles
. charged particles
. . plasma jets

receivers
DEF Initial components or sensing elements of measuring systems. For example, the receiver of a thermoelectric thermometer is the measuring thermocouple. Instruments used to detect the presence and to determine the information carried by electromagnetic radiation. Receivers include circuits designed to detect, amplify, rectify, and shape the incoming radio frequency signals received at the antenna in such a manner that the information containing component of the received energy can be delivered to the desired indicating of recording equipment. Used for receiving systems.
UF *receiving systems*

two reflector antennas

reflexes
GS **reflexes**
. carotid sinus reflex
. conditioned reflexes
. respiratory reflexes
. . cough
. . Hering–Breuer reflex
. . sneezing
. vestibular nystagmus
RT deconditioning
reaction time
vasoconstriction
vasodilation

reforestation
DEF The reestablishment of a tree crop on forest land.
GS management
. resources management
. . forest management
. . . **reforestation**
RT forests
timber inventory

refracted radiation
USE **refracted waves**

refracted rays
USE **refracted waves**

refracted waves
DEF Waves that have had their direction of motion changed by refraction. Used for refracted radiation and refracted rays.
UF *refracted radiation*
refracted rays
RT corpuscular radiation
eikonal equation
elastic waves
electromagnetic radiation
incident radiation
photon beams
reflected waves
refraction
∞ waves

refracting telescopes
DEF Telescopes which collect light by means of a lens or system of lenses.
GS telescopes
. **refracting telescopes**
RT lenses
optical equipment
optical measuring instruments
spectroscopic telescopes
stratoscope telescopes

refraction
DEF The process in which the direction of energy propagation is changed as the result of a

change within the propagating medium, or as the energy passes through the interface representing a density discontinuity between the two media. In the first instance, the rays undergo a smooth bending over a finite distance. In the second case, the index of refraction changes through an interfacial layer that is thin compared to the wavelength of the radiation; thus, the refraction is abrupt, essentially discontinuous.

GS **refraction**
. atmospheric refraction
. . radio wave refraction
. birefringence
. . Kerr electrooptical effect
RT asphericity
astigmatism
∞ conduction
deflection
diffraction
distortion

gibberellins
speed control

regulatory mechanisms (biology)
SN (RESTRICTED TO THE REGULATION OF PHYSIOLOGICAL AND PHYSIOCHEMICAL PROCESSES—EXCLUDES ECOLOGICAL, GENETIC, OR BIOTECHNOLOGICAL REGULATION)
DEF Specific processes by which living organisms control the rates of biochemical and physiological reactions involved in processes such as metabolism and cellular differentiation.
RT biocontrol systems
calmodulin
∞ control
hormones
thermoregulation

Regulus missile
GS missiles
. surface to surface missiles
. . **Regulus missile**
RT solid propellant rocket engines
turbojet engines

reheating
USE **heating**

reignition
USE **ignition**

reinforced plastics
DEF Plastics with some strength properties greatly superior to those of the base resin, resulting from the presence of high-strength fillers imbedded in the composition. Note: The reinforcing fillers are usually fibers, fabrics, or mats made of fibers. The plastic laminates are the most common and strongest.
GS composite materials
. polymer matrix composites
. . **reinforced plastics**
. . . carbon fiber reinforced plastics
. . . . carbon–phenolic composites
. . . glass fiber reinforced plastics

remote sensing
DEF The collection of information about an object by a recording device that is not in physical contact with it. The term is usually restricted to mean methods that record reflected or radiated electromagnetic energy, rather than methods that involve significant penetration into the Earth. The technique employs such devices as cameras, infrared detectors, microwave frequency receivers, and radar systems.

resolution
DEF The ability of a film, a lens, a combination of both, or a vidicon system to render barely distinguishable a standard pattern of black and white lines. In radar, the minimum angular separation at the antenna at which two targets can be distinguished (a function of beamwidth); or the minimum range at which two targets at the same azimuth can be separated (equal to one half the pulse height). Of a gyro, a measure of response to small changes in input; the maximum value of the minimum input change that will cause a detectable change in the output for inputs greater than the threshold, expressed as a percent of one half the input range. Used for resolving power.
UF *resolving power*

resolving power
USE **resolution**

resonance
DEF The phenomena of amplification of a free wave or oscillation of a system by a forced wave or oscillation of exactly equal period. The forced wave may arise from an impressed force upon the system or from a boundary condition. The growth of the resonant amplitude is characteristically linear in time. Of a system in forced oscillation, the condition which exists when any change, however small, in the frequency of excitation causes a decrease in the response of the system.
GS **resonance**

RT vision
visual fields

retinene
UF *vitamin A*
GS organic compounds
. cyclic compounds
. . heterocyclic compounds
. . . **retinene**
. lipids
. . **retinene**
vitamins
. **retinene**
RT aldehydes
carotene

retirement
RT employee relations
industries
personnel
sociology

retirement for cause
DEF Procedure, primarily on aircraft, based on fracture mechanics, which allows safe utilization of the full life capacities of each component.
RT component reliability
engine parts
fatigue life
fracture strength
inventory management
life (durability)
metal fatigue
service life
spare parts

RETORC (torpedoes)
USE **torpedoes**

retort processing
DEF One method for converting shale oil into oil similar to petroleum oils.
RT fractionation
hydrocarbon fuels
oils
∞ processing
shale oil

retractable equipment
UF *retractable landing gear*
RT aerodynamic brakes
landing gear
refueling

retractable landing gear
USE **landing gear**
retractable equipment

retraining
UF *reorientation*
RT adaptation
education
management methods
manpower
personnel
tasks
training analysis

retrieval
GS **retrieval**
. data retrieval
. information retrieval
. payload retrieval (STS)
RT ∞ recovery
searching

retroaction
USE **retrothrust**

retrofiring
GS firing (ignition)
. rocket firing
. . **retrofiring**
RT deceleration
retrorocket engines
retrothrust

retrofitting
DEF Modification of equipment to incorporate changes made in later production of similar equipment; the changes may be performed in the factory or in the field.
GS **retrofitting**
. acoustic retrofitting
RT installing

retrograde orbits
(added June 1995)
DEF Motion in an orbit opposite to the usual orbital direction of celestial bodies within a given system. Specifically, of a satellite, motion in a direction opposite to the direction of rotation of the primary.
GS orbits
. **retrograde orbits**
RT interacting galaxies
orbital mechanics
planetary orbits
precession
satellite orbits
spacecraft orbits
stellar orbits
three body problem

retroreflection
DEF Reflection wherein the reflected rays return along paths parallel to those of their corresponding incident rays. Also called retroflection.
GS reflection
. **retroreflection**
RT antenna arrays
incident radiation
LAGEOS (satellite)
lunar retroreflectors
reflected waves
retroreflectors

retroreflectors
DEF Class of optical instruments which cause reflected radiation to return along paths parallel to those of their corresponding incident rays.
GS radar equipment
. **retroreflectors**
reflectors
. **retroreflectors**
RT radar corner reflectors
retroreflection

retrorocket engines
DEF Rocket engines fitted on or in spacecraft, satellites, or the like to produce thrust opposed to forward motion.
GS engines
. rocket engines
. . **retrorocket engines**
. . . BE-3 engine
RT control rockets
internal combustion engines
liquid propellant rocket engines
man operated propulsion systems
restartable rocket engines
retrofiring
retrothrust
solid propellant rocket engines

retrothrust
DEF Thrust used for a braking maneuver; reverse thrust. Used for retroaction.
UF *retroaction*
GS thrust
. rocket thrust
. . **retrothrust**
RT deceleration
retrofiring
retrorocket engines

return beam vidicons
GS electron tubes
. camera tubes
. . vidicons
. . . **return beam vidicons**
. . . . thermicons
RT television cameras

return to Earth space flight
GS space flight
. **return to Earth space flight**
RT Assured Crew Return Vehicle
interplanetary flight
manned Mars missions
spacecraft reentry
X-38 crew return vehicle

reusable heat shielding
GS shielding
. heat shielding
. . **reusable heat shielding**
RT cooling
heat transfer
reentry shielding
spacecraft shielding
temperature control
thermal control coatings

Inertial Upper Stage
interim stages (spacecraft)
interplanetary spacecraft
landing modules
lunar landing modules
manned spacecraft
Saenger space transportation system
soft landing spacecraft
Space Shuttle Boosters
unmanned spacecraft
X-33 reusable launch vehicle
X-34 reusable launch vehicle

reuse
GS utilization
. **reuse**
. . software reuse
RT oil recovery
∞ recovery

revenue
RT allocations
assessments
budgeting
costs
international trade

reverberation
DEF The persistance of sound in an enclosed space, as a result of multiple reflections, after the sound source has stopped. The sound that persists in an enclosed space, as a result of repeated reflection or scattering after the source of the sound has stopped.
GS acoustic properties
. acoustic scattering
. . **reverberation**
scattering
. wave scattering
. . acoustic scattering
. . . **reverberation**
RT echoes
noise (sound)
reverberation chambers
sound waves

reverberation chambers
DEF Chambers designed to eliminate outside noise for accurate acoustic measurement.
GS compartments
. test chambers
. . **reverberation chambers**
test facilities
. **reverberation chambers**
RT acoustic measurement
acoustic simulation
∞ chambers
environmental tests
reverberation

reverse engineering
(added May 1992)
RT computer programming
design analysis
reversing
software development tools
software engineering
systems engineering

reverse field pinch
DEF A method of plasma confinement under investigation as part of the mirror and pinch programs.
GS pinch effect
. **reverse field pinch**
RT magnetohydrodynamic flow
plasma control
reactor technology

screw pinch
toroidal plasmas

reverse osmosis
DEF The application of pressure to stop or reverse the transport of solvent through a semipermeable membrane separating two solutions of different solute concentration. The applied pressure required to prevent the flow of solvent across a perfectly semipermeable membrane is called the osmotic pressure and is a characteristic of the solution.
GS osmosis
. **reverse osmosis**
RT demineralizing
desalinization
membranes
permeating

reverse time
USE **reaction time**

reversed flow
GS fluid flow
. **reversed flow**
RT boundary layer separation
recirculative fluid flow
reversing
separated flow

RT aerodynamic configurations
∞ equations
Navier–Stokes equation
scale models

Reynolds law
USE **Reynolds equation**

Reynolds number
DEF A nondimensional parameter representing the ratio of the momentum forces to the viscous forces in fluid flow. (After Osborne Reynolds, 1842–1912, English scientist). Used for critical Reynolds number.
UF *critical Reynolds number*
GS dimensionless numbers
. **Reynolds number**
. . high Reynolds number
. . low Reynolds number
ratios
. **Reynolds number**
. . high Reynolds number
. . low Reynolds number
RT boundary layer flow
boundary layer stability
boundary layer transition
critical velocity
fluid flow
Froude number
Grashof number
inviscid flow
laminar flow
Peclet number
Prandtl number
Richardson number
scale effect
transition points
turbulent flow
viscous flow

Reynolds stress
DEF In the mathematical treatment of a viscous, incompressible, homogeneous fluid in turbulent motion, that represents the transfer of momentum due to turbulent fluctuations.
GS stresses
. **Reynolds stress**
RT incompressible flow
Navier–Stokes equation
Reynolds averaging
turbulent boundary layer
turbulent flow

RF–4 aircraft
USE **F–4 aircraft**

RF–8 aircraft
USE **F–8 aircraft**

RFI (composite materials)
USE **resin film infusion**

RH–2 helicopter
USE **UH–1 helicopter**

Rhea (astronomy)
DEF A natural satellite of the planet Saturn orbiting at a mean distance of 527,000 kilometers.
GS celestial bodies
. natural satellites
. . icy satellites
. . . **Rhea (astronomy)**
. . Saturn satellites
. . . **Rhea (astronomy)**

human factors engineering
production management
warning systems

SAGE air defense system
GS air defense
. **SAGE air defense system**
RT ∞ systems

SAGE satellite
DEF Spacecraft for the study of stratospheric aerosols and gases. Used for Stratospheric Aerosol & Gas Experiment.
UF *Stratospheric Aerosol & Gas Experiment*
GS artificial satellites
. **SAGE satellite**
RT aerosols
ozone

Saginaw Bay (MI)
GS bays (topographic features)
. **Saginaw Bay (MI)**
RT inlets (topography)
Lake Huron
Michigan
river basins

Sagittarius constellation
GS constellations
. **Sagittarius constellation**

Sagnac effect
DEF A phase shift (and consequent measurable rotation rate) caused by nonreciprocity (different optical path lengths) of two counter-propagating light waves traveling in the same coil in a fiber optic gyro or ring interferometer.
GS phase shift
. **Sagnac effect**
RT angular velocity
astronomical interferometry
etalons
fiber optics
interferometers
interferometry
laser gyroscopes
laser interferometry
light transmission
nonlinear optics
optical gyroscopes
optical paths
speckle interferometry
wave propagation

Saha equations
RT arc heating
electric arcs
∞ equations
ion density (concentration)
ionization potentials
temperature

Sahara Desert (Africa)
GS land
. deserts
. . **Sahara Desert (Africa)**
RT Africa
arid lands
barren land
desertification
dunes
remote regions

SAIL project
UF *Shuttle Avionics Integration Laboratory*
GS programs
. NASA programs
. . NASA space programs
. . . **SAIL project**
. projects
. . **SAIL project**
. space programs
. . NASA space programs
. . . **SAIL project**
RT Earth Viewing Applications Laboratory
laboratories
space laboratories
space shuttles

sailplanes
USE **gliders**

sails
GS **sails**
. magnetic sails
. sailwings
. solar sails
RT fins
gliders
tail assemblies

sailwings
UF *Princeton sailwings*
GS folding structures
. **sailwings**
sails
. **sailwings**
RT gliders
hang gliders

Saint Elmo fire
GS electric current
. electric discharges
. . **Saint Elmo fire**
RT fires

Saint Venant flexure problem
USE **Saint Venant principle**

Saint Venant principle
UF *Saint Venant flexure problem*
St Venant flexure problem
RT plastic deformation
static deformation
static loads
stress analysis
stress concentration
temperature inversions

salicylates
GS **salicylates**
. sodium salicylates
RT acetylsalicylic acid
drugs
esters

salinity
GS chemical properties
. **salinity**
RT alkalinity
brines
core sampling
desalinization
ocean currents
oceanographic parameters
sea water
soil sampling

saliva
GS body fluids
. **saliva**
RT digestive system
mucus
salivary glands

salivary glands
UF *parotid gland*
GS anatomy
. digestive system
. . **salivary glands**
. glands (anatomy)
. . **salivary glands**
RT mouth
saliva

salmonella
GS microorganisms
. bacteria
. . **salmonella**

salt baths
GS baths
. **salt baths**
RT brines
heat treatment
molten salts

salt beds
DEF Deposits of sodium chloride and other salts resulting from the evaporation and/or precipitation of ancient oceans.
GS geology
. beds (geology)
. . **salt beds**
landforms
. beds (geology)
. . **salt beds**
RT brines
bromides
chlorides
flats (landforms)
sodium chlorides

salt flats
USE **flats (landforms)**

salt spray tests
GS chemical tests
. **salt spray tests**
environmental tests
. corrosion tests
. . **salt spray tests**
RT corrosion
corrosion resistance
spray ingestion
stress corrosion
∞ tests

Salton Sea (CA)
GS **seas**
. **Salton Sea (CA)**
RT California
deserts

∞ **salts**
SN (USE OF A MORE SPECIFIC TERM IS RECOMMENDED—CONSULT THE TERMS LISTED BELOW)
RT **halites**
inorganic compounds
molten salts
organic charge transfer salts
organic compounds
sodium chlorides
sulfonates

Salyut space station
GS artificial satellites
. space stations
. . **Salyut space station**
manned spacecraft
. **Salyut space station**
Soviet spacecraft
. **Salyut space station**

stations
. space stations
. . Salyut space station
RT Soyuz spacecraft
space bases
space laboratories
spacecraft docking
U.S.S.R. space program

Samaritan aircraft
USE C-131 aircraft

samarium
GS chemical elements
. rare earth elements
. . samarium
. . . samarium isotopes
metals
. rare earth elements
. . samarium
. . . samarium isotopes

samarium compounds

Samoa
GS landforms
. islands
. . Pacific islands
. . . Samoa

Samos
UF *Satellite and Missile Observation System*
GS artificial satellites
. Samos
military spacecraft
. reconnaissance spacecraft
. . Samos
RT satellite tracking

sampled data systems
(added July 1990)
RT adaptive control
automatic control
control stability
control theory
data sampling
feedback control

samplers
UF *bombs (samplers)*
sampling devices
RT ∞ bombs
core sampling
samples
sampling
selectors
∞ test equipment

samples
DEF Physical or biological specimens intended to be representative of the whole.
GS samples
. Mars surface samples
RT acceptability
Mars sample return missions
samplers
sampling
specimens

sampling
DEF Obtaining of a portion representative of the material concerned.
GS sampling
. air sampling
. core sampling
. data sampling
. particulate sampling
. random sampling
. soil sampling
RT allowances
assaying
Bayes theorem
censored data (mathematics)
chemical analysis
chemical tests
collection
concentration (composition)
confidence limits
counting
estimating
exploration
Global Air Sampling Program
heterogeneity
homogeneity
inspection
investigation
probability theory
process control (industry)
quality control
random errors
reliability
Rosetta mission
samplers
samples
selection
sequential analysis
specimens
standards
statistical analysis
∞ statistics
sweep circuits
∞ tests
variability
Weibull density functions

sampling devices
USE samplers

San Andreas Fault
GS geological faults
. San Andreas Fault
RT California
crustal fractures
Earth crust
earthquakes
Mexico

San Andreas Fault experiment
RT earthquakes
geological faults

San Francisco (CA)
GS cities
. San Francisco (CA)
RT California

San Francisco Bay (CA)
GS bays (topographic features)
. San Francisco Bay (CA)
RT California
Pacific Ocean
San Pablo Bay (CA)

San Joaquin Valley (CA)
GS valleys
. San Joaquin Valley (CA)
RT California
river basins

San Juan Mountains (CO)
GS landforms
. mountains
. . San Juan Mountains (CO)
RT Colorado

RT aggregates
alluvium
aquifers
deltas
dunes
dust
Earth resources
fans (landforms)
gravels
grit
ilmenite
littoral drift
littoral transport
molding materials
porous materials
quartz
rain erosion
reefs
sand casting
sandstones
sedimentary rocks
silica glass
silicon dioxide

sandstones
GS rocks
. sedimentary rocks
. . **sandstones**
RT Earth resources
sands
schist
soils

sandwich construction
USE **sandwich structures**

sandwich structures
UF *sandwich construction*
RT composite materials
epoxy matrix composites
honeycomb cores
honeycomb structures
interlayers
laminates
multilayer insulation
ply orientation
rigid structures
∞ structures
walls

Sanger space transportation system
USE **Saenger space transportation system**

sanitation
RT consumables (spacecrew supplies)
health
housekeeping (spacecraft)
hygiene
potable water
public health
sewers
toilets
warming systems
waste disposal
waste management

Santowax (trademark)
RT polystyrene

sapphire
GS aluminum compounds
. aluminum oxides
. . **sapphire**
chalcogenides
. oxides
. . metal oxides
. . . aluminum oxides
. . . . **sapphire**

saprophytes
GS plants (botany)
. **saprophytes**
RT bacteria
microorganisms

sarcina
GS microorganisms
. bacteria
. . **sarcina**

sarcoma
USE **cancer**

sarcoplasmic reticulum
GS organelles
. endoplasmic reticulum
. . **sarcoplasmic reticulum**
RT cells (biology)
cytology
cytoplasm

Sargasso Sea
DEF A region in the Atlantic characterized by mixing ocean currents and a lack of winds. Located northeast of the West Indies.
RT Atlantic Ocean
Gulf Stream
ocean models
ocean surface
oceanography
seas

SarSat
DEF The US satellite of the COSPAS–SarSat project for the search and rescue of distressed vehicles, administered by USSR, US, French, and Canadian agencies. Used for Search and Rescue Satellite.
UF *Search and Rescue Satellite*
GS artificial satellites
. **SarSat**
RT COSPAS
NOAA 8 satellite
reconnaissance
rescue operations
searching

SAS
UF *Small Astronomy Satellites*
GS artificial satellites
. scientific satellites
. . astronomical satellites
. . . **SAS**

radio astronomy
spaceborne astronomy
x ray astronomy

SAS–D
USE **IUE**

Saskatchewan
GS nations
. Canada
. . **Saskatchewan**

SATAN (sensor)
USE **terrain analysis**

satellite altimetry
GS altimetry
. **satellite altimetry**
RT altimeters
geodesy
geodetic satellites
geoids
GEOS 3 satellite
Geosat satellites
radar measurement
satellite observation

satellite-borne radar
SEASAT satellites
topography

Satellite and Missile Observation System
USE Samos

satellite antennas
GS antennas
. satellite antennas
RT furlable antennas
multibeam antennas
radio antennas
telecommunication

satellite atmospheres
DEF The atmospheres that are found on natural satellites.
GS environments
. extraterrestrial environments
. . satellite atmospheres
. . . lunar atmosphere
RT ∞ atmospheres
atmospheric chemistry
atmospheric composition
atmospheric physics
Earth atmosphere
Earth ionosphere
Earth magnetosphere
Huygens probe
ionospheric composition
magnetopause
natural satellites
planetary atmospheres
stellar atmospheres
Titan
Triton
upper atmosphere

satellite attitude control
GS attitude control
. satellite attitude control
spacecraft control
. satellite control
. . satellite attitude control
RT attitude stability
automatic control
∞ control
directional control
gravity gradient satellites
jet control
lateral control
longitudinal control
Marquardt R4D engine
three axis stabilization
Transit Attitude Control satellite

satellite attitude disturbance
USE attitude stability
spacecraft stability

satellite breakup
USE spacecraft breakup

satellite capture
USE spacecraft recovery

satellite clusters
USE satellite constellations

satellite communication
DEF Use of communication satellites, passive reflecting belts of dipoles or needles, or reflecting orbiting balloons to extend the range of radio communication by returning signals to Earth from the orbiting object, with or without amplification.
GS telecommunication
. space communication
. . spacecraft communication
. . . satellite communication
RT ACTS
ARPA computer network
astrionics
circumlunar communication
communication satellites
Earth terminals
facsimile communication
ground-air-ground communication
hoop column antennas
interplanetary communication
lunar communication
multibeam antennas
optical communication
packet transmission
plasma antennas
radio communication
satellite communications ships
satellite ground support
single channel per carrier transmission
system generated electromagnetic pulses
transmission rate (communications)
unified S band

satellite communications ships
UF *USNS Kingsport*
GS surface vehicles
. satellite communications ships
water vehicles
. ships
. . satellite communications ships
RT satellite communication
spacecraft communication

satellite configurations
GS spacecraft configurations
. satellite configurations

examination
monitors
multispectral band scanners
rapid ballistics identification
reading
scanners
searching
surveillance
ultrasonic scanners

scanning devices
USE **scanners**

scanning electron microscopy
(added September 1992)
DEF A type of electron microscopy in which a beam of electrons, a few hundred angstroms in diameter, systematically sweeps over the specimen. The intensity of secondary electrons

generated at the point of impact of the beam on the specimen is measured and the resulting signal is fed into a cathode-ray-tube display which is scanned in synchronism with the scanning of the specimen.
UF *SEM (microscopy)*

speckle holography
speckle interferometry

scatter propagation
DEF Specifically, the long-range propagation of radio signals by scattering due to index of refraction inhomogeneities in the lower atmosphere.
GS transmission
. electromagnetic wave transmission
. . **scatter propagation**
. . . ionospheric F-scatter propagation
. wave propagation
. . **scatter propagation**
. . . ionospheric F-scatter propagation
RT backscattering
forward scattering
ionospheric propagation
meteor trails
radio reception
radio scattering
radio transmission
radio waves

scatterers
USE **scattering**

scattering
DEF The process by which small particles suspended in a medium of a different index of diffraction diffuse a portion of the incident radiation in all directions. In scattering, no energy transformation results, only a change in the spatial distribution of the radiation. Used for scatterers.
UF *scatterers*
GS **scattering**

fuels
gasoline
hydrocarbon fuels
kerogen

kerosene
lubricating oils
paraffins
retort processing

shales
DEF Fine grained detrital sedimentary rocks, formed by the consolidation (especially by compression) of clay, silt, or mud. They are characterized by finely laminated structures, which impart a fissility approximately parallel to the bedding, along which rocks break readily into thin layers and are commonly most conspicuous on weathered surfaces. They are characterized by an appreciable content of clay minerals and detrital quartz; thinly laminated or fissile claystones, siltstones, or mudstones.
GS rocks
. **sedimentary rocks**
. . **shales**
RT boreholes
clays
Earth resources
minerals
soils

shallow shell equations
RT end plates
∞ equations
pressure vessels
stress analysis

shallow shells

Shannon information theory
USE **information theory**

Shannon–Wiener measure
RT entropy
information theory
random variables

shape control
DEF The control of large flexible platforms in orbit by means of actuators strategically located.
RT actuators
Columbus space station
∞ control
control theory
flexible spacecraft
large space structures
space platforms
spacecraft control

shape functions
(added July 1992)
GS functions (mathematics)
. **shape functions**
RT finite element method
polynomials
structural analysis

shape memory alloys
DEF Martensitic alloys (titanium–nickel) which exhibit shape recovery characteristics by stress-induced transformation and reorientation. Reverse transformation during heating restores the original grain structure of the high temperature phase.
GS alloys
. **shape memory alloys**
. . nitinol alloys
RT microstructure
nickel alloys
phase transformations
plastic memory
stress–strain diagrams
temperature effects
titanium alloys
transition metals

shaped charges
DEF An explosive device configured so that its energy can be controlled in one direction.
GS explosive devices
. **shaped charges**
RT ammunition
bombs (ordnance)
explosive forming
explosives
projectiles
torpedoes
warheads
weapons

shapers
GS tools
. machine tools

stress–strain diagrams
temperature inversions
toughness

shear strain
DEF The tangent of the angular change, due to force, between two lines originally perpendicular to each other through a point in a body.
RT mechanical properties
structural strain
torsional vibration

shear strength
DEF The maximum shear stress which a material is capable of sustaining. Shear strength is calculated from the maximum load during a shear or torsion test and is based on the original dimensions of the cross section of the specimen.
GS mechanical properties
. shear properties
. . **shear strength**
RT compressive strength
fiber strength
high strength
interfacial energy
∞ strength
tensile strength

shear stress
DEF The stress component tangential to the plane on which the forces act. Used for shear fatigue and shearing stress.
UF *shear fatigue*
shearing stress
GS stresses
. **shear stress**
. . torsional stress
RT interlaminar stress
mechanical properties
shearography
transverse loads

shear waves
